Contents – Part I

Human-Centred Design in Information Systems

Advanced Nuclear Interface Modeling Environment (ANIME): A Tool for Developing Human-Computer Interfaces for Experimental Process Control Systems .................................................. 3
  Ronald Boring, Roger Lew, and Thomas Ulrich

How Can Emails from Different Types of Leaders Influence Employees? . . . 16
  Eric Brangier and Laura Dovero

Discuss Attractive Factor of E-Scooter with Miryoku Engineering and Fuzzy Kano Model ................................................................. 27
  Jianxin Cheng, Yixiang Wu, and Le Xi

The Relevance of Failure to Ensure Safety in Human-Robot Cooperation in Work Environments .............................................................. 37
  Diego Compagna

Enhancing IS User Empowerment and Problem-Solving Behavior Through Training and Prompting .......................................................... 47
  Brenda Eschenbrenner

Virtual World Versus Real World: An Economic Study of the Cyber Games Participation ................................................................. 58
  Qingliang Fan, Xin Fu, and Shun Cai

Challenges in Research Generalizability: The Need for Standardization of Performance Metrics and Methodology ........................................ 78
  Kathryn A. Feltman, Kyle A. Bernhardt, and Amanda M. Kelley

The Adoption of Physiological Measures as an Evaluation Tool in UX . . . . 90
  Vanessa Georges, François Courttemanche, Sylvain Sénécal, Pierre-Majorique Léger, Lennart Nacke, and Romain Pourchon

Project Management Implications and Implementation Roadmap of Human Readiness Levels .......................................................... 99
  Victoria Newton, Alexander Greenberg, and Judi See

Context-Awareness and Mobile HCI: Implications, Challenges and Opportunities ................................................................. 112
  Xiangang Qin, Chee-Wee Tan, and Torkil Clemmensen
Consumer Involvement in NPD Different Stages .......................... 128
   Yanmin Xue and Menghui Huang

**Information Systems in Healthcare, Learning, Cultural Heritage and Government**

Communication in Co-innovation Networks: A Moderated Mediation
Model of Social Affordances, Social Experience, and Desire for Learning . . . 139
   Kaveh Abhari, Bo Xiao, and Elizabeth Davidson

Implementing Digital Parliament Innovative Concepts for Citizens
and Policy Makers .......................................................... 154
   Fotios Fitsilis, Dimitris Koryzis, Vasilios Svolopoulos,
   and Dimitris Spiliotopoulos

An Analysis for Difficult Tasks in e-Learning Course Design ...................... 171
   Ling-Ling Lai and Shu-Ying Lin

Explore the Business Model of MOOCs .................................... 181
   Yuan Long

Mobile Web Strategy for Cultural Heritage Tourism:
A Study on Italian Opera Houses ........................................... 194
   Luisa Mich and Roberto Peretta

Improving Healthcare with Wearables: Overcoming the Barriers
to Adoption ............................................................... 209
   Ksenia Sergueeva and Norman Shaw

Are you Willing to see Doctors on Mobile Devices? A Content Analysis
of User Reviews of Virtual Consultation Apps .............................. 224
   Vania Yuxi Shi, Sherrie Komiak, and Paul Komiak

Factors Influencing Acceptance and Continued Use of mHealth Apps .......... 239
   Hanna O. Woldeyohannes and Ojelanki K. Ngwenyama

Embedding the Social Features into E-learning System: A Review ............ 257
   Yingying Ying, Qiqi Jiang, and Hongwei Wang

Learning as Adventure: An App Designed with Gamification Elements
to Facilitate Language Learning ........................................... 266
   Leijing Zhou, Jie Yu, Chun’an Liao, and Yan Shi
Novel Interaction Devices and Techniques

Towards Accepted Smart Interactive Textiles: The Interdisciplinary Project INTUITEX .................................................. 279
Philipp Brauner, Julia van Heek, Anne Kathrin Schaar, Martina Ziefe,
Nur Al-huda Hamdan, Lukas Ossmann, Florian Heller, Jan Borchers,
Klaus Scheulen, Thomas Gries, Hannah Kraft, Hannes Fromm,
Marina Franke, Christian Wentz, Manfred Wagner, Manuel Dicke,
Christian Möllering, and Franz Adenau

Smartglasses Used by Forklift Operators: Digital Accident Hazard or Efficient Work Equipment? A Pilot Study ................. 299
Michael Bretschneider-Hagemes and Benno Gross

Finger Extension and Flexion: How Does the Trackpad Orientation Influence Product Evaluation in Social Media? ............. 308
Wei Cui and Deliang Wang

Evaluation of the Usage of Support Vector Machines for People Detection for a Collision Warning System on a Forklift .............. 322
Armin Lang and Willibald A. Günstner

