Contents

Probing Beneath the Surface of Experience .......................... 1
John Mason

Part I Teacher Noticing in Various Grade Bands and Contexts

Teacher Noticing in Various Grade Bands and Contexts:
Commentary ................................................................. 21
Brett Criswell and Rebecca McNall Krall

From a Framework to a Lens: Learning to Notice Student
Mathematical Thinking.................................................... 31
Dawn Teuscher, Keith R. Leatham and Blake E. Peterson

Investigating Secondary Preservice Teacher Noticing of Students’
Mathematical Thinking..................................................... 49
Erin E. Krupa, Maryann Huey, Kristin Lesseig, Stephanie Casey
and Debra Monson

A Case Study of Middle School Teachers’ Noticing During
Modeling with Mathematics Tasks ................................. 73
Brandon Floro and Jonathan D. Bostic

Using Video of Peer Teaching to Examine Grades 6–12
Preservice Teachers’ Noticing ......................................... 91
Lorraine M. Males

Part II Examining Student Thinking through Teacher Noticing

Examining Student Thinking Through Teacher Noticing: Commentary... 113
Randolph Philipp, Mike Fredenberg and Casey Hawthorne

Mathematical Teacher Noticing: The Key to Learning
from Lesson Study ......................................................... 121
Mi Yeon Lee and Ban Heng Choy
Learning to Notice Student Thinking About the Equal Sign: K-8 Preservice Teachers’ Experiences in a Teacher Preparation Program .................................................. 141
Leigh A. van den Kieboom, Marta T. Magiera and John C. Moyer

Following a Teacher’s Mathematical and Scientific Noticing Across Career Progression from Field Experiences to Classroom Teaching ........................................ 161
Julie M. Amador, Ingrid Carter, Rick A. Hudson and Enrique Galindo

Noticing Students’ Conversations and Gestures During Group Problem-Solving in Mathematics .......................... 183
Kevin J. Wells

Part III Extending Equitable Practices in Teacher Noticing

Extending Equitable Practices in Teacher Noticing: Commentary ................................................ 207
Cindy Jong

“Everything Matters”: Mexican-American Prospective Elementary Teachers Noticing Issues of Status and Participation While Learning to Teach Mathematics ........ 215
Crystal Kalinec-Craig

“Maybe It’s a Status Problem.” Development of Mathematics Teacher Noticing for Equity ........................................ 231
Evra M. Baldinger

Making Visible the Relationship Between Teachers’ Noticing for Equity and Equitable Teaching Practice ........ 251
Elizabeth A. van Es, Victoria Hand and Janet Mercado

Part IV Complexities in Measuring Teacher Noticing

Complexities in Measuring Teacher Noticing: Commentary ............................... 273
Victoria R. Jacobs

Measuring Noticing Within Complex Mathematics Classroom Interactions .................................................. 281
Shari L. Stockero and Rachel L. Rupnow

Using Mathematical Learning Goals to Analyze Teacher Noticing ....... 303
Sandy M. Spitzer and Christine M. Phelps-Gregory

Measuring Elementary Mathematics Teachers’ Noticing: Using Child Study as a Vehicle ......................................... 321
Heidi L. Beattie, Lixin Ren, Wendy M. Smith and Ruth M. Heaton
Teacher Noticing: Bridging and Broadening Perspectives, Contexts, and Frameworks
Schack, E.O.; Fisher, M.H.; Wilhelm, J.A. (Eds.)
2017, XX, 536 p. 51 illus., 12 illus. in color., Hardcover
