## Contents

### Part I  Research on Curriculum Influence on Student Learning

1. **What Can We Learn from Textbook Analysis?**  
   Ji-Won Son and Jeri Diletti  
   Page 3

2. **Intended Treatment of Fractions and Fraction Operations in Mathematics Curricula from Japan, Korea, and Taiwan**  
   Tad Watanabe, Jane-Jane Lo, and Ji-Won Son  
   Page 33

3. **Comparing the Difficulty Level of Junior Secondary School Mathematics Textbooks in Five Nations**  
   Yiming Cao, Libao Wu, and Lianchun Dong  
   Page 63

4. **Uncovering the Label “Asian” in International Comparative Studies of Mathematics Education**  
   Yoshinori Shimizu  
   Page 83

5. **Achievement Gaps in Mathematics and Opportunities to Learn: Insights from PISA 2012**  
   Yan Zhu  
   Page 95

   Edward A. Silver  
   Page 115
Part II Research on Institutional System of Mathematics Teacher Education

7 Knowledge Expectations Matter: Mathematics Teacher Preparation Programs in South Korea and the United States
Rae Young Kim and Seung Hwan Ham

8 Pre-service Teacher Training for Secondary School Mathematics in Japan and Korea
Masataka Koyama and Hee-chan Lew

9 Predictors of the Teaching Readiness of Future Secondary Mathematics Teachers: A Comparison of Singapore, Taiwan, and the United States
Ting-Ying Wang and Feng-Jui Hsieh

10 Similarities and Differences in Programs for Prospective Secondary Mathematics Teachers
Jeremy Kilpatrick

Part III Research on Improving Teacher Knowledge and Pedagogical Approaches

11 Cross-Cultural Lesson Planning Between the United States and South Korea
Woong Lim and Ji-Won Son

12 The Instructional Quality of Mathematics Student Teachers in the United States and Japan: The Possible Impact of the Structure of Student Teaching
Douglas Lyman Corey, Keith R. Leatham, and Blake E. Peterson

13 Reflective Capabilities of Mathematics Education Systems in China, Japan, and the United States
Thomas E. Ricks

14 Research on Improving Teacher Knowledge and Pedagogical Approaches: From a Comparative to a Collaborative Perspective
Sandra Crespo

Part IV Cross-national Comparative Studies with Large-Scale Data

15 Self-Concept, Self-Efficacy, and Mathematics Achievement: Students in 65 Regions Including the US and Asia
Ming Ming Chiu

16 What Do TIMSS Studies Show About Math Achievement Inequality? A Sociological Perspective
Seong Won Han, Ji-Won Son, and Chungseo Kang
