Contents

Mathematical Characterization of System-of-Systems Attributes .................. 1
W. Clifton Baldwin and Wilson N. Felder

So It’s Complex, Why Do I Care? ......................................................... 25
Steven Holt, Paul Collopy, and Dianne DeTurris

Harry H. Hilton, Steven J. D’Urso, and Noe Wiener

Digital Twin: Mitigating Unpredictable, Undesirable Emergent Behavior in Complex Systems .......................................................... 85
Michael Grieves and John Vickers

Managing Systems Complexity Through Congruence .............................. 115
Shannon Flumerfelt, Anabela Alves, Javier Calvo-Amadio, Chris Hoyle, and Franz-Josef Kahlen

Additive Manufacturing: A Trans-disciplinary Experience ...................... 145
Paul Witherell, Yan Lu, and Al Jones

Expanding Sociotechnical Systems Theory Through the Trans-disciplinary Lens of Complexity Theory ............................... 177
Lisa Troyer

On Complementarity and the Need for a Transdisciplinary Approach in Addressing Emerging Global Health Issues .......................... 193
Patrick T. Hester, Muge Akpinar-Elci, James M. Shaeffer Sr., and Margaret B. Shaeffer

On the Perception of Complexity and Its Implications ......................... 213
J.E. Manuse and Bogdan Sniezek
