## Contents

### Part I

1. **50 Years in Carbon Fibre, 60 Years in Composites**
   - Robert D. Adams
   - Page 3

2. **‘But How Can We Make Something Useful Out of Black String?’ The Development of Carbon Fibre Composites Manufacturing (1965 –2015)**
   - Kevin Potter
   - Page 29

3. **Boron Fiber to Carbon Fiber**
   - Carl T. Herakovich
   - Page 59

4. **Serendipity in Carbon Fibres: Interfaces and Interphases in Composites**
   - Frank R. Jones
   - Page 71

### Part II

5. **Nano-Engineered Hierarchical Carbon Fibres and Their Composites: Preparation, Properties and Multifunctionalities**
   - Han Zhang, Emiliano Bilotti, and Ton Peijs
   - Page 101

6. **Nano-engineered Carbon Fibre-Reinforced Composites: Challenges and Opportunities**
   - Larissa Gorbatikh and Stepan V. Lomov
   - Page 117

7. **A Nano-micro-macro-multiscale Model for Progressive Failure Prediction in Advanced Composites**
   - Samit Roy, Abhishek Kumar, and Shibo Li
   - Page 137

8. **Carbon Fibre-Reinforced Polymer Laminates with Nanofiller-Enhanced Multifunctionality**
   - Wei Han, Youhong Tang, and Lin Ye
   - Page 171
9 Analysis Models for Polymer Composites Across Different Length Scales ................................................................. 199
Pedro P. Camanho and Albertino Arteiro

Part III
10 Microscale Characterization Techniques of Fibre-Reinforced Polymers ...................................................... 283
M. Herráez, F. Naya, C. González, M. Monclús, J. Molina, C.S. Lopes, and J. LLorca

11 Fibre Distribution and the Process-Property Dilemma .............. 301
John Summerscales

12 Analysis of Defect Developments in Composite Forming ........... 319
P. Boisse, N. Hamila, and A. Madeo

Part IV
13 Deformation Mechanisms of Carbon Fibres and Carbon Fibre Composites .......................................................... 341
Robert J. Young

14 Micromechanical Evidences on Interfibre Failure of Composites .... 359
Federico París, Elena Correa, and Vladislav Mantič

15 Progressive Damage in Fibre-Reinforced Composites: Towards More Accurate and Efficient Computational Modelling and Analysis ................................................................. 391
B.Y. Chen and T.E. Tay

16 Predicting Properties of Undamaged and Damaged Carbon Fibre Reinforced Composites ........................................ 425
L. Neil McCartney

Part V
17 Composites Toughen Up! .............................................................. 471
Ivana K. Partridge

18 Slow Cracking in Composite Materials: Catastrophic Fracture of Composite Structures ........................................ 489
Peter W. R. Beaumont

19 Finite Fracture Mechanics: A Useful Tool to Analyze Cracking Mechanisms in Composite Materials ..................... 529
E. Martin, D. Leguillon, and N. Carrère
20 Traction-Separation Relations in Delamination of Layered Carbon-Epoxy Composites Under Monotonic Loads: Experiments and Modeling ........................................ 549

21 Damage and Failure Analysis of Bolted Joints in Composite Laminates ........................................ 591
A. Ataş and C. Soutis

22 Interfaces, Cracks and Toughness: City Cars Made from Composites 645
John Jostins and Kevin Kendall

Part VI

23 A Virtual Testing Approach for Laminated Composites Based on Micromechanics ........................................ 667
Pierre Ladevèze, David Néron, and Hadrien Bainier

24 Virtual Testing of Composite Structures: Progress and Challenges in Predicting Damage, Residual Strength and Crashworthiness ........................................... 699
Brian G. Falzon and Wei Tan

25 Contribution of Virtual Simulation to Industrialisation of Carbon Fibre-Reinforced Polymer (CFRP) Composites for Manufacturing Processes and Mechanical Performance ........ 745
Anthony K. Pickett

Part VII

26 Multi-scale Progressive Failure Modeling: From Nano-structured Carbon Fibers to Textile Composites ....... 767
A.E. Bogdanovich

27 Textile Structural Composites: From 3-D to 1-D Fiber Architecture. 795
Frank K. Ko and Lynn Y. Wan

28 Experimental and Multiscale Numerical Studies of Woven Fabric Carbon Composite Cylinder Subjected to Internal Pressure Loading ....................................................... 849
Young W. Kwon, Timothy D. Ponshock, and John D. Molitoris
Part VIII

29 Fatigue of 2D and 3D Carbon-Fiber-Reinforced Polymer Matrix Composites and of a Unitized Polymer/Ceramic Matrix Composite at Elevated Temperature ........................................ 873
M.B. Ruggles-Wrenn and M.P. Wilkinson

30 Carbon Fibers in Tribo-composites ........................................... 909
Klaus Friedrich and Li Chang
The Structural Integrity of Carbon Fiber Composites
Fifty Years of Progress and Achievement of the Science, Development, and Applications
2017, XIV, 969 p. 605 illus., 353 illus. in color., Hardcover
ISBN: 978-3-319-46118-2
