Contents – Part I

Novel Approaches to Accessibility

A Framework for the Development of Localised Web Accessibility Guidelines for University Websites in Saudi Arabia......................... 3
  Asmaa Alayed, Mike Wald, and E.A. Draffan

Accessibility in Virtual Communities of Practice Under the Optics of Inclusion of Visually Impaired ........................................... 14
  Luís Felipe Cândido Marques, Daniela Freitas Guilhermino,
  Maria Eduarda de Araújo Cardoso, Rafaela Aline Lopes da Silva Neitzel,
  Larissa Albano Lopes, José Reinaldo Merlin,
  and Giovanni dos Santos Striquer

Ontology-Based Adaptive Interfaces for Colorblind Users ................. 27
  Ricardo José de Araújo, Julio Cesar Dos Reis, and Rodrigo Bonacín

Usability, Accessibility and Gameplay Heuristics to Evaluate Audiogames for Users Who are Blind ..................................................... 38
  Márcia de Borba Campos and Juliana Damasio Oliveira

Authoring WCAG2.0-Compliant Texts for the Web Through Text Readability Visualization ......................................................... 49
  Evelyn Eika and Frode Eika Sandnes

Inclusive Process and Tool for Evaluation of Accessible User Experience (AUX) ................................................................. 59
  Geordie Graham and Sambhavi Chandrashekar

Personalizing Interaction Focused on a User’s Interactive Experience and Potential .......................................................... 70
  Yi Ji

How Blind and Sighted Individuals Perceive the Typographic Text-Signals of a Document ......................................................... 81
  Georgios Kouroupetroglou and Philippos Katsoulis

Methodology for Heuristic Evaluation of Web Accessibility Oriented to Types of Disabilities ......................................................... 91
  Anyela Orozco, Valentina Tabares, and Néstor Duque

Development of Universal Design Mobile Interface Guidelines (UDMIG) for Aging Population ................................................... 98
  Ljilja Ruzic, Seunghyun Tina Lee, Yilin Elaine Liu, and Jon A. Sanford

Universal Access in Architecture and Product Design

Internal Diversification – Developing a Research Method of Urban Planning
Wojciech Bonenberg

Exploring Downloadable Assistive Technologies Through the Co-fabrication of a 3D Printed Do-It-Yourself (DIY) Dog Wheelchair
Rickee Charbonneau, Kate Sellen, and Angelika Seeschaaf Veres

Architecture of Absurd
Klaudiusz Fross, Katarzyna Ujma-Wąsowicz, Ewa Wala, Dorota Winnicka-Jasłowska, Anna Gumińska, Michał Sitek, and Agata Sempruch

Aging Society in Wroclaw’s Prefabricated Housing Estates
Barbara E. Gronostajska and Andrzej M. Wielgus

Impact of New Construction Technologies on Sustainable Hotel Design
Joanna Jabłońska, Elżbieta Trocka-Leszczynska, and Romuald Tarczewski

Structure vs. Ergonomics in Contemporary Hotel Design
Joanna Jabłońska, Elżbieta Trocka-Leszczynska, and Romuald Tarczewski

Mobile Bathroom – Ideas and Solutions
Anna Jaglarz

The Role of Architecture and Ergonomics on Shaping the Domestic Kitchen
Przemysław Nowakowski and Jerzy Charytonowicz

The Unconventional Tribune Profiles in Architectural Designing of Stadiums
Zdzisław Pelczarski

A Study of Product Form Design Using the Theory of Archetypes
Meng-Dar Shieh, Fang-Chen Hsu, Jia-Shiuan Tian, and Chien-Nan Chen

Personal and Collective Informatics in Universal Access

Group Level Versus Society Level of Computing
Dipta Mahardhika and Taro Kanno

The Falsified Self: Complexities in Personal Data Collection
Alessandro Marcengo, Amon Rapp, Federica Cena, and Marina Geymonat
Work Motivating Factors of the Communications in a Crowd-Powered Microvolunteering Site.

Takahiro Miura, Shoma Arita, Atsushi Hiyama, Masatomo Kobayashi, Toshinari Itoko, Junichiro Sawamura, and Michitaka Hirose

Creating a Sense of Unity: From Quantified Self to Qualitative Space

Fatemeh Moradi and Mikael Wiberg

A Provenance Model for Quantified Self Data

Andreas Schreiber

Understanding the Experience of Situated Mindfulness Through a Mobile App That Prompts Self-reflection and Directs Non-reactivity

Ralph Vacca and Christopher Hoadley

Eye Tracking in Universal Access

Assessing Levels of Attention Using Low Cost Eye Tracking

Per Bækgaard, Michael Kai Petersen, and Jakob Eg Larsen

An Overview of How Eye Tracking Is Used in Communication Research

Nadine Bol, Sophie C. Boerman, Jennifer C. Romano Bergstrom, and Sanne Kruikemeier

