

Contents

Part I Introducing Comets

1	Comets Throughout History	3
2	Comets in Motion.....	9
3	Toward the Modern Understanding of Comets.....	13
4	The Formation of Tails.....	35
5	The Origin of Comets	43
6	A Reservoir of Comets!.....	51

Part II The Role of Visual Comet Observers in the Age of CCDs

7	The Value of Visual Observing in a Photo-Happy World.....	59
8	Visual Comet Hunting.....	63
9	Observing Known Comets.....	71
10	The Coma: How to Estimate Its Brightness and Record Its Features.....	79
11	Observing the Tails of Comets: What to Look For and Record	109
12	Recording and Reporting Your Observations.....	131

Part III The Nuts and Bolts of Comet Observing

13	Relatively Bright Comets Predicted to Return from 2016 to 2027	137
14	29P/Schwassmann-Wachmann, an “Outbursting” Comet to Watch.....	191
15	Some Prominent Visual Comet Discoverers	207

16	The Kreutz Sungrazing Comet Group: A Special Opportunity for Visual Comet Hunters?	219
17	Numbered Observable Short-Period Comets.....	225
18	Unnumbered Short-Period Comets.....	235
	Appendix A: Atmospheric Extinction Tables.....	241
	Appendix B: The Phase Angle of a Comet.....	247
	Appendix C: “Lost” Short-Period Comets	249
	Appendix D: Lunar Phases 2017–2027	253
	Glossary of Terms	261
	Author Index	271
	Subject Index.....	273
