## Contents

Facilitating Design Automation in Multi-organization Concurrent Engineering: Insights from Graph-Rewriting Theory .................................................. 1  
    Julian R. Eichhoff, Felix Baumann, and Dieter Roller  

The Design and Development of Manufacturing Process Knowledge Base System Based on Ontology ................................................................. 9  
    Haojie Song, Huifen Wang, Tingyu Liu, Qiqi Zhang, and Binbin Gao  

Collaborative Modeling of Manufacturing Processes – a Wiki – Based Approach ........................................................................................................... 17  
    Selim Erol  

Performance-Matching-Based Resource Selection for Cloud Manufacturing .......................................................... 25  
    Li-Nan Zhu, Yan-Wei Zhao, and Guo-Jiang Shen  

A Framework for Improving Collaboration Patterns in BIM Projects ....................................................................................................................... 34  
    Eva-Charlotte Forgues, Vincent Carignan, Daniel Forgues, and Samia Ben Rajeb  

BIM-Enabled Collaborative Scaffolding Scoping and Design .......................................................................................................................... 43  
    Jun Wang, Hung-Lin Chi, Chongyi Liu, and Xiangyu Wang  

Modeling Temporal Behavior to Identify Potential Experts in Question Answering Communities ........................................................................ 51  
    Min Fu, Min Zhu, Yabo Su, Qiuhui Zhu, and Mingzhao Li  

Representation in Collective Design: Are There Differences Between Expert Designers and the Crowd? .............................................................. 59  
    Darin Phare, Ning Gu, and Michael Ostwald  

City Probe: The Crowdsourcing Platform Driven by Citizen-Based Sensing for Spatial Identification and Assessment ........................................... 69  
    Yang Ting Shen, Yi Shiang Shiu, and Peiwen Lu  

Collaborative Cloud Printing Service .................................................................................................................................. 77  
    Felix Baumann, Julian Eichhoff, and Dieter Roller  

Supplier Selection Based on Recommendations ....................................................................................................................... 86  
    Sylvia Encheva  

    Qing Shen, Xiaojuan Ban, Chong Guo, and Cong Wang
