

# Contents

<b>Introduction</b> . . . . .	1
1 Results Towards the Proof of the Ternary Goldbach Conjecture (TGC) . . . . .	2
2 Results Towards a Proof of the Binary Goldbach Conjecture (BGC) . . . . .	3
<b>Step-by-Step Proof of Vinogradov’s Theorem</b> . . . . .	7
1 Introductory Lemmas and Theorems. . . . .	7
2 The Circle Method. . . . .	31
3 Proof of Vinogradov’s Theorem. . . . .	33
3.1 The Contribution of the Major Arcs . . . . .	36
3.2 The Contribution of the Minor Arcs . . . . .	48
3.3 Putting It All Together . . . . .	63
<b>The Ternary Goldbach Problem with a Prime and Two Isolated Primes</b> . . . . .	67
1 Introduction. . . . .	69
2 Construction of the Isolated Residue Class . . . . .	69
3 The Circle Method. . . . .	77
4 Conclusion . . . . .	86
<b>Basic Steps of the Proof of Schnirelmann’s Theorem.</b> . . . . .	87
<b>Appendix</b> . . . . .	99
<b>For Further Reading</b> . . . . .	113
<b>Bibliography</b> . . . . .	117
<b>Index</b> . . . . .	121
