

Contents

1	Introduction	1
1.1	Relational Data Mining	2
1.2	Granular Computing	3
1.3	Granular Computing Tools: Rough Set Theory	4
1.4	Mining Relational Data Using Granular Computing	5
 Part I Generalized Related Set Based Approach		
2	Information System for Relational Data	9
2.1	Introduction	9
2.2	Relational Data	10
2.3	Relational Information	12
2.4	Relational Knowledge	16
2.5	Conclusions	19
3	Properties of Granular-Relational Data Mining Framework	21
3.1	Introduction	21
3.2	Relational Objects Representation	22
3.3	Search Space Limitation	24
3.3.1	Syntactic Comparison of Abstract Objects Descriptions	24
3.3.2	Semantic Comparison of Abstract Objects Descriptions	26
3.4	Relational Patterns Generation	27
3.5	Conclusions	28
4	Association Discovery and Classification Rule Mining	29
4.1	Introduction	29
4.2	Association Discovery	30
4.3	Classification Rule Mining	33

4.4	The Approach's Complexity	35
4.5	Conclusions	38
5	Rough-Granular Computing.	39
5.1	Introduction	39
5.2	Rough-Granular Computing for Single Table Data.	40
5.3	Approximation Space for Relational Granules	42
5.4	Approximation Space for Generalized Relational Granules.	45
5.5	Conclusions	48
 Part II Description Language Based Approach		
6	Compound Information Systems	51
6.1	Introduction	51
6.2	Information Granules	52
6.3	Compound Information Systems.	53
6.4	Constrained Compound Information Systems.	58
6.5	Consistency and Completeness of Granule Description Languages.	61
6.6	Conclusions	63
7	From Granular-Data Mining Framework to Its Relational Version.	65
7.1	Introduction	65
7.2	Relational Extension of a Standard Data Mining Algorithm.	66
7.3	Granular Computing Based Relational Data Mining Framework	67
7.3.1	Construction of Conditions	68
7.3.2	Expression of Patterns.	71
7.3.3	From Granule-Based Patterns to Relational Patterns	75
7.3.4	Search Space Constraints	77
7.4	The Methodology's Complexity	78
7.5	Conclusions	81
8	Relation-Based Granules.	83
8.1	Introduction	83
8.2	Construction of Relation-Based Granules	84
8.2.1	Information System.	84
8.2.2	Compound Information System.	85
8.3	Relational Data and Patterns Represented by Relation-Based Granules	87
8.3.1	Relational Data Representation	87
8.3.2	Relational Patterns Representation.	88

- 8.4 The Approach's Complexity 92
 - 8.4.1 The Granular Approach's Complexity 93
 - 8.4.2 The Standard Approach's Complexity 96
- 8.5 Conclusions 97
- 9 Compound Approximation Spaces 99**
 - 9.1 Introduction 99
 - 9.2 Compound Approximation Spaces and Their Constrained Versions 100
 - 9.2.1 Compound Approximation Spaces 100
 - 9.2.2 Constrained Compound Approximation Spaces 104
 - 9.3 Knowledge Derived from Approximations of Compound Concepts 108
 - 9.3.1 Compound Concepts 108
 - 9.3.2 Restricted Compound Concepts 110
 - 9.4 Evaluation of the Approach 112
 - 9.5 Conclusions 114

Granular-Relational Data Mining
How to Mine Relational Data in the Paradigm of
Granular Computing?

Hoňko, P.

2017, XV, 123 p. 4 illus., Hardcover

ISBN: 978-3-319-52750-5
