

# Contents

<b>Part I Modelling of Transport Systems and Travelling Behaviour</b>	
<b>Development of Various Scenarios of ITS Systems for Urban Area . . . .</b>	<b>3</b>
Grzegorz Karoń and Ryszard Janecki	
<b>The Influence of Countdown Timers on the Traffic Safety of Pedestrians and Vehicles at the Signalized Intersection . . . . .</b>	<b>13</b>
Aleksander Sobota, Marcin Jacek Klos and Grzegorz Karoń	
<b>Air Transport Service in Academic Research at Polish Airports . . . . .</b>	<b>23</b>
Dariusz Tłoczyński	
<b>Underage Pedestrian Road Users in Terms of Road Accidents . . . . .</b>	<b>33</b>
Piotr Czech	
<b>Part II Smart Cities and Green Travelling</b>	
<b>Regression Based Emission Models for Vehicle Contribution to Climate Change . . . . .</b>	<b>47</b>
Ander Pijoan, Iraia Oribe-García, Oihane Kamara-Esteban, Konstantinos N. Genikomsakis, Cruz E. Borges and Ainhoa Alonso-Vicario	
<b>The Effect of University Campuses on the Modal Split of Polish Cities . . . . .</b>	<b>65</b>
Romanika Okraszewska, Aleksandra Romanowska and Kazimierz Jamroz	
<b>Distance and Frequency of Travels Made with Selected Means of Transport—A Case Study for the Upper Silesian Conurbation (Poland) . . . . .</b>	<b>75</b>
Grzegorz Sierpiński	
<b>Pedestrian Route Search Based on OpenStreetMap . . . . .</b>	<b>87</b>
Sebastian Naumann and Mikhail Y. Kovalyov	

### **Part III Modern Transport and Logistics in Urban Areas**

<b>Road Pavement Condition as a Determinant of Travelling Comfort</b> . . . . .	99
Marcin Staniek	
<b>Risks Arising from Introducing Bicycle Traffic onto Designated Bus Lanes</b> . . . . .	109
Marek Bauer	
<b>Support for Green Logistics Using the GTAlg Tool</b> . . . . .	121
Ireneusz Celiński	
<b>Application of the Genetic Algorithm for Optimization of the Public Transportation Lines</b> . . . . .	135
Aleksander Król	

### **Part IV New Solutions for Transport Systems in the World**

<b>Analysis of Significance of Differences Between Psychotechnical Parameters for Drivers at the Entries to One-Lane and Turbo Roundabouts in Poland</b> . . . . .	149
Elżbieta Macioszek	
<b>Towards an Optimal Multimodal Travel Planner—Lessons from the European Experience</b> . . . . .	163
Przemyslaw Borkowski	
<b>A Hybrid Planning Method for Charging Infrastructure for Electrically Driven Buses in Public Transportation</b> . . . . .	175
Hubert Büchter and Sebastian Naumann	
<b>Location of Electric Buses Recharging Stations Using Point Method Procedure</b> . . . . .	187
Krzysztof Krawiec	
<b>Testing Station-Related Railway Control Systems—Functional and Failure-Response Tests</b> . . . . .	195
Szymon Surma and Marcin Gołębiowski	
<b>Author Index</b> . . . . .	205
