Human Factors in Security

The Design of Messages to Improve Cybersecurity Incident Reporting	3
<i>Pam Briggs, Debora Jeske, and Lynne Coventry</i>	
Overcoming Fear of the Threat Model	14
<i>Scott Cadzow</i>	
“No Good Reason to Remove Features”: Expert Users Value Useful Apps over Secure Ones	25
<i>Steve Dodier-Lazaro, Ingolf Becker, Jens Krinke, and M. Angela Sasse</i>	
Mobile Online Proficiency and Mobile Internet Use - Findings from Finland	45
<i>Titiana Ertiö and Pekka Räsänen</i>	
Usability in Solutions of Secure Email – A Tools Review	57
<i>Lucas Ferreira and Junia Anacleto</i>	
A User-Centered Model for Usable Security and Privacy	74
<i>Denis Feth, Andreas Maier, and Svenja Polst</i>	
Information Security, Privacy, and Trust in Social Robotic Assistants for Older Adults	90
<i>Thomas Given-Wilson, Axel Legay, and Sean Sedwards</i>	
Android App Permission and Users’ Adoption: A Case Study of Mental Health Application	110
<i>Hsiao-Ying Huang and Masooda Bashir</i>	
“If It’s Urgent or It Is Stopping Me from Doing Something, Then I Might Just Go Straight at It”: A Study into Home Data Security Decisions	123
<i>Norbert Nthala and Ivan Flechais</i>	
Assessing the Impact of Affective Feedback on End-User Security Awareness	143
<i>Lynsay A. Shepherd, Jacqueline Archibald, and Robert Ian Ferguson</i>	
A Generic Cognitive Dimensions Questionnaire to Evaluate the Usability of Security APIs	160
<i>Chamila Wijayarathna, Nalin A.G. Arachchilage, and Jill Slay</i>	

Managing User Experience: Usability and Security in a New Era
of Software Supremacy 174
Panagiotis Zagouras, Christos Kalloniatis, and Stefanos Gritzalis

Usable Authentication

PSV (Password Security Visualizer): From Password Checking
to User Education 191
Nouf Aljaffan, Haiyue Yuan, and Shujun Li

Dear Password, I Know You Too Well: A Congenial Call
for Ubiquitous Authentication. 212
Frans F. Blauw

Keystroke Inference Using Smartphone Kinematics 226
Oliver Buckley, Duncan Hodges, Melissa Hadgkiss, and Sarah Morris

Live Gaze-Based Authentication and Gaming System 239
*Quan Wang, Lelai Deng, Hao Cheng, Hualei Fan, Xiaoping Du,
and Qinghong Yang*

When Eye-Tracking Meets Cognitive Modeling: Applications to Cyber
Security Systems. 251
Haiyue Yuan, Shujun Li, Patrice Rusconi, and Nouf Aljaffan

“If It Wasn’t Secure, They Would Not Use It in the Movies” – Security
Perceptions and User Acceptance of Authentication Technologies 265
Verena Zimmermann and Nina Gerber

Security in Organizations and Infrastructures

Identifying Changes in the Cybersecurity Threat Landscape
Using the LDA-Web Topic Modelling Data Search Engine 287
Noura Al Moubayed, David Wall, and A. Stephen McGough

Secure Peripherals in a Converged Mobile Environment 296
Jaco du Toit and Ian Ellefsen

System Dynamics Approach to Malicious Insider Cyber-Threat Modelling
and Analysis. 309
*Tesleem Fagade, Theo Spyridopoulos, Nabeel Albishry,
and Theo Tryfonas*

Developing Usable Interface for Internet of Things (IoT) Security
Analysis Software 322
Seokjun Hong, Youngsun Kim, and Gerard J. Kim

Visualization Technologies of Information Security Support System Using Haptic Devices 329
Manabu Ishihara and Taiki Kanayama

Formal Modeling and Analysis with Humans in Infrastructures for IoT Health Care Systems 339
Florian Kammüller

Sharing or Non-sharing Credentials: A Study of What Motivates People to Be Malicious Insiders 353
Koichi Niihara, Michihiro Yamada, and Hiroaki Kikuchi

An Assessment of the Security and Transparency Procedural Components of the Estonian Internet Voting System 366
Jason R.C. Nurse, Ioannis Agraftotis, Arnau Erola, Maria Bada, Taylor Roberts, Meredydd Williams, Michael Goldsmith, and Sadie Creese