An Eye Tracking Based Examination of Visual Attention During Pairwise Comparisons of a Digital Product’s Package

Rafał Michalski and Jerzy Grobelny

A Pilot Investigation of the Association Between Eye-Tracking Patterns and Self-reported Reading Behavior

Erica Olmsted-Hawala, Lin Wang, Diane K. Willimack, Emily Stack, and Sabin Lakhe

Designing and Evaluating a Wearable Device for Accessing Gaze Signals from the Sighted

Shi Qiu, Matthias Rauterberg, and Jun Hu

Density of Gaze Points Within a Fixation and Information Processing Behavior

Mina Shojaeizadeh, Soussan Djamashi, and Andrew C. Trapp

Exploring the Relationship Between Eye Movements and Pupillary Response from Formative User Experience Research

Jonathan Strohl, Joseph Luchman, James Khun, Edward Pierce, and Kyle Andrews
Contents – Part II

Multimodal and Natural Interaction for Universal Access

A Human-Computer Interface and an Analysis on the Drawing of Curves with a Face Tracker Mouse ................................................................. 3
   Ivana S. Bandeira and Fernando Henrique G. Zucatelli

The Common Characteristics of User-Defined and Mid-Air Gestures for Rotating 3D Digital Contents ............................................................. 15
   Li-Chieh Chen, Yun-Maw Cheng, Po-Ying Chu, and Frode Eika Sandnes

Evaluating Somatosensory Interactions: Designing a Handheld Tactile Acoustic Device for Mobile Phones ....................................................... 23
   Maria Karam and Patrick M. Langdon

Body Motion Analysis for Emotion Recognition in Serious Games ............ 33
   Kyriaki Kaza, Athanasios Psaltis, Kiriakos Stefanidis, Konstantinos C. Apostolakis, Spyridon Thermos, Kosmas Dimitropoulos, and Petros Daras

Design and Evaluation of an Authoring Tool and Notation System for Vibrotactile Composition ............................................................... 43
   Somang Nam and Deborah Fels

Active-Wheel Mouse for Human-Computer Interface: Slippage-Perception Characteristics on Fingerpad ....................................................... 54
   Yoshihiko Nomura and Satoshi Oike

BCIs for DOC Patients: Assessment, Communication, and New Directions ... 62
   Rupert Ortner, Jitka Annen, Tim von Oertzen, Arnau Espinosa, Javi Rodriguez, Brendan Z. Allison, Günter Edlinger, Steven Laureys, Martin Hamberger, Andrea Kammerhofer, Florian Guttmann, and Christoph Guger

The Improvement of Cognitive Maps of Individuals with Blindness Through the Use of an Audio-Tactile Map ..................................................... 72
   Konstantinos Papadopoulos, Marialena Barouti, and Eleni Koustriava

Evaluation of the Use of Eye and Head Movements for Mouse-like Functions by Using IOM Device ................................................................. 81
   Andrédia Sias Rodrigues, Vinicius da Costa, Márcio Bender Machado, Angélica Lacerda Rocha, Joana Marini de Oliveira, Marcelo Bender Machado, Rafael Cunha Cardoso, Cleber Quadros, and Tatiana Aires Tavares
Usability Evaluation of a Wheelchair Virtual Simulator Controlled by a Brain-Computer Interface: Lessons Learned to the Design Process 92
Anderson Schuh, Marcia de Borba Campos, Marta Bez, and João Batista Mossmann

Long-Term Evaluation of a Modular Gesture Interface at Home for Persons with Severe Motor Dysfunction 102
Ikushi Yoda, Kazuhiko Ito, and Tsuyoshi Nakayama

**Universal Access to Mobile Interaction**

How to Achieve Design for All: “List”, “Focus” and “Multimodality” as Minimal Requirements. 117
Denis Chêne, Éric Petit, and Sophie Zijp-Rouzier

VoxLaps: A Free Symbol-Based AAC Application for Brazilian Portuguese 129
Karla de Oliveira, Jefferson Junior, Jefferson Silva, Nelson Neto, Marcelle Mota, and Ana Oliveira

Three Text Entry Methods Based on Smartphone Discrete Tilting: An Empirical Evaluation 141
Sandi Ljubic

Braillet the Wristwatch-Style Refreshable Braille Display: Its Hardware, User Interface and Benchmarks. 153
Kazunori Minatani

Evaluation of Non-visual Zooming Operations on Touchscreen Devices 162
Hariprasath Palani, Uro Giudice, and Nicholas A. Giudice

