Contents

Ecosystems

High-Frequency Trading, Computational Speed and Profitability: Insights from an Ecological Modelling. ........................................... 3
Alexandru Stan

A Methodology for Quality-Based Selection of Internet Data Sources in Maritime Domain .............................................................. 15
Milena Stróżyna, Gerd Eiden, Dominik Filipiak, Jacek Małyszko, and Krzysztof Węcel

Towards Identifying the Business Value of Big Data in a Digital Business Ecosystem: A Case Study from the Financial Services Industry ............... 28
Anke de Vries, Claudia-Melania Chituc, and Fons Pommeé

Big/Smart Data

Flexible On-the-Fly Recommendations from Linked Open Data Repositories .................................................................................. 43
Lisa Wenige and Johannes Ruhland

Effective Visualizations of Energy Consumption in a Feedback System – A Conjoint Measurement Study ................................................... 55
Tobias Weiss, Madlen Diesing, Marco Krause, Kai Heinrich, and Andreas Hilbert

Specification and Implementation of a Data Generator to Simulate Fraudulent User Behavior ......................................................... 67
Galina Baader, Robert Meyer, Christoph Wagner, and Helmut Krcmar

Quantitative Analysis of Art Market Using Ontologies, Named Entity Recognition and Machine Learning: A Case Study ..................... 79
Dominik Filipiak, Henning Agt-Rickauer, Christian Hentschel, Agata Filipowska, and Harald Sack

Search Engine Visibility Indices Versus Visitor Traffic on Websites .......... 91
Ralf-Christian Härting, Maik Mohl, Philipp Steinhauser, and Michael Möhring

A Dynamic Hybrid RBF/Elman Neural Networks for Credit Scoring Using Big Data ................................................................. 102
Yacine Djemaïel, Nadia Labidi, and Noureddine Boudriga
Smart Infrastructures

Situation Awareness for Push-Based Recommendations in Mobile Devices. . . 117
Ramón Hermoso, Jürgen Dunkel, and Jan Krause

A New Perspective Over the Risk Assessment in Credit Scoring Analysis
Using the Adaptive Reference System . . . . . . . . . . . . . . . . . . . . . 130
Gelu I. Vac and Lucian V. Găban

Drivers and Inhibitors for the Adoption of Public Cloud Services
in Germany . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 144
Patrick Lübbecke, Markus Siepermann, and Richard Lackes

Parallel Real Time Investigation of Communication Security Changes
Based on Probabilistic Timed Automata . . . . . . . . . . . . . . . . . . . . . . . 158
Henryk Piech and Grzegorz Grodzki

Extending Enterprise Architectures for Adopting the Internet of Things –
Lessons Learned from the smartPORT Projects in Hamburg . . . . . . . . . 169
Ingrid Schirmer, Paul Drews, Sebastian Saxe, Ulrich Baldauf,
and Jöran Tesse

Towards the Omni-Channel: Beacon-Based Services in Retail . . . . . . . . 181
Anja Thamm, Jürgen Anke, Sebastian Haugk, and Dubravko Radic

Process Management

Batch Processing Across Multiple Business Processes Based on Object
Life Cycles . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 195
Luise Pufahl and Mathias Weske

Towards a Methodology for Industrie 4.0 Transformation . . . . . . . . . . . . 209
Isabel Bücker, Mario Hermann, Tobias Pentek, and Boris Otto

A Generic Process Data Warehouse Schema for BPMN Workflows . . . . . . 222
Thomas Benker

Business and Enterprise Modeling

Discovering Decision Models from Event Logs . . . . . . . . . . . . . . . . . . . . . 237
Ekaterina Bazhenova, Susanne Buelow, and Mathias Weske

Governing IT Activities in Business Workgroups—Design Principles
for a Method to Control Identified Shadow IT . . . . . . . . . . . . . . . . . . . . . 252
Stephan Zimmermann, Christopher Rentrop, and Carsten Felden
A Formalization of Multiagent Organizations in Business Information Systems ......................................................... 265
  Tobias Widmer, Marc Premm, and Stefan Kirn

Bridging the Gap Between Independent Enterprise Architecture Domain Models ......................................................... 277
  Thomas Stuht and Andreas Speck

A Usage Control Model Extension for the Verification of Security Policies in Artifact-Centric Business Process Models ........................................... 289
  Ángel Jesús Varela-Vaca, Diana Borrego, María Teresa Gómez-López, and Rafael M. Gasca

Overcoming the Barriers of Sustainable Business Model Innovations by Integrating Open Innovation ......................... 302
  Jad Asswad, Georg Hake, and Jorge Marx Gómez

An Ontological Matching Approach for Enterprise Architecture Model Analysis ......................................................... 315
  Marzieh Bakhshandeh, Catia Pesquita, and José Borbinha

Service Science

Service Self-customization in a Network Context: Requirements on the Functionality of a System for Service Self-customization ............... 329
  Doreen Mammitzsch and Bogdan Franczyk

  Michael Fischbach and Rainer Alt

On the Maturity of Service Process Modeling and Analysis Approaches .... 356
  Florian Bär, Kurt Sandkuhl, and Rainer Schmidt

Social Media

Enterprise Social Networks: Status Quo of Current Research and Future Research Directions ......................................................... 371
  Gerald Stei, Sebastian Sprenger, and Alexander Rossmann

Influencing Factors Increasing Popularity on Facebook – Empirical Insights from European Users ......................................................... 383
  Rainer Schmidt, Michael Möhring, Ralf-Christian Härting, Christopher Reichstein, and Barbara Keller
Applications

Persuasive Design Principles of Car Apps ................................. 397
   Chao Zhang, Lili Wan, and Daihwan Min

TRaining AssignNment Service (TRANS) to Meet Organization Level
Skill Need ................................................................. 411
   Atul Singh, Rajasubramaniam T., Gurulingesh Raravi, Koyel Mukherjee,
   Partha Dutta, and Koustuv Dasgupta

Portfolio of Global Futures Algorithmic Trading Strategies
for Best Out-of-Sample Performance ................................. 424
   Aistis Raudys

Towards Federated, Semantics-Based Supply Chain Analytics ........ 436
   Niklas Petersen, Christoph Lange, Sören Auer, Marvin Frommhold,
   and Sebastian Tramp

Author Index ............................................................. 449
Business Information Systems
19th International Conference, BIS 2016, Leipzig, Germany, July 6-8, 2016, Proceedings
Abramowicz, W.; Alt, R.; Franczyk, B. (Eds.)
2016, XIV, 450 p. 110 illus., Softcover
ISBN: 978-3-319-39425-1
