Part I  Professional Roles and Publishable Writing

1  From Aspiring Author to Published Scholar ......................... 3
   Who Is an Author? ........................................................................ 4
   Metaphors for Academic Writing ............................................. 5
   The Perquisites of Publishing .................................................. 6
   The Challenges of Scholarly Writing ...................................... 8
   Personal Writing Habits............................................................. 10
   Counteracting Obstacles to Scholarly Writing ...................... 12
      Implement Evidence-Based Strategies................................ 13
      Deal with Impatience and Uncertainty ................................. 15
      Cope with Time Constraints .............................................. 15
      Get Past Procrastination and Avoidance .............................. 16
      Address Aversion to Writing .............................................. 17
      Put Perfectionism on Hold ............................................... 19
      Be Realistic About Criticism ............................................. 20
      Seek Out More Knowledgeable Others .............................. 20
      Use Higher-Order Thinking .............................................. 22
   Nonnative and Native Speakers of English ............................ 22
   Additional Resources for International Scholars .................. 26
   Conclusion ............................................................................. 26

2  From Unpublishable to Publishable .................................. 27
   “Fast, Easy and Brilliant” Versus “Clearly and Warmly and Well” .... 29
   Purposes of Nonfiction Written for Professionals..................... 32
   Argument in Academic Writing .............................................. 32
   Voice in Academic Writing ................................................. 35
   Unpublishable Writing .......................................................... 37
   Publishable Scholarly Writing ............................................... 39
   Preventing Plagiarism ......................................................... 41
Responsible Conduct of Research ............................................................ 44
Policies Concerning Simultaneous Submissions ...................................... 45
Conclusion .............................................................................................. 46

3 From Trepidation to a First Draft ......................................................... 47
Creativity and Authorship ......................................................................... 48
Identifying and Narrowing a Topic .......................................................... 48
Locating Suitable Outlets .......................................................................... 51
Generating a First Draft ............................................................................ 52
Seeking Feedback from Others ................................................................. 55
Why Manuscripts Are Rejected ................................................................ 55
Coping with Rejection .............................................................................. 57
Getting the Writing Started ....................................................................... 61
Conclusion ................................................................................................ 67

Part II  Conference Proposals and Article Types

4 From Attending to Presenting at Conferences ........................................ 71
About Professional Conferences ............................................................... 72
Five Steps from Presentation to Publication ............................................. 73
Locating Suitable Venues for Making Presentations ............................... 74
Writing the Title and Abstract .................................................................. 76
Writing the Proposal ............................................................................... 77
Distributing Materials to Session Participants .......................................... 82
Writing and Presenting a Conference Paper ............................................. 83
Preparing a Speech or Keynote Address .................................................. 83
Reflecting on Outcomes .......................................................................... 85
Generating Publications from Presentations ............................................. 86
Ethical Issues in Conference Presentations .............................................. 87
Conclusion ................................................................................................ 89

5 From a Class Paper to a Publishable Review ......................................... 91
Understanding Literature Reviews ............................................................ 94
Purposes for a Literature Review ............................................................. 95
Types of Literature Reviews ..................................................................... 97
Developmental Sequence in Reviewing .................................................. 97
Errors in Reviewing ................................................................................ 98
Indicators of Quality in Literature Reviews .............................................. 99
Thoroughness and Authoritativeness ...................................................... 99
Synthesis .................................................................................................. 101
Evaluative Criteria .................................................................................. 102
Publishable Literature Reviews ............................................................... 103
Additional Resources on Writing Literature Reviews .............................. 107
The Position Paper .................................................................................. 108
Examples of Position Papers ................................................................... 109
Literature Reviews from Dissertation Chapters ....................................... 109
Conclusion ............................................................................................... 110
