Contents – Part II

Web, Social Media and Communities

Standardizing the Human Interaction in Websites Using Web Application Frameworks ......................................................... 3
Fernando Arango Isaza and Danny Alvarez Eraso

Analysis of Academic Research Networks to Find Collaboration Partners. . . 8
Kavita Asiwal, Bharath Kumar Suresh, and G. Ram Mohana Reddy

Promoting Engagement in Open Collaboration Communities by Means of Gamification .......................................................... 15
Ana Paula O. Bertholdo and Marco Aurélio Gerosa

Usability and UX Evaluation of a Mobile Social Application to Increase Students-Faculty Interactions .............................................. 21
Ticianne Darin, Rossana Andrade, José Macedo, David Araújo, Lana Mesquita, and Jaime Sánchez

Automatic Adaptation Techniques to Increase the Web Accessibility for Blind Users ................................................................. 30
Mexhid Ferati and Lirim Sulejmani

Research the Role of Interactivity on ACG Website Usage Behavior Through Information Search Perspective: A Comparison of Experiential and Goal-Directed Behaviors .................................................. 37
Juihsiang Lee

Criss-Crossing Idea Landscapes via Idea Networks in Knowledge Forum. . . 44
Leanne Ma

NatureNet: An Interaction Design with a Focus on Crowdsourcing for Community ................................................................. 50
Mary Lou Maher and Sarah Abdellahi

Estimation Models of User Skills Based on Web Search Logs ..................... 56
Asuka Miyake, Yuji Morinishi, and Masahiro Watanabe

Facilitating Analysis of Audience Reaction on Social Networks Using Content Analysis: A Case Study Based on Political Corruption ............................. 63
Stefanie Niklander, Ricardo Soto, Broderick Crawford, Claudio León de la Barra, and Eduardo Olguín
Towards the Easy Analysis of Celebrity Representations Through Instagram: A Case Study

Stefanie Niklander, Ricardo Soto, Broderick Crawford, Claudio León de la Barra, and Eduardo Olguín

Playful Interactions for the Citizens’ Engagement. The Musical Language as a Possible Application

Antonio Opromolla, Valentina Volpi, and Carlo Maria Medaglia

Kohei Otake, Tomofumi Uetake, and Akito Sakurai

The Advanced Exploitation of Mixed Reality (AEMR) Community of Interest

Maria Olinda Rodas, Jeff Waters, and David Rousseau

Gesture and Motion-Based Interaction

Synthesis-Based Low-Cost Gaze Analysis

Zhuoqing Chang, Qiang Qiu, and Guillermo Sapiro

Outdoor Gesture Recognition System Using Accurate Absolute Position Coordinates

Tomohiko Hayakawa and Masatoshi Ishikawa

Development of Gesture Recognition-Based STEAM Educational Games Focused on Korean Traditional Archery

Hyung Sook Kim, Su Hak Oh, and Yong Hyun Park

Motion Detection and Sound Effect Game for Daily Jogging

Yang Kyu Lim, Eun Ju Lee, Hyun Chun Jung, Seong Kuk Park, and Jin Wan Park

User Performance of Gestural and Non-gestural Operations in a Mixed Computer Task Under Different Multi-touch Screen Configurations

Cheng-Jhe Lin

A Support Tool for Analyzing the 3D Motions of Sign Language and the Construction of a Morpheme Dictionary

Yuji Nagashima, Keiko Watanabe, Mina Terauchi, Naoto Kato, Tsubasa Uchida, Shuichi Umeda, Taro Miyazaki, Makiko Azuma, and Nobuyuki Hiruma

Real-Time Japanese Sign Language Recognition Based on Three Phonological Elements of Sign

Shinji Sako, Mika Hatano, and Tadashi Kitamura

Technologies for Learning and Creativity

A Tangible Art Learning Tool with a Behavioral Metaphor
Chun-Wen Chen and Yan-Yu Chen

Android Accessible m-Learning Application for People with Hearing
and Physical Disabilities
Thiago Alves Costa de Araujo, Francisco Carlos de Mattos Brito Oliveira,
Marcela Lopes Alves, Maikon Igor da Silva Soares,
Anderson Severo de Matos, Adriano Tavares de Freitas,
and Lidiane Castro Silva

