

# Contents

<b>1</b>	<b>Introduction</b>	1
1.1	The Development of Wireless Networks	1
1.2	5G Wireless Networks	3
	References	7
<b>2</b>	<b>Cloud-Based Networking</b>	9
2.1	Network Foundation Virtualization	9
2.1.1	Development Status of NFV	11
2.1.2	Technical Issues of NFV	13
2.2	Cloud Radio Access Networks	15
2.3	Mobile Cloud Networking	17
	References	18
<b>3</b>	<b>Cloud Platform for Networking</b>	21
3.1	OpenNebule	21
3.2	OpenStack	23
3.3	OpenDayLight	27
3.4	Virtual Machine Migration	28
3.4.1	P2V	28
3.4.2	V2V	29
3.4.3	V2P	30
	References	30
<b>4</b>	<b>Definable Networking</b>	33
4.1	Caching	33
4.2	Mobile Content Distribution Network	34
4.3	Software-Defined Mobile Network	36
4.3.1	SDN Architecture	38
4.3.2	The Critical Techniques for Data Layer	40
4.3.3	The Critical Techniques for Control Layer	43
4.3.4	SDN-Based Application	51

4.4	Networking as a Service .....	54
4.4.1	Create a Virtual Network Segment.....	54
4.4.2	Integration of NaaS and WAN .....	55
4.4.3	Advantage of NaaS .....	55
	References .....	55
<b>5</b>	<b>Green Wireless Networks</b> .....	<b>59</b>
5.1	Background.....	59
5.2	Cognitive SDN for Green Wireless Networks .....	61
5.2.1	Cognitive SDN Architecture and Technology .....	61
5.2.2	Green Wireless Network Architecture Based on Cognitive SDN .....	63
5.3	SDN-Based Energy Efficiency Optimization for RAN.....	64
5.3.1	Separation Between Control and Data .....	64
5.3.2	Separation Between Uplink and Downlink .....	65
5.3.3	Elastic Wireless Resources Matching.....	65
5.4	SDN-Based Green Wireless Networks Fusion .....	66
	References .....	66
<b>6</b>	<b>5G-Related Projects</b> .....	<b>69</b>
6.1	METIS .....	69
6.2	Multi-hop Cellular Networks .....	72
6.3	T-NOVA .....	73
6.4	iJOIN .....	75
6.5	NUAGE.....	75
	References .....	77
<b>7</b>	<b>5G-Based Applications</b> .....	<b>79</b>
7.1	RAN Sharing .....	79
7.2	Multi-Operator Core Network .....	81
7.3	Fixed Mobile Convergence .....	82
7.4	Small Cells .....	83
7.5	Other Applications .....	83
	References .....	84
<b>8</b>	<b>Conclusion</b> .....	<b>85</b>
	References .....	86
