

Contents

1	Introduction	1
2	Notational Conventions	9
3	Functional Analytic Preliminaries	13
4	On Schatten–von Neumann Classes and Trace Class Estimates	23
5	Pointwise Estimates for Integral Kernels	35
6	Dirac-Type Operators	55
7	Derivation of the Trace Formula: The Trace Class Result	65
8	Derivation of the Trace Formula: Diagonal Estimates	77
9	The Case $n = 3$	101
10	The Index Theorem and Some Consequences	107
11	Perturbation Theory for the Helmholtz Equation	119
12	The Proof of Theorem 10.2: The Smooth Case	131
13	The Proof of Theorem 10.2: The General Case	151
14	A Particular Class of Non-Fredholm Operators L and Their Generalized Witten Index	157
A	Construction of the Euclidean Dirac Algebra	167
B	A Counterexample to [22, Lemma 5]	175
	References	185
	Index	191