Mining Prerequisite Relationships Among Learning Objects
Carlo De Medio, Fabio Gasparetti, Carla Limongelli, Filippo Sciarrone,
and Marco Temperini

Evaluating Software for Affective Education: A Case Study
of the Affective Walkthrough
Reza GhasemAghaei, Ali Arya, and Robert Biddle

The Pyramid Assessment Framework for ‘Competence Developing Games’
Johannes Alexander König and Martin R. Wolf

Advancing Writing Work with Handwriting-Learning System for Students
with Intellectual Disabilities
Iwao Kobayashi, Kiwamu Sato, Ayumi Sugisawa, Gou Inoue,
Naohito Ogasawara, and Hiroshi Nunokawa

A Conceptual Model of Instructional Thematic Game for Children
with Intellectual Deficiencies
Dandhi Kuswardhana and Shinobu Hasegawa

Preliminary Quantitative Evaluation of Effect of Learning from Text,
Illustrations, and Animations on Understanding
Taiki Maruya, Shun’ichi Tano, and Tomonori Hashiyama

Don’t Read My Lips: Assessing Listening and Speaking Skills
Through Play with a Humanoid Robot
Panayiota Polycarpou, Anna Andreeva, Andri Ioannou,
and Panayiotis Zaphiris

A New Design of an Automated Remote Lecture System in Japanese Universities in 2015
Takeshi Sakurada, Kazuhiro Mishima, and Yoichi Hagiwara
Designing a Teacher-Friendly Editor for Configuring the Attention-Aware
Smart Classroom ................................................................. 266
   Evropi Stefanidi, Maria Doulgeraki, Maria Korozi, Asterios Leonidis,
   and Margherita Antona

The Development of a Game-Based Storytelling Support System
that Incorporates Creative Activity and Motion Control .................. 271
   Hiroshi Suzuki and Hisashi Sato

Eye Movements of Hearing Impaired Students in Self-practice to Learn
How to Use Graphic Software ............................................... 277
   Takuya Suzuki, Makoto Kobayashi, and Yuji Nagashima

How to Teach Young Kids New Concepts with Interactive Videos
and Visual Recognition ......................................................... 282
   Quan H. To, Ba-Huu Tran, and Minh-Triet Tran

Mobile Assisted Language Learning Applications for Health Care Sciences
Students: A User Experience Study .......................................... 287
   Ilana Wilken, Febe de Wet, and Elsabé Taljard

Health Applications

Towards the Design of a Cross Platform Solution for Efficient
Colorimetric Tests ..................................................................... 295
   Subrata Acharya, Gabriel Susai, and Kelly M. Elkins

When It Comes to Depression, ICT Use Matters: A Longitudinal Analysis
of the Effect of ICT Use and Mattering on Depression Among Older Adults . . . 301
   Jessica Francis, Travis Kadylak, Shelia R. Cotten, and R.V. Rikard

Method for Preventing Imposter Fraud During Blood-Pressure
Measurement ......................................................................... 307
   Kaori Fujimura, Haruka Suzuki, Gen Takahashi, Toru Nakamura,
   and Kazuhiro Hayakawa

Training System for Puncture Technique of Hemodialysis ............. 312
   Ren Kanehira, Atsushi Ohashi, and Hideo Fujimoto

Graphical Tools for Doctor-Patient Communication: An App Prototype
Design in Children’s Pain Management .................................... 318
   Fang Suey Lin, Ching-Yi Lin, Yu Jie Hsueh, Chun-Yi Lee,
   and Chun-Pei Hsieh

A Novel Mobile-Computing Based Assistive Approach for Knee Injury
Telerehabilitation – A Preliminary Study .................................... 324
   Tao Liu, Hongshi Huang, Gang Qian, Yan Zhao, Maria Jones,
   Wenxi Zeng, Justin Hampton, and Jicheng Fu
Multiplatform Game Type of Health Survey on Cancer Patient’s Stress Level ................................................................. 330
Seong Kuk Park, Sang Rak Jeong, Dong Gyun Kim, Jae Hee Kim, Yang Kyu Lim, Han Byul Moon, and Jin Wan Park

