## Contents

**Part I  Impacts of Urbanization on Hydrological Processes and Mitigation Measures**

**Impact of Slope and Vegetation on Hydrological Processes**

Achintyamugdha S. Sharma, Dipankar Das, Kumari Koustuvee, Bhupali Dutta, Ruchika Agarwala, Sagar Sen, Dhrubajyoti Thakuria and Arup K. Sarma

**Impact of Total and Effective Imperviousness on Runoff Prediction**

Sahoo Sanat Nalini and P. Sreeja

**Issues of Urban Drainage—Present Status and the Way Forward**

Kapil Gupta

**Optimal Allocation of Ecological Management Practices in a Hilly Urban Watershed**

Banasri Sarma and Arup K. Sarma

**Part II  Remote Sensing and GIS Applications in Urban Hydrology**

**Surface Runoff Depth by SCS Curve Number Method Integrated with Satellite Image and GIS Techniques**

Thiyam Tamphasana Devi and Yashwant Baskar Katpatal

**Study on the Impact of Land Use Changes on Urban Hydrology of Cochin, Kerala, India**

Archana M. Nair, Lekshmi Mohanlal, C.R. Ayishath Nabeela, T.D. Aneesh and Reji Srinivas

**Flood Plain Characterization of a River in Lower Assam Using Digital Elevation Model Data**

Diganta Barman and Arup K. Sarma
Part III  Ground and Subsurface Water Hydrology of Urban Areas

Coastal Aquifer Management Models: A Comprehensive Review on Model Development .................................................. 95
Rajib K. Bhattacharjya and Triptimoni Borah

Linked Optimization Model for Groundwater Monitoring Network Design ......................................................... 107
Deepesh Singh and Bithin Datta

Suction–Water Content Relationship for Hill Soil of North-East India ................................................................. 127
C. Malaya and S. Sreedeep

Ground Water Management—Sustainability and Methodology ...... 135
Vishwajit Anand and Sumit Kumar

Water Supply System Planning by Artificial Groundwater Recharge from Rooftop Rainwater Harvesting ............. 145
Sirajul Islam and Bipul Talukdar

Part IV  Application of Computational and Numerical Models in Urban Hydrology

Two-Dimensional Numerical Model for Urban Drainage System ...... 163
Sudarshan Patowary and Arup K. Sarma

Need of Two-Dimensional Consideration for Modelling Urban Drainage ............................................................ 175
Hriday Mani Kalita and Arup K. Sarma

Modeling Well Level Fluctuations as Seismograph ................. 183
Prerna Agrawal, Shweta Khemani, N.P. Dewangan and Amit Mishra

Flow Analysis in Compound Channel Considering Momentum Transfer Mechanism ........................................... 193
Thappeta Suresh Kumar and Arup K. Sarma

Optimal Reservoir Operation with Environmental Flows for Ranganadi Hydroelectric Project in Arunachal Pradesh 209
Mudo Puming and Ram Kailash Prasad

Part V  Soft Computing Techniques in Urban Hydrology

Analysis of Water Distribution Network Using Epanet and Vertex Method ............................................................ 227
P. Sivakumar and Ram Kailash Prasad
Applications of Wavelet Transform Technique
in Hydrology—A Brief Review ........................................ 241
Khandekar Sachin Dadu and Paresh Chandra Deka

ANN and ANFIS Modeling of Failure Trend Analysis
in Urban Water Distribution Network .............................. 255
Libi P. Markose and Paresh Chandra Deka

Effects of Data Pre-processing on the Prediction Accuracy
of Artificial Neural Network Model in Hydrological Time Series..... 265
Aniruddha Gopal Banhatti and Paresh Chandra Deka

Urban Water Consumption Estimation Using Artificial
Intelligence Techniques .................................................. 277
H.J. Surendra and Paresh Chandra Deka

Part VI Socio-economic Aspects and Role of Society
in Urbanization Impacts

Estimating Sustainable Carrying Capacity of Flood Prone
Hilly Urban Areas .............................................................. 289
Arup K. Sarma, Banasri Sarma and Subhasish Das

A Perceptual Analysis of Living Environment and Academic
Performance of Geography Students, Benue State University,
Makurdi, Nigeria ............................................................... 305
Irene D. Mngutyo and Benjamin Mngutyo

Empowering Community for River Basin Management .......... 323
Bhaskar Chandrakar, N.P. Dewangan, Suraj Verma and Amit Mishra

Effect on Migrants Due to Urbanization: A Study of Slum
Area in New Delhi ............................................................ 331
Simona Sarma and Bhaswati Choudhury

Role of Urban Local Bodies and Opportunities in Municipal
Solid Waste Management .................................................... 341
Waikhom Roshan Singh and Ajay S. Kalamdhad

Economic Evaluation of Transportation Project: A Case Study
of Ferry System for IIT Guwahati ................................. 353
Abegaonkar Amit Anantrao, A. Mani Venkat Sai Kumar
and A.K. Maurya

Author Index ................................................................. 365

Subject Index ............................................................... 367
Urban Hydrology, Watershed Management and Socio-Economic Aspects
Sarma, A.K.; Singh, V.P.; Kartha, S.A.; Bhattacharjya, R.K. (Eds.)
2016, XIV, 370 p. 136 illus., 99 illus. in color., Hardcover
ISBN: 978-3-319-40194-2
