Contents

A Numerical Study of the Power Function of a New Symmetry Test ........................................... 1
D. Bagkavos, P.N. Patil and A.T.A. Wood

Nonparametric Test on Process Capability ......................... 11
Stefano Bonnini

Testing for Breaks in Regression Models with Dependent Data .... 19
J. Hidalgo and V. Dalla

Change Detection in INARCH Time Series of Counts ............ 47
Šárka Hudcová, Marie Hušková and Simos Meintanis

Varying Coefficient Models Revisited: An Econometric View .... 59
Giacomo Benini, Stefan Sperlich and Raoul Theler

Kalman Filtering and Forecasting Algorithms with Use of Nonparametric Functional Estimators .................. 75
Gennady Koshkin and Valery Smagin

Regularization of Positive Signal Nonparametric Filtering in Multiplicative Observation Model ..................... 85
Alexander V. Dobrovidov

Nonparametric Estimation of Heavy-Tailed Density by the Discrepancy Method .......................... 103
Natalia Markovich

Robust Estimation in AFT Models and a Covariate Adjusted Mann–Whitney Statistic for Comparing Two Sojourn Times .... 117
Sutirtha Chakraborty and Somnath Datta

Claim Reserving Using Distance-Based Generalized Linear Models ........................................... 135
Eva Boj and Teresa Costa
Discrimination, Binomials and Glass Ceiling Effects ................. 149
Maria Paz Espinosa, Eva Ferreira and Winfried Stute

Extrinsic Means and Antimeans ...................................... 161
Vic Patrangenaru, K. David Yao and Ruite Guo

Partial Distance Correlation ........................................ 179
Gábor J. Székely and Maria L. Rizzo

Automatic Component Selection in Additive Modeling
of French National Electricity Load Forecasting ..................... 191
Anestis Antoniadis, Xavier Brossat, Yannig Goude,
Jean-Michel Poggi and Vincent Thouvenot

Nonparametric Method for Estimating the Distribution
of Time to Failure of Engineering Materials ......................... 211
Antonio Meneses, Salvador Naya, Ignacio López-de-Ullibarri
and Javier Tarrio-Saavedra