Smartphone Application Content for Prevention and Improvement of Adolescents’ Depression .......................... 335
Jung-Sun Park, Hyeon-Woo Bak, Sun-Hee Ham, Jae-Suk Cho, Hye-Ji Yoon, Ji-Soo Park, Da-Yeon Seo, and Jung-A Gwon

Challenges Involved in the Design of an e-Health Application for a Wearable Scoliosis Monitoring System. .......... 339
Gheorghe Daniel Voinea, Cristian Postelnicu, and Silviu Butnariu

Location-based and Navigation Applications

Car Park Finder – Presumptive Design Brings the Best Out of It! ................................................................. 347
Damian Chen, Siang Huat (Alfred) Teoh, and Siew Ling (Cathy) Yong

A Social Context-Aware Recommender of Itineraries Between Relevant Points of Interest. ................................ 354
Dario D’Agostino, Fabio Gasparetti, Alessandro Micarelli, and Giuseppe Sansonetti

A Flexible Scenario-Based Mobile Learning System for Disaster Evacuation ...................................................... 360
Hisashi Hatakeyama, Masahiro Nagai, and Masao Murota

Will o’the Wisp: Augmented Reality Navigation for Hikers ................................................................. 365
Catherine S. Johnson, Shambhavi Mahajan, Mehmet Ordu, Samyukta Sherugar, and Bruce N. Walker

smarTactile Map: An Interactive and Smart Map to Help the Blind to Navigate by Touch .................................. 372
MyungJoong Lee and Jie-Eun Hwang

Adaptive Landmark-Based Pedestrian Navigation System with Hand-Held and Wearable Devices .................. 379
Daeil Seo, Doyeon Kim, Byounghyun Yoo, and Heedong Ko

Advancement of a To-Do Reminder System Focusing on Context of the User ................................................. 385
Masatoshi Tanaka, Keisuke Yoshida, Shogo Matsuno, and Minoru Ohyama

Speech Activity Detection and Speaker Localization Based on Distributed Microphones .............................. 392
Yi Yang, Jingyun Zhang, and Jiasong Sun
Smart Environments and the Internet of Things

Evaluation of the Interaction with an Internet of Things Smart Building.

Rafael Bacchetti

Reflective Interaction Capabilities by Use of Ambient Manuals for an Ambient Light-Control

Daniel Burmeister, Andreas Schrader, and Bashar Altakrouni

Developing a the Advanced IoT (Internet of Things) Technology Based on Spatial Information

Mi Na Ra Jang, Chan Yang Suhr, and Yun Gil Lee

The Belonging Robot (BeRo): A Hybrid Physical-Digital System to Reflect Moods

Tarek H. Mokhtar and Samer E. Mansour

Cloud Assisted IOT Based Social Door to Boost Student-Professor Interaction

Ali Asghar Nazari Shirehjini, Abulsalam Yassine, Shervin Shirmohammadi, Ramtin Rasooli, and Mohammad Salar Arbabi

Development of Next Generation Indoor Environment Control Technology Using ICT

Toshihiro Otsuka and Kazuhiro Sadakiyo

MocaBit 1.0: A Gamified Mo-cap System to Track Physical Location

Sudarshan Seshasayee and Sanghyun Yoo

Sync-BIM: The Interactive BIM-Based Platform for Controlling Data-Driven Kinetic Façade

Yang Ting Shen and Tien Yu Wu

The Research of Using Magnetic Pillbox as Smart Pillbox System’s Interactive Tangible User Interface

Ming-Hsiang Sung and Chen-Wei Chiang

Correction of Optical Flow Calculations Using Color Balance Change

Nami Tanaka and Hiromitsu Nishimura

Turning an Electric Cargo Vehicle into a Portable Interactive Information Kiosk

Emmanouil Zidianakis, George Margetis, Spiros Paparoulis, Thanasis Toutountzis, Kallia Stratigi, George Paparoulis, and Constantine Stephanidis
Design and Evaluation Case Studies

Design and Implementation of an NFC Food Labeler for Smart Healthcare.

