

# Contents

## Part I Introduction

- 1 Arrestins: Discovery of the Family and Functional Role of Conformational Flexibility** . . . . . 3  
Vsevolod V. Gurevich and Eugenia V. Gurevich
- 2 Overview of Arrestin Mediated Signaling with Receptors and Non-receptor Binding Partners** . . . . . 19  
Ya Zhuo and Candice S. Klug

## Part II Localization of Functional Elements on Arrestins

- 3 Initial Crystallographic Studies of Visual Arrestin: Insights and Perspectives** . . . . . 33  
Joel A. Hirsch
- 4 Structural Basis for  $\beta$ -Arrestins in GPCR Trafficking** . . . . . 43  
Sungsoo M. Yoo, Dong Soo Kang and Jeffrey L. Benovic
- 5 Arrestin-3: The Structural Basis of Lower Receptor Selectivity** . . . . . 59  
Benjamin W. Spiller, Xuanzhi Zhan and Vsevolod V. Gurevich
- 6 Phosphate Sensor and Construction of Phosphorylation-Independent Arrestins** . . . . . 69  
Reuven Wiener, Sergey A. Vishnivetskiy, Vsevolod V. Gurevich and Joel A. Hirsch
- 7 Comprehensive Analysis of the Role of Arrestin Residues in Receptor Binding** . . . . . 83  
Raphael S. Haider, Aurélien Rizk, Gebhard F.X. Schertler and Martin K. Ostermaier

<b>8</b>	<b>How Arrestin Recognizes and Binds Active GPCRs</b> . . . . .	103
	Martha E. Sommer	
<b>9</b>	<b>Localization of Conformational Dynamics of Arrestins by HDX-MS</b> . . . . .	119
	Ji Young Park, Hee Ryung Kim and Ka Young Chung	
<b>10</b>	<b>GPCR Footprint on Arrestins and Manipulation of Receptor Specificity</b> . . . . .	133
	Sergey A. Vishnivetskiy, Wayne L. Hubbell, Candice S. Klug and Vsevolod V. Gurevich	
<b>Part III Arrestin Flexibility and Activation</b>		
<b>11</b>	<b>The Structure of the Polar Core Mutant R175E and Its Functional Implications</b> . . . . .	143
	Renu Batra-Safferling and Joachim Granzin	
<b>12</b>	<b>Active Conformations of Arrestins: Expected and Unexpected Changes</b> . . . . .	159
	Abhishek Bandyopadhyay, Ya Zhuo, Wayne L. Hubbell, Candice S. Klug, Vsevolod V. Gurevich and Oliver P. Ernst	
<b>13</b>	<b>The Arrestin-Receptor Complex: Exciting Answers and New Questions</b> . . . . .	175
	Yanyong Kang, Karsten Melcher, Vsevolod V. Gurevich and H. Eric Xu	
<b>Part IV Arrestin-Mediated Signaling and Biased Mutants</b>		
<b>14</b>	<b>Scaffolding c-Jun N-Terminal Kinase Cascades: Mechanistic Insights from the Reconstituted Arrestin-JNK Cascades</b> . . . . .	187
	Xuanzhi Zhan, Vsevolod V. Gurevich and Eugenia V. Gurevich	
<b>15</b>	<b>Arrestin-Dependent ERK Activation and Its Disruption</b> . . . . .	199
	Louis M. Luttrell and Benjamin W. Spiller	
<b>16</b>	<b>The Functional Role of the Conformational Changes in Arrestin Upon Activation</b> . . . . .	219
	Zhao Yang, Fan Yang, Anthony Nguen, Chuan Liu, Amy Lin, Thomas Joseph Cahill III and Jin-Peng Sun	
<b>17</b>	<b>Is Signaling Specificity Encoded in Arrestin Conformation?</b> . . . . .	235
	Carsten Hoffmann, Martin J. Lohse and Louis M. Luttrell	

<b>18 Monofunctional Elements of Multi-functional Proteins</b> . . . . .	255
Nicole A. Perry, Xuanzhi Zhan, T.M. Iverson, Eugenia V. Gurevich and Vsevolod V. Gurevich	
<b>19 Arrestins in Cell Death</b> . . . . .	273
Sandra Berndt, Vsevolod V. Gurevich and Eugenia V. Gurevich

The Structural Basis of Arrestin Functions

Gurevich, V.V. (Ed.)

2017, IX, 304 p. 53 illus., 51 illus. in color., Hardcover

ISBN: 978-3-319-57552-0
