Contents

Part I Strategy and Enterpreneurship

Innovative Spillovers and Efficiency in the Brazilian Industry .......... 3
B.D. Yamashita, H.F. Moralles, N.B. Santana and D.A.N. Rebelatto

Supply Chain Sustainability in Spanish Major Retailer Through Strategic Alliances and Lean Practices ......................... 11
Jesús Morcillo-Bellido and Alfonso Duran

Flávio Bressan

Components to Construct a Business Model Innovation Under a Product-Service System Approach in the Aerospace Industry Through Analytical Hierarchy Process ........................................... 29
Maria Fernanda Barbato Salomon, Carlos Henrique Pereira Mello, Eduardo Gomes Salgado and Mauricio Bitencourt

Depicting Big Data: Producing a Technological Profile ................. 39
Iñaki Bildosola, Rosa Rio-Bélver, Ernesto Cilleruelo and Gaizka Garechana

Management, Innovation Capacity and Fear of Failure in a Sample of Spanish Firms .................................................. 49
Antonio López Ramos, Carlos Rodriguez-Monroy and Félix Calvo-García

Sustainability Assessment of Environmentally Conscious Manufacturing Companies ................................................... 59
S. Ozmehmet Tasan, B. Felekoglu and E. Ozmehmet

Application of Innovation Management Techniques in SMEs: A Process Based Method .............................................. 67
J.I. Igartua and L. Markuerkiaga
Assessing an Incubator Model in a Technological Centre: The Importance of the Spin-Off’s Origin
Antonio González and Mikel Arcelus

Part II Operations Research, Modelling and Simulation

A Novel Project Selection Scheduling Model
H. Amirian and Rashed Sahraeian

Resolving Product Configuration Conflicts
Vladimir Modrak, Slavomir Bednar and Zuzana Soltysova

Forecasting Dynamics of Daily Commuting to Work to Other Municipality in the Case of Changing Taxation Policies
P. Janež, S. Drobne and M. Bogataj

Public-Private Partnerships for Trade Facilitation: A Theoretical Model
M.L. de Campos, C. Morini, G.H.S.M. de Moraes and E. Inácio Jr

Capacitated Lot-Sizing and Scheduling Problem for Second-Tier Suppliers in the Automotive Sector
M. Diaz-Madroñero, J. Mula, B. Andres, R. Poler and S. Sanchis

A Generic Decision Support Tool for Lot-Sizing and Scheduling Problems with Setup and Due Dates
Cristovao Silva, Nathalie Klement and Olivier Gibaru

Part III Logistics

Application-Oriented Optimization of Internal Milk-Run Systems
Andreas Martini, Tobias Mauksch and Ulrich Stache

Analysing the Fit Between Innovation Strategies and Supply Chain Strategies
Ricardo Augusto Zimmermann, Luís Miguel Domingues Fernandes Ferreira and António Carrizo Moreira

On the Impact of Undershoots at Order Point in the Fill Rate Estimation in Continuous Review Policies for the Lost Sales Case
E. Guijarro, E. Babiloni and M. Cardós

The Importance of Measurement Systems in the Search for Suitable Packaging Options
Jesús García-Arca, A.T. González-Portela Garrido and J.C. Prado-Prado

How to Do Road Transport More Sustainable? A Literature Review
P. Domínguez-Camaño, B. Olmedo, M. Rodríguez-García and J.C Prado-Prado

Part VI Knowledge and Project Management

Definition of a Project Performance Indicators Model: Contribution of Collaborative Engineering Practices on Project Management ........ 289
Marcelo Silva Pereira and Rui M. Lima

The Characteristics of Workers as Mediators in Knowledge Sharing Within a Company ..................................................... 297
Lourdes Sáiz-Bárzena, José Ignacio Diez, Miguel Ángel Manzanedo and Ricardo del Olmo

Project Management Success Factors in Basque Companies .......... 305
N. Zabaleta, M. Ruiz and U. Elorza

Integration of Constructability and Project Risk Management ........ 313
L. Farina, E. Danesi, A. Travaglini, Mauro Mancini and P. Trucco

Part VII Service Systems

Sustainability Leveraged by Energy Service Projects (ESCO) in Spain: Analysis 2010–14 ....................................................... 325
Jesús Morcillo-Bellido, Bernardo Prida-Romero and Javier Martínez-Belotto

Part VIII Industry 4.0

Pushing the Limits of Lean Thinking–Design and Management of Complex Production Systems ........................................... 335
Jochen Deuse, Christoph Heuser, Benedikt Konrad, David Lenze, Thomas Maschek, Mario Wiegand and Peter Willats

Industry 4.0: A Classification Scheme ........................................ 343
David Pérez Perales, Faustino Alarcón Valero and Andrés Boza García

Framework for a New Wave of IT-Enabled Business Process Transformations ............................................................. 351
Miguel Gutierrez and Francisco Sastron

Part IX Education

Development of a Lean Assessment Tool for Small and Medium Sized-Enterprises .......................................................... 361
Amine Belhadi, Fatima Ezzahra Touriki and Said El fezazi

Project-Based Learning as a Bridge to the Industrial Practice .......... 371
Rui M. Lima, José Dinis-Carvalho, Rui Sousa, Pedro Arezes and Diana Mesquita
Wiki as an Activity Learning .......................... 381
Pilar Isabel Vidal-Carreras, Jose Pedro Garcia-Sabater,
Julio Juan Garcia-Sabater and Maria Rosario Perello-Marin

Author Index .................................................. 389
Closing the Gap Between Practice and Research in Industrial Engineering
Viles, E.; Ormazábal, M.; Lleó, A. (Eds.)
2018, XIII, 390 p. 60 illus., 35 illus. in color., Hardcover
ISBN: 978-3-319-58408-9
