## Contents

1. **Epidemiology of Acute Critical Limb Ischemia** .................................................... 1  
   Martyn Knowles and Carlos H. Timaran

2. **Epidemiology of Chronic Critical Limb Ischemia** ................................................ 9  
   Akhil Gulati, Lawrence Garcia, and Subasit Acharji

3. **Classification Systems for Acute and Chronic Limb Ischemia** ......................... 15  
   Taishi Hirai, Amit S. Dayal, Rie Hirai, Timothy E. Tanke, and Robert S. Dieter

4. **Pathologic Aspects of Ischemic Limb Disease** .................................................. 23  
   Arno A. Roscher, Raymond A. Dieter, Jr., and Beth L. Johnson

5. **History and Physical Exam of Acute Limb Ischemia** ...................................... 29  
   Nancy Panko and Matthew Blecha

6. **History and Physical Exam of Chronic Critical Limb Ischemia** ......................... 37  
   Rajmony Pannu and Steven M. Dean

7. **Vascular Anatomy of the Upper Limbs** ............................................................. 45  
   Rand S. Swenson, Norman J. Snow, and Brian Catlin

8. **Vascular Anatomy of the Lower Limbs** ............................................................. 54  
   Rand S. Swenson, Norman J. Snow, and Brian Catlin

9. **Overlap of Atherosclerotic Disease** .................................................................... 71  
   Natalie Gwilliam and Ross Milner

10. **Differential Diagnosis of Upper Extremity Ischemia** ....................................... 79  
    Laura Drudi and Kent MacKenzie

11. **Differential Diagnosis for Lower Extremity Ischemia and Ulcerations: Focus on Non-atherosclerotic Etiologies** ...................................................... 95  
    Sara E. Clark and Faisal Aziz

12. **Cardiac Causes of Acute and Chronic Limb Ischemia** ................................... 109  
    Raymond A. Dieter, III, Tjuan L. Overly, Madhur A. Roberts, and Juan J. Gallegos Jr.

13. **Progression from Peripheral Artery Disease to Critical Limb Ischemia** .......... 121  
    Michael J. McArdle, Jay Giri, and Emile R. Mohler, III

14. **Basic Science of Wound Healing** ................................................................. 131  
    Stephanie R. Goldberg and Robert F. Diegelmann

15. **Diagnostic Approach to Chronic Critical Limb Ischemia** .............................. 133  
    Tadaki M. Tomita and Melina R. Kibbe
