

# Contents

<b>1</b>	<b>Introduction: Roots, Vision, and Strategy</b> . . . . .	1
1.1	Local Roots of HCEI . . . . .	2
1.1.1	Hawaii 2000 Vision. . . . .	2
1.1.2	The Hawaii Energy Policy Forum . . . . .	3
1.1.3	Sustainability Report . . . . .	4
1.1.4	Public Visions and Political Realities . . . . .	5
1.2	External Influences on the Formulation of the Clean Energy Strategy . . . . .	5
1.3	Regulatory Basis for Energy Objectives . . . . .	6
1.4	Laying the Institutional Foundation for the Hawaii Clean Energy Initiative . . . . .	7
1.4.1	Energy Resources Coordinator . . . . .	7
1.4.2	Organizational Development . . . . .	8
1.4.2.1	Hawaii Natural Energy Institute . . . . .	8
1.4.2.2	Natural Energy Laboratory of Hawaii . . . . .	9
1.5	The HCEI Goals . . . . .	9
1.5.1	A Multi-dimensional Vision . . . . .	9
1.5.2	The 70 % Clean Energy Objective . . . . .	10
1.5.3	Preparedness . . . . .	11
1.6	Perspectives of Major Stakeholders on a Renewable Energy Strategy . . . . .	12
1.6.1	Electric Utilities. . . . .	12
1.6.2	Oil Companies. . . . .	12
1.6.3	Large Land Owners. . . . .	13
1.6.4	Socio-environmental Advocates. . . . .	13
1.6.5	Private Support Industries . . . . .	14
	References. . . . .	14
<b>2</b>	<b>Hawaii Policy Background</b> . . . . .	15
2.1	Distinguishing Characteristics of Hawaii’s Energy Sector. . . . .	15
2.2	Hawaii’s Energy Economy . . . . .	16

- 2.3 Overview of Energy Costs and Prices . . . . . 17
- 2.4 Overview of Energy Demand . . . . . 19
  - 2.4.1 Air Travel . . . . . 19
  - 2.4.2 The Military . . . . . 20
  - 2.4.3 Household Electricity Demand . . . . . 20
- 2.5 Overview of Petroleum Supply Patterns . . . . . 21
  - 2.5.1 Importing and Processing Oil Products . . . . . 21
  - 2.5.2 Liquid Fuel Use . . . . . 22
  - 2.5.3 Petroleum Use in Electrical Generation . . . . . 23
  - 2.5.4 Liquid Fuel Use in Ground Transportation . . . . . 23
  - 2.5.5 Domestic Use of Synthetic Natural Gas . . . . . 24
- 2.6 A Recent Forecast of HCEI’s Impact on Petroleum Demand . . . . . 24
- 2.7 Electricity Supply . . . . . 26
  - 2.7.1 Structure of Electricity Supply . . . . . 26
  - 2.7.2 Generation, Comparative Cost and Management  
of Electricity . . . . . 27
- 2.8 Energy Conservation and Efficiency . . . . . 29
- 2.9 Special Problems for a Special Place . . . . . 30
  - 2.9.1 Risk Implications of Oil Dependence . . . . . 30
  - 2.9.2 Transparency of Prices . . . . . 31
  - 2.9.3 Intermittent Generation and Grid Management . . . . . 32
  - 2.9.4 Impact of Environmental Regulations . . . . . 32
  - 2.9.5 Public Acceptance . . . . . 33
- References. . . . . 34

**3 Anatomy of a Strategy: Assumptions, Policies, and Initial Resource Assessments . . . . . 35**

- 3.1 Underlying Logic of HCEI . . . . . 36
- 3.2 Strategic Framework . . . . . 37
- 3.3 Regulatory Environment . . . . . 39
  - 3.3.1 Renewable Portfolio Standard . . . . . 39
  - 3.3.2 Energy Efficiency Portfolio Standard . . . . . 41
- 3.4 Initial Resource Assumptions About Electricity Resources . . . . . 42
  - 3.4.1 “Big Wind” as the Marque Strategy . . . . . 42
  - 3.4.2 Marine Cable . . . . . 43
  - 3.4.3 Evolution of Assumptions About Biofuels . . . . . 44
  - 3.4.4 The Shadow of Geothermal Resources . . . . . 45
- 3.5 Emergence of the Core HCEI Assumptions  
for Transportation and Energy Efficiency . . . . . 46
  - 3.5.1 The Transportation Dilemma . . . . . 46
  - 3.5.2 Conservation and Efficiency . . . . . 47
- 3.6 Assumptions About the Environment and Climate Change . . . . . 48
- 3.7 Future Determinants of the Policy Framework . . . . . 48
- References. . . . . 49

