## Contents

### Modeling and Specification

**Genericity in PAR Platform** .................................................. 3  
*Jinyun Xue*

**Modeling and Verification of an Interrupt System in μC/OS-III with TMSVL** .................................................. 15  
*Jin Cui, Zhenhua Duan, Cong Tian, and Nan Zhang*

**The Interchange Format of Tabular Expressions Using XML** .................................................. 29  
*Mao Huang, Yihai Chen, Ridha Khedri, and Huaikou Miao*

**A GUI-Aided Approach to Formal Specification Construction** .................................................. 44  
*Shaoying Liu*

### Testing and Debugging

**Automatic Generation of Specification-Based Test Cases by Applying Genetic Algorithms in Reinforcement Learning** .................................................. 59  
*Yuji Sato and Taku Sugihara*

**Fault Localization of Timed Automata Using Maximum Satisfiability** .................................................. 72  
*Shin Nakajima and Si-Mohamed Lamraoui*

**Automated Program Debugging for Multiple Bugs Based on Semantic Analysis** .................................................. 86  
*Aishan Liu, Li Li, and Jie Luo*

### Model Checking and Verification

**Model Checking Process Scheduling over Multi-core Computer System with MSVL** .................................................. 103  
*Xinfeng Shu and Zhenhua Duan*

**A Method Based on MSVL for Verification of the Social Network Privacy Policy** .................................................. 118  
*Xiaobing Wang and Tao Sun*

**A Case Study: SOFL + Model Checking for OSEK/VDX Application** .................................................. 132  
*Zhuo Cheng, Haitao Zhang, Yasuo Tan, and Yuto Lim*
On Reachability Analysis of Updatable Timed Automata with One Updatable Clock

Yunqing Wen, Guoqiang Li, and Shoji Yuen

Algorithm and Transformation

Research on Formal Development of Non-recursive Algorithms of Graph Search

Qimin Hu, Jinyun Xue, and Zhen You

LtlNfBa: Making LTL Translation More Practical

Cong Tian, Jun Song, Zhenhua Duan, and Zhao Duan

PPTL_SPIN: A SPIN Based Model Checker for Propositional Projection Temporal Logic

Xiaoming Zhang, Zhenhua Duan, and Cong Tian

Automatic Transformation from SOFL Module Specifications to Program Structures

Xiongwen Luo and Shaoying Liu

Author Index
Structured Object-Oriented Formal Language and Method
5th International Workshop, SOFL+MSVL 2015, Paris, France, November 6, 2015. Revised Selected Papers
Liu, S.; Duan, Z. (Eds.)
2016, VIII, 219 p. 90 illus. in color., Softcover
ISBN: 978-3-319-31219-4
