

Contents

Part I Microorganisms in Tropical Environments

- 1 Diversity and Technological Aspects of Microorganisms from Semiarid Environments. 3**
Rodrigo Gouvêa Taketani, Vanessa Nessner Kavamura,
and Suikinai Nobre dos Santos
- 2 Why Study Endophytic Fungal Community Associated with Cacti Species? 21**
Jadson Diogo Pereira Bezerra, João Lucio de Azevedo,
and Cristina Maria Souza-Motta
- 3 Diversity and Biotechnological Potential of Endophytic Microorganisms Associated with Tropical Mangrove Forests 37**
Fernanda Luiza Souza Sebastianes, João Lucio de Azevedo,
and Paulo Teixeira Lacava
- 4 Endophytic Microorganisms of the Tropical Savannah: A Promising Source of Bioactive Molecules 57**
Cristina Paiva de Sousa, Nadja Fernanda Gonzaga Serrano,
and Paulo Teixeira Lacava
- 5 Overview on Biodiversity, Chemistry, and Biotechnological Potential of Microorganisms from the Brazilian Amazon. 71**
Jose Odair Pereira, Antonia Queiroz Lima de Souza,
Afonso Duarte Leão de Souza, Suzelei de Castro França,
and Luiz Antonio de Oliveira
- 6 Diversity and Prospection of South Atlantic Ocean Microorganisms. 105**
Marcus Adonai Castro da Silva and André Oliveira de Souza Lima

Part II Tropical Microorganisms and Biotechnological Applications	
7 Tropical Cyanobacteria and their Biotechnological Applications . . .	139
Janaina Rigonato, Danillo Oliveira Alvarenga, and Marli Fátima Fiore	
8 Induction of Cryptic Metabolite Production Through Epigenetic Tailoring in <i>Colletotrichum gloeosporioides</i> Isolated from <i>Syzygium cumini</i>	169
V. K. Sharma, J. Kumar, D. K. Singh, A. Mishra, S. K. Gond, S. K. Verma, A. Kumar, G. Singh, and R. N. Kharwar	
9 Secondary Metabolites of Endophyte Fungi: Techniques and Biotechnological Approaches	185
João Alencar Pamphile, Marcos Alessandro dos Santos Ribeiro, and Julio Cesar Polonio	
Part III Agricultural and Livestock Microorganisms in the Tropics	
10 Diversity and Function of Endophytic Microbial Community of Plants with Economical Potential	209
Diogo Neves Proença, Stefan Schwab, José Ivo Baldani, and Paula V. Morais	
11 Importance of Mycorrhizae in Tropical Soils.	245
Elke J. B. N. Cardoso, Marco A. Nogueira, and Waldemar Zangaro	
12 Diversity and Importance of Diazotrophic Bacteria to Agricultural Sustainability in the Tropics	269
Glaciela Kaschuk and Mariangela Hungria	
13 Describing the Unexplored Microorganisms Associated with Guarana: A Typical Tropical Plant.	293
Bruna Durante Batista, Jaqueline Raquel de Almeida, Thana Esashika Bezerra, João Lucio de Azevedo, and Maria Carolina Quecine	
14 Beneficial Microorganisms Associated with Sugarcane Crops: The Green Gold for Clean Energy	313
Aline Silva Romão-Dumaresq, Henrique Coutinho Junqueira Franco, Bernardo Melo Montes Nogueira Borges, Bruna Durante Batista, and Maria Carolina Quecine	
Part IV Microorganisms: Promises and Challenges	
15 Translating Endophyte Research to Applications: Prospects and Challenges	343
Trichur Subramanian Suryanarayanan, Venkat Gopalan, Ramanan Uma Shaanker, Anindita Sengupta, and Gudasalamani Ravikanth	

16 Ecological Aspects on Rumen Microbiome 367
Emiliana Manesco Romagnoli, Maria Carolina Pezzo Kmit,
Josiane Barros Chiamonte, Maike Rossmann, and Rodrigo Mendes

**17 Evolution of Yeast Selection for Fuel Ethanol:
Breaking Paradigms** 391
Henrique V. Amorim, Henrique Berbert de Amorim Neto, Mario Lucio
Lopes, and Silene Cristina de Lima Paulillo

**18 Genetically Modified Organisms in the Tropics:
Challenges and Perspectives** 403
Manuela Nobrega Dourado, Tiago Falda Leite,
Paulo Augusto Viana Barroso, and Welington Luiz Araújo

Index 431

Diversity and Benefits of Microorganisms from the
Tropics

de Azevedo, J.L.; Quecine, M.C. (Eds.)

2017, XVIII, 439 p. 56 illus., 42 illus. in color., Hardcover

ISBN: 978-3-319-55803-5
