# Contents

## I  History and Basic Mechanisms of Heart Failure

1. **A Historical Overview of Cardiovascular Medicine and Heart Failure** ........................................ 3  
   Cyprian V. Weaver and Daniel J. Garry

2. **Physiology of the Normal and Failing Heart** ................................................................................... 21  
   M. Chadi Alraies, Daniel J. Garry, and Mary G. Garry

3. **Molecular Biology of the Normal and Failing Heart** ........................................................................ 39  
   Forum Kamdar, Mary G. Garry, and Daniel J. Garry

4. **Pathology of Ischemic Heart Disease** ......................................................................................... 59  
   Zeev Vlodaver, Richard W. Asinger, and John R. Lesser

5. **The Pathology of Cardiomyopathies** ......................................................................................... 81  
   Zeev Vlodaver, James H. Moller, Shannon M. Mackey-Bojack, and K. P. Madhu

6. **Epidemiology of Heart Failure** ................................................................................................. 93  
   Russell V. Luepker

## II  Etiology of Heart Failure

7. **Acute Heart Failure** .................................................................................................................. 105  
   Pradeep P.A. Mammen, William K. Cornwell III, Mark P. Birkenbach, and Daniel J. Garry

8. **Ischemic Cardiomyopathy** ....................................................................................................... 119  
   Robert F. Wilson

9. **Valvular Cardiomyopathy** ....................................................................................................... 135  
   Robert F. Wilson

10. **Molecular Mechanism of Sarcomeric Cardiomyopathies** ....................................................... 151  
    Brian R. Thompson, Michelle L. Asp, and Joseph M. Metzger

11. **Right Heart Failure** ................................................................................................................. 161  
    Thenappan Thenappan and Daniel J. Garry

12. **Neuromuscular Cardiomyopathies** .......................................................................................... 175  
    Forum Kamdar, Pradeep P.A. Mammen, and Daniel J. Garry

13. **Heart Failure with Preserved Ejection Fraction (HFpEF)** ...................................................... 197  
    Gary S. Francis, M. Chadi Alraies, and Marc R. Pritzker