Yara Al-Tehini and Hend S. Al-Khalifa

Enhancing the Customers’ Experience Using an Augmented Reality Mirror

Chryssi Birliraki, George Marjetis, Nikolaos Patsiouras, Giannis Drossis, and Constantine Stephanidis

Sectors Chained by Design: Collaborative Development of Product Footwear and Leather Goods from the Implementation of Participatory Methodologies. Case Cluster of Footwear in the Valle Del Cauca in Colombia

Evaluating Usability of a Battery Swap Station for Electric Two Wheelers: A Case Study

Fei-Hui Huang, Yu-Cheng Lin, and Ting-Ting Lv

Proposal for a Remote Communications System Based on Proxemics Theory.

Namgyu Kang and Kensaku ITO

Developing a Design Supporting System in the Real-Time Manner for Low-Energy Building Design Based on BIM.

Yun Gil Lee

Programming of Virtual Reality System for Swimming Teaching

Ting Liao, Bin Wang, and Di Wu

I am Ssam: Learning Benefits of the Korean Wrap Food

Yang Kyu Lim, Eun Ju Lee, Joo Young Ha, and Jin Wan Park

Developing a Human Behavior Simulation Technology in the Real-Time Manner Based on BIM

Changhoon Park and Yun Gil Lee

Augmented Reality Based Guidance for Solving Rubik’s Cube Using HMD

Jaebum Park and Changhoon Park

Research on Interaction Design of Portable Body-Slimming Cabin for Female

Yang Qiao and Minggang Yang

Naturalistic Human-Robot Interaction Design for Control of Unmanned Ground Vehicles
Usability of Thermal Sensation Voting Device .......................... 541
Eduardo Hideki Tanaka, Lúcia Satiko Nomiso, and Daniel Augusto Guerra da Costa

The Intuitive Human Interaction to Activate the Wetsuit Heating System .... 546
Fábio Teixeira, Claudia Regina Batista, Ambra Trotto, Christoffel Kuenen, Claudio Henrique da Silva, and Adhemar Maria do Valle Filho

Nail Art Design System Using Interactive Evolutionary Computation with VR .................................................. 552
Masataka Tokumaru and Ayataka Yonezawa

An Android Application for Supporting Amateur Theatre .................. 558
Yuya Toyoda, Saori Nakajo, and Tetsuro Kitahara

The Space Design of Hackerspace in the “Internet Plus” Era ............. 564
Haozhou Yuan and Minggang Yang

okinesio – Evaluation and Development of an Open Hardware Activity Tracker ............................................... 570
Michael Zöllner, Andreas Zapf, and Nhán Duc Truong

Author Index .................................................................. 575

Siyuan Liu, Yinxia Li, Hui-min Hu, and Chaoyi Zhao

Comparison of Head and Face Anthropometric Characteristics Between Six Countries

Linghua Ran, Xin Zhang, Hui-min Hu, Hong Luo, and Taijie Liu

Some Considerations of Age Estimation Method for “Augmented TV” Based on Posture of Gripping Tablet PC

Yuria Suzuki, Hiroyuki Kawakita, Michihiro Uehara, Toshio Nakagawa, Hiromitsu Nishimura, and Akihiko Shirai

A Computerized Measurement of CROM (Cervical Range of Motion) by Using Smartphone Based HMD (Head Mounted Display)

Changgon Woo and Changhoon Park

Evaluation of Four Eyestrain Recovery Methods for Visual Display Terminal Workers

Hsin-Chieh Wu, Min-Chi Chiu, and Jyun-Hao Jian

Estimating Carrier’s Height by Accelerometer Signals of a Smartphone

Hiro-Fumi Yanai and Atsushi Enjyoji

Experimental Study on Comfort Ranges of Manual Operation in Standing Position

Ai-Ping Yang, Wen-Yu Fu, Guang Cheng, Xin Zhang, Hui-min Hu, and Chau-Kuang Chen
Study of Posture Estimation System Using Infrared Camera .......................... 553
Airi Yoshino and Hiromitsu Nishimura

Evaluation of Pedal Button Diameter and Travel Length .............................. 559
Pei Zhou, Yifen Qiu, Songtao Zhu, Hui-min Hu, and Chaoyi Zhao

Author Index ...................................................................................................... 565
HCI International 2016 - Posters' Extended Abstracts
18th International Conference, HCI International 2016
Toronto, Canada, July 17-22, 2016 Proceedings, Part II
Stephanidis, C. (Ed.)
2016, XXXI, 581 p. 288 illus., Softcover
