

Contents

1	Introduction	1
1.1	Basic Concepts	1
1.2	Connectivity and Its Generalizations	3
1.2.1	k -Connectivity and k -Edge-Connectivity	4
1.2.2	Generalized k -Connectivity and Generalized k -Edge-Connectivity	5
1.2.3	Mader's Generalization	7
1.2.4	Pendant Tree-Connectivity and Path-Connectivity	7
1.3	Generalized Connectivity and Steiner Tree Packing Problem	9
1.4	Theoretical and Application Backgrounds of the Generalized Connectivity	9
1.5	Generalized Edge-Connectivity, Edge Toughness, Strength, and Arboricity	11
1.6	Generalized Connectivity and Rainbow Indices	12
2	Results for Some Graph Classes	15
2.1	Results for the Spanning-Tree Packing Number	15
2.2	Results for the Generalized k -Connectivity	20
3	Algorithm and Complexity	31
3.1	Basic Notions of NP -Completeness	31
3.2	Main Results	32
3.3	Some Conjectures	38
4	Sharp Bounds of the Generalized (Edge-)Connectivity	41
4.1	Bounds of the Generalized Connectivity	41
4.2	Bounds of the Generalized Edge-Connectivity	51
4.3	Bounds for Planar and Line Graphs	55
5	Graphs with Given Generalized Connectivity	59
5.1	Graphs with the Largest Generalized Connectivity	59
5.2	Graphs with the Second Largest Generalized Connectivity	63

5.3 The Minimal Size of a Graph with Given Generalized k -Connectivity 64

6 Nordhaus-Gaddum-Type Results 67

6.1 Results for Graphs in $\mathcal{G}(n)$ 67

6.2 Results for Graphs in $\mathcal{G}(n, m)$ 75

7 Results for Graph Products 79

7.1 Results for the Generalized 3-Connectivity 80

7.2 Results for the Spanning-Tree Packing Number 83

8 Maximum Generalized Local Connectivity 89

8.1 Results for the Maximum Generalized Local Connectivity 90

8.2 Graphs with at Most Two Internally Disjoint Steiner
Trees Connecting Any Three Vertices 92

8.3 Graphs with at Most ℓ Internally Disjoint Steiner Trees
Connecting Any $n - 1$ Vertices 100

9 Generalized Connectivity for Random Graphs 113

9.1 Results for the Spanning-Tree Packing Number 114

9.1.1 Main Results 115

9.1.2 Deterministic Tools 116

9.1.3 Properties of $G(n, p)$ 117

9.2 Results for the Generalized 3-Connectivity 126

Bibliography 135