- 4 Negotiations: Politics, Intentions, and Institutional Capacity . . . . . 51**
  - 4.1 Political and Executive Leadership in Hawaii . . . . . 51
  - 4.2 The Blank Sheet Exercise . . . . . 53
  - 4.3 Federal Assistance . . . . . 53
    - 4.3.1 Enter the Man from Washington . . . . . 54
    - 4.3.2 The Lady from Texas and the “Strawman” Document . . . . . 55
  - 4.4 The NREL Visit . . . . . 56
  - 4.5 Preparing for Negotiations . . . . . 57
    - 4.5.1 The Negotiating Teams . . . . . 57
    - 4.5.2 Preparing the “Dance Card” . . . . . 58
    - 4.5.3 Hawaiian Electric’s “Fish or Cut Bait” Decision Point . . . . . 59
    - 4.5.4 The Discussions . . . . . 59
    - 4.5.5 Dotting “i’s” and Crossing “t’s” . . . . . 61
  - 4.6 Evolving Organizational Responsibilities . . . . . 62
    - 4.6.1 Changing Energy Efficiency Responsibilities . . . . . 62
    - 4.6.2 Steering Committees and Working Groups . . . . . 62
    - 4.6.3 Redirecting the Utility Planning System . . . . . 64
    - 4.6.4 Climate Change Policy . . . . . 65
  - 4.7 Changing Faces . . . . . 66
  - Reference . . . . . 67
- 5 Connecting the Dots—Early Implementation of the Hawaii Clean Energy Initiative HCEI Electricity Goals . . . . . 69**
  - 5.1 Establishing an Early Perspective—The Department of Energy Scenario Analysis . . . . . 69
  - 5.2 Reexamining the Resource Options . . . . . 71
    - 5.2.1 The Answer is “Big Wind” . . . . . 71
    - 5.2.2 The Answer is Geothermal . . . . . 73
    - 5.2.3 The Marine Transmission Cable Project . . . . . 74
    - 5.2.4 The Answer is Solar . . . . . 75
    - 5.2.5 The Answer is Liquid Natural Gas . . . . . 77
    - 5.2.6 The Answer is WHAT???. . . . . 81
  - 5.3 A Missing Policy Link . . . . . 82
  - 5.4 Verifying the Major HCEI Technical Assumptions . . . . . 83
    - 5.4.1 Navigant Study of Big Wind/Cable Project Study . . . . . 84
    - 5.4.2 HNEI/NREL/GE Wind Integration Study . . . . . 84
    - 5.4.3 Bioenergy Planning Studies and Field Research . . . . . 85
      - 5.4.3.1 The Bioenergy Master Plan . . . . . 85
      - 5.4.3.2 Vegetable Oils as a Biodiesel Feedstock . . . . . 86
      - 5.4.3.3 Boiler Tests of Crude Palm Oil . . . . . 86
    - 5.4.4 Sustainability Issues For Biofuels . . . . . 87

- 5.5 Energy Efficiency Programs . . . . . 88
  - 5.5.1 The Hawaii Energy Demand Side Management Programs . . . . . 88
  - 5.5.2 Structural Conservation Programs . . . . . 89
- References. . . . . 90
- 6 Unconnected Dots—Early Implementation of the Hawaii Clean Energy Initiative Surface Transportation Goals. . . . . 93**
  - 6.1 Road Transport Goals and Fuel Studies . . . . . 93
  - 6.2 Distinctions Between Power and Surface Transportation Goals. . . . . 94
  - 6.3 Alternative Fuels. . . . . 96
    - 6.3.1 Blended Ethanol Fuels. . . . . 96
    - 6.3.2 Green Gasoline . . . . . 96
      - 6.3.2.1 Estimated Costs of Producing Green Gasoline . . . . . 97
      - 6.3.2.2 Biodiesel . . . . . 98
  - 6.4 Electric and Plug-in Electric Vehicles. . . . . 98
    - 6.4.1 Electric Vehicle Incentives . . . . . 98
    - 6.4.2 The Electric Vehicle Forecast . . . . . 99
  - 6.5 Improved Vehicle Efficiency. . . . . 101
  - 6.6 Reduction in Vehicle Miles Traveled . . . . . 101
  - 6.7 Summary of Initial Road Transport Targets Proposed in Scenario Analysis. . . . . 102
  - 6.8 The “HCEI 2.0” Update Study . . . . . 103
  - 6.9 Air Transport . . . . . 105
  - 6.10 Marine Transportation. . . . . 105
  - 6.11 State and Federal Intentions in Renewable Fuels Policy. . . . . 106
  - References. . . . . 107
- 7 Environmental Implications and Other Disconnects. . . . . 109**
  - 7.1 Defining “Clean” and “Energy” in the HCEI . . . . . 110
  - 7.2 EPA Air Quality Standards—A Potential Game Changer for HCEI Implementation Options . . . . . 111
  - 7.3 Climate Change Policy in Hawaii. . . . . 112
    - 7.3.1 A Closer Look at the Implications of Act 234 . . . . . 113
    - 7.3.2 Analysis of Relationship between Act 234 and HCEI . . . . . 115
  - 7.4 The GHGTF Report and Recommendations . . . . . 116
    - 7.4.1 Conclusions and Recommendations. . . . . 116
    - 7.4.2 Controversy Surrounding GHG Rule Making . . . . . 116
    - 7.4.3 Act 234 and the Transportation Sector . . . . . 119
  - 7.5 Non-government Research on GHG Related Topics. . . . . 120
    - 7.5.1 Policy Research at Hawaiian Electric Company . . . . . 120
    - 7.5.2 Research at the University of Hawaii . . . . . 121

