

Contents

Part I Basics, Fundamentals, Concepts	
Efficient Use of Energy in the Industry	3
Hasan A. Heperkan	
Sustainable Energy Transition: Local Governments as Key Actors	17
Maryke van Staden	
Institutionalization of Solar Cities Development	27
Jong-dall Kim	
State-of-the-Art and New Technologies of Direct Drive Wind Turbines	33
Klinger Friedrich and Müller Lukas	
State of the Art in Polycrystalline Compound Thin-Film Photovoltaics	51
Bülent M. Başol	
How Can We Include External Costs in the Price of Energy?	59
Ian Dickie and Lawrie Harper-Simmonds	
Evaluation of Renewable and Conventional Ammonia as a Potential Solution.....	69
Yusuf Bicer and Ibrahim Dincer	
Solar Trigenation: Electricity, Cooling and Steam from the Sun	87
Lokurlu Ahmet and Saidi Karim	
Curriculum Development into Renewable Energies Through Coupled Research and Applied Projects.....	95
Drishtysingh Ramdenee, T.A. Poirier, R. Mohee, N. Barka, J. Chaumel, and A. Ilinca	

Part II System Analysis, Modeling, Simulations	
Barriers and Opportunities for Transformation of Conventional Energy System of Turkey to 100 % Renewable Community Power.....	105
Tanay Sıdkı Uyar	
From Planning to Operation: Wind Power Forecasting Model for New Offshore Wind Farms	119
Melih Kurt, Jan Dobschinski, Bernhard Lange, and Arne Wessel	
Technical Efficiency Improvement Scenario Analysis for Conversion Technologies in Turkey.....	129
Egemen Sulukan, Mustafa Sağlam, and Tanay Sıdkı Uyar	
Balancing of Fluctuating Power to Obtain 100 % Supply with Renewable Energy	137
Preben Maegaard	
Analysis of Demand-Side Management Option with Cogeneration Implementations in Turkish Energy System by MARKAL Model.....	147
Egemen Sulukan, Mustafa Sağlam, and Tanay Sıdkı Uyar	
Analyzing Cost-Effective Renewable Energy Contribution Options for Turkey.....	157
Mustafa Sağlam, Egemen Sulukan, and Tanay Sıdkı Uyar	
A Native Energy Decision Model for Turkey.....	167
Egemen Sulukan, Mustafa Sağlam, and Tanay Sıdkı Uyar	
Reference Energy System Development for Turkish Residential Sector.....	179
Fatih Mutluel and Egemen Sulukan	
Energy Management Performance in Country Scale: A Data Envelopment Analysis.....	187
Egemen Sulukan, Mumtaz Karatas, and Ilker Akgun	
An Alternative Carbon Dioxide Emission Estimation for Turkey.....	195
Mustafa Sağlam, Egemen Sulukan, and Tanay Sıdkı Uyar	
Variability Analysis of Wind and Wind Power in Turkey.....	203
Zehra Yumurtacı, A. Yasin Demirhan, and Yüksel Malkoç	
Models of Solar Deployment:Decentralised Versus Centralised Generation	211
Andrea Bodenhausen, Engin Yaman, Julia Kusay, and Egemen Seymen	
Testing, Product Certification, and Inspection of Photovoltaic Modules for Local Production	219
Yusuf Biçer, Cevat Özarpa, and Y. Erhan Böke	

Aerodynamic and Performance Analysis of Drag-Driven Vertical-Axis Wind Turbines..... 227
 Emre Alpman, Zafer Canal, and İbrahim Baysal

Part III Applications, Case Studies

Optimal Control of Solar Heating System..... 235
 Bin-Juine Huang, Wei-Zhe Ton, Chen-Chun Wu, Hua-Wei Ko, Hsien-Shun Chang, and Rue-Her Yen

Enhanced Geothermal Systems: The Soultz-sous-Forêts Project 243
 Thomas Koelbel and Albert Genter

Field Study for the Determination of the Ratio of Convective to Total Energy Transport in Geothermal Systems 249
 Ulvi Arslan and Heiko Huber

A Simple Feedback Control Approach for Economic Measures to Deploy New Energy Technologies 255
 Takanobu Kosugi

Economic Impacts of Renewable Energy Increase in Germany..... 263
 Ulrike Lehr and Philip Ulrich

The Potentials and the Benefits of Intensified RES Cooperation Between the European Union and Its Neighbours..... 273
 Gustav Resch, Marijke Welisch, Gerhard Totschnig, and Andre Ortner

Update of World Geothermal Development (2013)..... 281
 Colin C. Harvey

A New Evaluation Method Applying Sustainability and Climate Change Concepts: The Case of Planning New York City 2030 289
 Yosef Jabareen

Reliability of 100 % Renewable Electricity Supply in the Australian National Electricity Market..... 297
 Ben Elliston, Mark Diesendorf, and Iain MacGill

Managing Waste for Energy Use in Turkey..... 305
 Wietze Lise

Evaluation of Wind–Solar Hybrid System for a Household in Northern Cyprus..... 313
 Nafi Cabacaba and Serkan Abbasoğlu

How do The External Costs of Renewable and Fossil Fuel Energy Compare?..... 323
 Rohit Mistry and Lawrie Harper Simmonds

Wind Energy Statistics in Europe: Onshore and Offshore	339
Klinger Friedrich and Müller Lukas	
Issues in Accessing Enormous Renewable Resource in Ireland	349
Grattan Healy	
Integration of Large Rooftop Photovoltaic Plants in Industrial or Commercial Areas	361
Andrea Bodenhausen, Claire Guesdon, Andy Parr, Patrick Clough, and Maarten van Cleef	
Part IV Future Directions	
Archetypes of 100 % Renewable Energies Scenarios by 2050	371
Harry Lehmann and Mark Nowakowski	
The Energy Report: 100 % Renewable Energy by 2050	379
Stephan Singer, Jean-Philippe Denruyter, and Deniz Yener	
Offshore Wind Energy: Key to 100 % Renewable Energy	385
Klinger Friedrich and Müller Lukas	
The Role of Biomass in a 100 % Renewable Energy World	395
Heinz Kopetz	
History of Wind Energy and an Outlook for the Future	401
Klinger Friedrich and Müller Lukas	
Electric Power System Transition and the “Polluter Pays Principle”	419
Aviel Verbruggen	
The Importance of Diversity for Renewables and Their Control in Future Electrical Infrastructure	435
Hasan Basri Çetinkaya, Serhat Uzun, Hasan Göksun Virlan, and Halit Can Altay	
Cellular Power Grids for a 100 % Renewable Energy Supply	441
Eberhard Waffenschmidt	
Solar Atlas: One Quarter of 1 % of Turkey’s Surface Area Is Sufficient to Meet All the Power Demand with PV by 2050!	449
Jean-Philippe Denruyter and Mustafa Özgür Berke