Proposal of an Alternative HMI Mechanism for Blind Android Users Based on Media Headsets as Input/Output Peripherals 175
Miguel Páramo Castrillo, Silvia de los Ríos, Juan Bautista Montalvá Colomer, María Fernanda Cabrera-Umpierrez, and María Teresa Arredondo

LOVIE: A Word List Optimized for Visually Impaired UsErs on Smartphones 185
Philippe Roussille and Mathieu Raynal

Design of a Mobile Augmented Reality Application: An Example of Demonstrated Usability 198
Tsai-Hsuan Tsai, Hsien-Tsung Chang, Ming-Chun Yu, Huan-Ting Chen, Chun-Yi Kuo, and Wei-Hung Wu

Task Performance of Color Adaptation on the Screen Display 206
Fong-Gong Wu, Carlos Cheang, and SuHuey Tan
Virtual Reality, 3D and Universal Access

Human Performance and Cognitive Workload in Multi-sensory Virtual Environments ........................................... 219
Mortaja AlQassab and David Wang

The Impact of Tactile Sensations on Virtual Reality Impairment .............. 231
Mortaja AlQassab, Adam Gomes, Maria Karam, David Wang, Zhechen Du, Orion Bruckman, and Richard Bustos

Autonomous Identification of Virtual 3D Objects by Visually Impaired Users with Proprioception and Audio Feedback ................................. 241
Erico de Souza Veriscimo and João Luiz Bernardes Jr.

3D Interaction Accessible to Visually Impaired Users: A Systematic Review ................................................................. 251
Erico de Souza Veriscimo and João Luiz Bernardes Jr.

Haptic Virtual Approach: Biological Effect on Touching and Viewing .......... 261
Atsushi Hoshina, Yoshiko Okada, Irini Giannopulu, and Midori Sugaya

Measurement of Lens Focus Adjustment While Wearing a See-Through Head-Mounted Display ..................................................... 271
Ryota Kimura, Kohei Iwata, Takahiro Totani, Toshiaki Miyao, Takehito Kojima, Hiroki Takada, Hiromu Ishio, Chizue Uneme, Masaru Miyao, and Masumi Takada

Changes of Potential Functions While Maintaining Upright Postures After Exposure to Stereoscopic Video Clips ........................................ 279
Fumiya Kinoshita, Kohei Iwata, Yasuyuki Matsuura, Masaru Miyao, and Hiroki Takada

Metaphor and Storytelling in Interface Design for Virtual Reality ............ 287
Andreas Kratky

Haptic Training Simulator for Pedicle Screw Insertion in Scoliosis Surgery... 301
Maryam Moafimadani, Adam Gomes, Karl Zabjek, Reinhard Zeller, and David Wang

Automation of the Simple Test for Evaluating Hand Function Using Leap Motion Controller ......................................................... 312
Kouki Nagamune, Yosuke Uozumi, and Yoshitada Sakai

Using Virtual Reality to Enhance Vision for People Who Are Blind in One Eye ................................................................. 320
Michael Ostrander and Tony Morelli
## Intelligent and Assistive Environments

A Universal Design Method for Adaptive Smart Home Environment ......... 359  
*Silvia Ceccacci, Lorenzo Cavalieri, Francesca Gullà, Roberto Menghi, and Michele Germani*

A Deep Neural Network Video Framework for Monitoring Elderly Persons . 370  
*M. Farrajota, João M.F. Rodrigues, and J.M.H. du Buf*

The MOBOT Platform – Showcasing Multimodality in Human-Assistive  
Robot Interaction ................................................................. 382  
*Eleni Efthimiou, Stavroula-Evita Fotinea, Theodore Goulas, Athanasia-Lida Dimou, Maria Koutsombogera, Vassilis Pitsikalis, Petros Maragos, and Costas Tzafestas*

Designing a Smart Scarf to Influence Group Members’ Emotions  
in Ambience: Design Process and User Experience .......................... 392  
*Chen Guo, Yingjie Victor Chen, Zhenyu Cheryl Qian, Yue Ma, Hanhdung Dinh, and Saikiran Anasingaraju*

Wheelchair Users’ Psychological Barrier Estimation Based on Inertial  
and Vital Data ........................................................................... 403  
*Takashi Isezaki, Arinobu Niijima, Akihiro Miyata, Tomoki Watanabe, and Osamu Mizuno*

Human Aware Robot Navigation in Semantically Annotated Domestic  
Environments ............................................................................ 414  
*Ioannis Kostavelis, Dimitrios Giakoumis, Sotiris Malassiotis, and Dimitrios Tzovaras*

Use of See-Through Wearable Display as an Interface  
for a Humanoid Robot .................................................................. 424  
*Shu Matsuura*