- 7.6 Other Interactions Between the HCEI and Act 234 . . . . . 123
  - 7.6.1 Financial and Administrative Questions  
for the Future . . . . . 123
  - 7.6.2 Potential Climate Change Impacts and their Effect  
on HCEI Implementation. . . . . 124
- References. . . . . 125
- 8 Years of Uncertainty and Surprise. . . . . 127**
  - 8.1 Changes at the Top. . . . . 128
  - 8.2 Policy Conflict at the PUC . . . . . 129
  - 8.3 Contrasting Strategies for Liquid Natural Gas Imports . . . . . 130
    - 8.3.1 Different Perspectives . . . . . 130
    - 8.3.2 Unanticipated Political Opposition. . . . . 131
    - 8.3.3 LNG Research at the University . . . . . 131
  - 8.4 The Proposed NextEra Purchase of Hawaiian  
Electric Company . . . . . 132
    - 8.4.1 An Unexpected Merger . . . . . 132
    - 8.4.2 Merger Rejected by PUC . . . . . 134
    - 8.4.3 Fall out of PUC Merger Rejection. . . . . 134
  - 8.5 The Oil Price Collapse of Late 2014 and Possible  
Consequences for HCEI. . . . . 135
  - 8.6 Summing up: HCEI at Mid 2016 . . . . . 136
  - References. . . . . 136
- 9 Taking Stock . . . . . 137**
  - 9.1 Organization of the Chapter . . . . . 138
  - 9.2 Policy Structure . . . . . 139
    - 9.2.1 Constraints: Politics, Geography, and Public  
Opinion . . . . . 139
    - 9.2.2 Policy Logic . . . . . 141
    - 9.2.3 The Practicality of Achieving Grand Visions . . . . . 141
  - 9.3 Strategic Objectives . . . . . 142
    - 9.3.1 Formulating Objectives . . . . . 142
    - 9.3.2 Regulation, Incentives and Market Forces . . . . . 143
    - 9.3.3 “Hard” and “Soft” Objectives . . . . . 144
    - 9.3.4 Planning Decisions and Resource Pricing . . . . . 145
    - 9.3.5 Subsidies, Tax Incentives and Strategic Decision  
Making . . . . . 146
  - 9.4 Process and Capacity . . . . . 148
    - 9.4.1 Government Capacity . . . . . 148
    - 9.4.2 Policy Coordination. . . . . 149
    - 9.4.3 Augmenting Government Capacity with Federal  
and Academic Support . . . . . 150

- 9.5 Information Flows . . . . . 151
  - 9.5.1 Barriers to Transparency in the Dissemination of Information . . . . . 151
  - 9.5.2 Third Party Information Programs . . . . . 151
- 9.6 Metrics for Monitoring Progress . . . . . 152
  - 9.6.1 HEPF Metrics Program . . . . . 153
  - 9.6.2 Separating Cause and Effect . . . . . 153
  - 9.6.3 Impact of “Low Hanging Fruit” . . . . . 154
  - 9.6.4 Finding Suitable Comparisons . . . . . 155
- 9.7 Resource Planning in a World of Subsidies . . . . . 155
  - 9.7.1 Benchmarking Subsidized Resources . . . . . 155
  - 9.7.2 Price Parity/Avoided Cost Markers . . . . . 156
- 9.8 Additional Resource Considerations . . . . . 157
  - 9.8.1 Development Implication of Renewable Options . . . . . 157
  - 9.8.2 Climate Change and Renewable Resource Selection . . . . . 157
- 9.9 Mixed Signals and Policy Conflicts . . . . . 158
  - 9.9.1 Environmental Uncertainties . . . . . 158
  - 9.9.2 MAC/MACT Sulfur Emission Standards . . . . . 158
  - 9.9.3 ACT 234 Greenhouse Gas Regulation . . . . . 159
- 9.10 Coping with an Evolving Future . . . . . 159
  - 9.10.1 Meeting the HCEI Target Dates . . . . . 159
  - 9.10.2 External Factors . . . . . 160
  - 9.10.3 Toward a More Robust Planning System . . . . . 160
- References . . . . . 161
- Appendix A: Energy Agreement Among the State of Hawaii, Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, and Hawaiian Electric Companies . . . . . 163**
- Appendix B: HCEI Incentive Programs . . . . . 165**
- Appendix C: Summary of Strawman Document . . . . . 169**
- Index . . . . . 173**

Clean Energy from the Earth, Wind and Sun  
Learning from Hawaii's Search for a Renewable Energy  
Strategy

Pintz, W.S.; Morita, H.

2017, XX, 175 p. 13 illus. in color., Hardcover

ISBN: 978-3-319-48676-5