Application of Work Domain Analysis for Cybersecurity 384
Hao Wang, Nathan Lau, and Ryan Gerdes

Using Human Factor Approaches to an Organisation’s Bring Your Own Device Scheme 396
Jodie Ward, Huseyin Dogan, Edward Apeh, Alexios Mylonas, and Vasilios Katos

A Case Study: Heartbleed Vulnerability Management and Swedish Municipalities 414
Shao-Fang Wen and Stewart Kowalski

Usable Security Management for Network Access Rules of Critical Infrastructure 432
Jeong-Han Yun, Seungoh Choi, Woonyon Kim, Hwasun Kang, and Sung-Woo Kim

Cyber Security Policies

Are the Current System Engineering Practices Sufficient to Meet Cyber Crime? 451
Ahto Buldas and Märt Saarepera

Walking the Line: The Everyday Security Ties that Bind 464
Lizzie Coles-Kemp and René Rydhof Hansen

Radicalization, the Internet and Cybersecurity: Opportunities and Challenges for HCI 481
Joanne Hinds and Adam Joinson

Its Not All About the Money: Self-efficacy and Motivation in Defensive and Offensive Cyber Security Professionals	494
<i>Duncan Hodges and Oliver Buckley</i>	
Behavioural Profiling in Cyber-Social Systems	507
<i>Jason Perno and Christian W. Probst</i>	
The Impact of Changing Technology on International Cybersecurity Curricula	518
<i>Huw Read, Iain Sutherland, Konstantinos Xynos, Tom Drange, and Ernst Sundt</i>	
Towards a Conceptualisation of Cloud (Cyber) Crime	529
<i>David S. Wall</i>	
How Might Crime-Scripts Be Used to Support the Understanding and Policing of Cloud Crime?	539
<i>Steve Warren, Gavin Oxburgh, Pam Briggs, and David Wall</i>	
Modelling Trust and Trust-Building Among IT-Security Professionals: How Do Practitioners Find Out Whom to Work With?	557
<i>Laurin B. Weissinger</i>	
Law Infringements in Social Live Streaming Services	567
<i>Franziska Zimmer, Kaja J. Fietkiewicz, and Wolfgang G. Stock</i>	
HCI and Privacy Issues	
Privacy Decision-Making in the Digital Era: A Game Theoretic Review	589
<i>Kallia Anastasopoulou, Spyros Kokolakis, and Panagiotis Andriotis</i>	
A Comparative Study of Android Users' Privacy Preferences Under the Runtime Permission Model	604
<i>Panagiotis Andriotis, Shancang Li, Theodoros Spyridopoulos, and Gianluca Stringhini</i>	
Communicability Evaluation of Privacy Settings on Facebook for Android. . .	623
<i>Beatriz Brito do Rêgo, Ingrid Teixeira Monteiro, and Andréia Libório Sampaio</i>	
Sharing the 'Real Me' – How Usage Motivation and Personality Relate to Privacy Protection Behavior on Facebook.	640
<i>Nina Gerber, Paul Gerber, and Maria Hernando</i>	
Exploring Consumers' Attitudes of Smart TV Related Privacy Risks	656
<i>Marco Ghiglieri, Melanie Volkamer, and Karen Renaud</i>	

Sharing Information with Web Services – A Mental Model Approach
in the Context of Optional Information 675
*Oksana Kulyk, Benjamin Maximilian Reinheimer,
and Melanie Volkamer*

Integrating a Practice Perspective to Privacy by Design 691
*Christopher Lentzsch, Kai-Uwe Loser, Martin Degeling,
and Alexander Nolte*

Detection and Auto-protection of Cache File Privacy Leakage for Mobile
Social Networking Applications in Android 703
Hui Li, Wenling Liu, Bin Wang, and Wen Zhang

A Privacy-Driven Data Management Model for Smart Personal Assistants . . . 722
*Danilo M. Nogueira, Cristiano Maciel, José Viterbo,
and Daniel Vecchiato*

Designing Privacy for You: A Practical Approach for User-Centric Privacy . . . 739
Awanthika Senarath, Nalin A.G. Arachchilage, and Jill Slay

Author Index 753
