**Contents**

**Part I  General Principles and Trauma System Management**

1  **The Difficult Conversation**  ........................................ 3  
   Leon E. Moores  

2  **Communication Between Teams and Multidisciplinary Rounds and Single Primary POC for Family Communication—Lessons Learned and Who’s in Charge?**  ........................................ 7  
   A.B. Weisbrod, R.R. Armola and James R. Dunne  

3  **Mass Casualty Events and Your Hospital**  ........................................ 13  
   Erich Gerhardt, Gary Vercruysse and Peter Rhee  

4  **Rural and Austere Environments**  ........................................ 21  
   Jeffrey M. Lobosky  

5  **Prehospital Care and EMS Considerations in the Polytrauma Patient with CNS Injuries**  ........................................ 29  
   Dan B. Avstreih and Scott D. Weir  

**Part II  Arrival at Facility**

6  **AIS Versus ISS Versus GCS—What’s Going on Here?**  ........................................ 47  
   Mayur Jayarao and Shelly D. Timmons  

7  **Trauma Resuscitation and Fluid Considerations in the Polytrauma Patient with CNS Injury**  ........................................ 51  
   George P. Liao and John B. Holcomb  

8  **Initial Imaging Considerations, Repeat Imaging Frequency**  ........................................ 61  
   Krzysztof M. Bochenek  

9  **Evidence-Based Review of the Use of Steroids in Neurotrauma**  ........................................ 85  
   Yiping Li, Kimberly Hamilton and Joshua Medow  

10 **Interventional Radiology in the Civilian Neurotrauma Setting**  ........................................ 93  
    Richard M. Young and Jeffrey C. Mai
