## Contents

1 Introduction ................................................................. 1  
   References ................................................................. 2  

2 Theory and Background .................................................. 3  
   2.1 Neural Networks ......................................................... 3  
   2.2 Ensemble Neural Networks ............................................ 4  
   2.3 Type-2 Fuzzy Systems .................................................. 5  
      2.3.1 Gaussian Type-2 Fuzzy Set ....................................... 6  
      2.3.2 Interval Type-2 Fuzzy Set ....................................... 6  
      2.3.3 Footprint of Uncertainty ....................................... 6  
      2.3.4 Upper and Lower Membership Functions ....................... 6  
      2.3.5 Operations of Type-2 Fuzzy Sets ............................... 7  
      2.3.6 Type-2 Fuzzy Rules .............................................. 7  
   2.4 Optimization ........................................................... 8  
   2.5 Genetic Algorithms .................................................... 9  
   2.6 Particle Swarm Optimization ....................................... 11  
   2.7 Time Series ............................................................. 13  
   2.8 Human Iris Biometrics ............................................... 14  
   2.9 Historical Development .............................................. 15  
   References ................................................................. 16  

3 Problem Statement and Development .................................... 21  
   3.1 Historical Data .......................................................... 23  
      3.1.1 Iris Database ....................................................... 23  
      3.1.2 Mackey-Glass Time Series ....................................... 23  
      3.1.3 Dow-Jones Time Series ......................................... 25  
   3.2 Neural Network with Type-2 Fuzzy Weights Adjustment  
      for Pattern Recognition of the Human Iris Bio-metrics .......... 26  
   3.3 Ensemble Neural Network Architecture with Type-2  
      Fuzzy Weights .......................................................... 30
3.4 Optimization with Genetic Algorithm (GA) for the Ensemble Neural Network Architecture with Type-2 Fuzzy Weights

3.5 Interval Type-2 Fuzzy Weight Adjustment for Backpropagation Neural Networks with Application in Time Series Prediction

3.5.1 The Monolithic Neural Network Architecture and Neural Network Architecture with Type-1 Fuzzy Weights

3.5.2 The Neural Network Architecture with Type-2 Fuzzy Weights

3.6 Neural Network with Lower and Upper Type-2 Fuzzy Weights Using the Backpropagation Learning Method

3.7 Optimization of Type-2 Fuzzy Weights for the Neural Network Using Genetic Algorithm and Particle Swarm Optimization (NNT2FWGA-PSO)

3.8 Neural Network with Fuzzy Weights Using Type-1 and Type-2 Fuzzy Learning with Gaussian Membership Functions

3.9 Comparison of Neural Network Performance Under Different Membership Functions in the Type-2 Fuzzy Weights (CMFNNT2FW)

3.10 Neural Network with Fuzzy Weights Using Type-1 and Type-2 Fuzzy Learning for Dow-Jones Time Series

References

4 Simulations and Results

4.1 Iris Database

4.2 Mackey-Glass Time Series

4.2.1 Ensemble Neural Network with Type-2 Fuzzy Weights for Mackey-Glass Time Series

4.2.2 Optimization with Genetic Algorithm (GA) of the Ensemble Neural Network with Type-2 Fuzzy Weights for Mackey-Glass Time Series

4.2.3 Interval Type-2 Fuzzy Weight Adjustment for Backpropagation Neural Networks with Application in Time Series Prediction

4.2.4 Neural Network with Lower and Upper Type-2 Fuzzy Weights Using the Back-Propagation Learning Method

4.2.5 Optimization of Type-2 Fuzzy Weight for Neural Network Using Genetic Algorithm and Particle Swarm Optimization

4.2.6 Neural Network with Fuzzy Weights Using Type-1 and Type-2 Fuzzy Learning with Gaussian Membership Functions
4.2.7 Comparison of Neural Network Performance
Under Different Membership Functions
in the Type-2 Fuzzy Weights (CMFNNT2FW) . . . . . . . 93
4.2.8 Comparison of Results for the Mackey-Glass
Time Series Neural Network with Fuzzy Weights . . . . . 93
4.3 Dow-Jones Time Series . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 94

5 Conclusions . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 99
