## Contents

1 Nutrition, Life, Disease, and Death ............................... 1  
Mahabaleshwar V. Hegde, Anand Arvind Zanwar, and Sharad P. Adekar

2 Flax Bio-village Concept ....................................... 11  
Mahabaleshwar V. Hegde, Anand Arvind Zanwar, and Prakash B. Ghorpade

3 Status Paper on Linseed/Flax Agriculture ..................... 21  
P.K. Singh

4 Omega-3 Milk .............................................. 45  
Anand Arvind Zanwar, Yogesh S. Badhe, Subhash L. Bodhankar,  
Prakash B. Ghorpade, and Mahabaleshwar V. Hegde

5 Omega-3 Egg ............................................... 51  
Manohar L. Panse, Shripad P. Atakare, Mahabaleshwar V. Hegde,  
and Shivajirao S. Kadam

6 Omega-3 Polyunsaturated Fatty Acids and Hyperlipidaemias .... 67  
J.J.A. Ferguson, C.B. Dias, and M.L. Garg

7 World Market of Omega-3 Fatty Acids ........................... 79  
Manohar L. Panse and Shital D. Phalke

8 Fortification of Food with Omega-3 Fatty Acids .................. 89  
Manohar L. Panse and Shital D. Phalke

9 Importance of Polyunsaturated Fatty Acids from Marine Algae .. 101  
Rafael Zárate, Nabil el Jaber-Vazdekis, and Raquel Ramírez-Moreno

10 Emulsions of Omega-3 Fatty Acids for Better Bioavailability  
and Beneficial Health Effects ................................... 127  
Sarang S. Puranik

11 Omega-3 Fatty Acids in Inflammatory Diseases .................. 141  
Salma Mukhtar Mir, Sanjit Kanjilal, and Syed Ubaid Ahmed

12 Omega-3 Fatty Acids in Cancer: Insight into the Mechanism  
of Actions in Preclinical Cancer Models .......................... 157  
Asavari A. Joshi, Mahabaleshwar V. Hegde, and Sharad P. Adekar

13 Linseed as a Functional Food for the Management of Obesity  
Siti Raihanah Shafie, Hemant Poudyal, Sunil K. Panchal, and Lindsay Brown

14 Role of Omega-3 Fatty Acids in Metabolic Syndrome .......... 189  
Ana Elsa Huerta, Laura M. Laiglesia, Leyre Martinez-Fernández,  
and Maria J. Moreno-Aliaga

15 Balancing Omega-6: Omega-3 Ratios in Oilseeds ............... 203  
Tejas P. Chirmade, Smrati Sanghi, Ashwini V. Rajwade,  
Vidya S. Gupta, and Narendra Y. Kadoo
16 Omega-3 Fatty Acids and Diabetic Complications .............................. 221
A.V. Mali, S.S. Bhise, and Surendra S. Katyare

17 Omega-3 Fatty Acids and Mitochondrial Functions .......................... 229
Surendra S. Katyare and A.V. Mali

18 Omega-3 Fatty Acids and Alzheimer’s Disease .................................. 235
Santosh D. Devkar and Surendra S. Katyare

19 Prevention of Oxidative Stress by Omega-3 Fatty Acids in the Brain ..... 239
Akhlam A. Farooqui and Tahira Farooqui

20 Role of Omega-3 Fatty Acids for Eye Health ..................................... 251
Tassos Georgiou and Ekatherine Prokopiou

21 DHA-Rich Algae Oil Is a Safe and Effective Vegetarian Source of Omega-3 ................................................................. 263
Scott Doughman, Sreerama Krupanidhi, and C.B. Sanjeevi

22 Role of n-3 (Omega-3) Polyunsaturated Fatty Acids in Postpartum Depression: Mechanisms and Implications for Prevention and Treatment .......................................................... 267
Beth Levant

23 Influence of Omega-3 Fatty Acids on Bone Turnover ........................... 285
Javier Díaz-Castro, Naroa Kajarabille, Mario Pulido-Morán, Jorge Moreno-Fernández, Magdalena López-Frias, and Julio J. Ochoa

24 Interactions Between Omega-3 Fatty Acids and Iron ........................... 293
Julio J. Ochoa, Mario Pulido-Morán, Silvia Hijano, Naroa Kajarabille, Jorge Moreno-Fernández, and Javier Díaz-Castro

25 Role of Omega-3 Fatty Acid in Major Cardiovascular Events—A Current View ................................................................. 301
Yanting Wen and Qian Gao

26 Modulation of Immune Response by Omega-3 in Health and Disease ..... 307
Sudha Gangal

27 The Linoleic-to-Linolenic Dietary Intake Ratio: The Fundamental Implications of Imbalance and Excess Looked at from Both a Functional and an Evolutionary Perspective: An Overview ................. 321
Robert Andrew Brown

28 Bioactive Oxidised Products of Omega-6 and Omega-3, Excess Oxidative Stress, Oxidised Dietary Intake and Antioxidant Nutrient Deficiencies, in the Context of a Modern Diet ......................................................... 349
Robert Andrew Brown

29 In a Western Dietary Context Excess Oxidised Linoleic Acid of Dietary and Endogenous Origin by Over-Activation of PPAR Gamma so Immune and Inflammatory Pathways, and through Cardiolipin Damage, Increases Cardiovascular Risk ................................................................. 385
Robert Andrew Brown

30 Linoleic Acid and Alpha-Linolenic Acid Have Central Roles in Brain Energy Substrate Provision, Endogenous Lipid Production, Immune and Repair Function, via Peroxisomal Beta-Oxidation-Related Pathways? 413
Robert Andrew Brown
