Preface

The Mediterranean Conference on Information & Communication Technologies (MedICT 2015) was held at the wonderful Moroccan Blue Pearl city of Saidia, Morocco during 7–9 May 2015. MedICT is a Mediterranean premier networking forum for leading researchers in the highly active fields of Information and Communication Technologies. The general theme of this edition is Information and Communication Technologies for sustainable development of Mediterranean countries.

MedICT provides an excellent international forum to the researchers and practitioners from both academia as well as industry to meet and share cutting-edge development. The conference has also a special focus on enabling technologies for societal challenges, and seeks to address multidisciplinary challenges in Information and Communication Technologies such as health, demographic change, well-being, security and sustainability issues.

The proceedings publish high-quality papers which are closely related to the various theories, as well as emerging and practical applications of particular interest to the ICT community.