A Comparison of Attention Estimation Techniques in a Public Display Scenario ................................................................. 338
Wolfgang Narzt

Is Augmented Reality Leading to More Risky Behaviors? An Experiment with Pokémon Go ..................................................... 354
Romain Pouchon, Pierre-Majorique Léger, Élise Labonté-LeMoyne,
Sylvain Sénécal, François Bellavance, Marc Fredette,
and François Courtemanche

Usage and Physiological Effects of Dynamic Office Workstations - A Field Pilot Study ............................................................. 362
Vera Schellewald, Jens Kleinert, and Rolf Ellegast

Driving Under Voluntary and Involuntary Distraction: An Empirical Study of Compensatory Behaviors ................................. 374
Yuhan Shi and Ronggang Zhou

Cognitive Load by Context-Sensitive Information Provision Using Binocular Smart Glasses in an Industrial Setting .................. 387
Jan Terhoeven and Sascha Wischniewski

Modifications of Driver Attention Post-distraction: A Detection Response Task Study .............................................................. 400
Oliver M. Winzer, Antonia S. Conti, Cristina Olaverri-Monreal, and Klaus Bengler

Author Index ............................................................................................................. 411
Contents – Part II

E-Commerce and Consumer Behaviour

Sophie Altrock and Ayong Suh

Employing Relation Visualizations to Enhance the Shopping Experience on a Used Car Trading Platform ......................................................... 16
Jianxin Chen, Dongqing Zhang, Yingjie Victor Chen, and Zhenyu Cheryl Qian

Arousal or Not? The Effects of Scarcity Messages on Online Impulsive Purchase ................................................................. 29
Junpeng Guo, Liwei Xin, and Yi Wu

Gamification in E-Commerce: A Survey Based on the Octalysis Framework ................................................................. 41
Jovana Karač and Martin Stabauer

Priming and Context Effects of Banner Ads on Consumer Based Brand Equity: A Pilot Study ................................................................. 55
Harald Kindermann

Consumers’ Trust in Price-Forecasting Recommendation Agents ................................................................. 71
Eran Rubin, Young Anna Argyris, and Izak Benbasat

Mobile Shopping Should be Useful, Convenient and Fun! ................................................................. 81
Norman Shaw and Ksenia Sergueeva

Effect of Timing and Source of Online Product Recommendations: An Eye-Tracking Study ................................................................. 95
Yani Shi, Qing Zeng, Fiona Fui-Hoon Nah, Chuan-Hoo Tan, Choon Ling Sia, Keng Siau, and Jiaqi Yan

Optimize the Coupon Face Value for Online Sellers ................................................................. 105
Peng Wang, Rong Du, Yumeng Miao, and Zongming Zhang

Acceptance of Personalization in Omnichannel Retailing ................................................................. 114
Werner Wetzlinger, Andreas Auinger, Harald Kindermann, and Wolfgang Schönberger

Review-Based Screening Interface for Improving Users’ Decision Process in E-commerce ................................................................. 130
Dongning Yan and Li Chen
Eye-Tracking Analysis of Gender-Specific Online Information Research and Buying Behavior. ................................................................. 143
   Silvia Zaharia, Daniela Kauke, and Ella Hartung

Social Media for Business

The Effects of Online Review Message Appeal and Online Review Source Across Two Product Types on Review Credibility, Product Attitude, and Purchase Intention. ................................................................. 163
   Ardion Beldad, Fitria Avicenna, and Sjoerd de Vries

Participation in Collaborative Consumption - A Value Co-creation Perspective. ................................................................. 174
   Shun Cai, Chee Wei Phang, Xiao Pang, and Yicheng Zhang

How to Get Endorsements? Predicting Facebook Likes Using Post Content and User Engagement. ................................................................. 190
   Wei-Fan Chen, Yi-Pei Chen, and Lun-Wei Ku

Dueling for Trust in the Online Fantasy Sports Industry: Fame, Fortune, and Pride for the Winners. ................................................................. 203
   Craig C. Claybaugh, Peter Haried, Langtao Chen, and Nathan Twyman

Internet Use and Happiness: A Longitudinal Analysis. ................................................................. 213
   Richard H. Hall

A Theoretical Model of Incorporating Gamification Design into On-line Marketing. ................................................................. 223
   Hsiu Ching Laura Hsieh and Chiao Yu Hwang

Extracting Important Knowledge from Multiple Markets Using Transfer Learning. ................................................................. 234
   Tokuhiro Kujiraoka, Fumiaki Saitoh, and Syohei Ishizu

Numbers Speak Where Words Fail: Exploring the Effect of Online Consumer Reviews on Consumer Decision Making. ................................................................. 246
   Fei Liu

Social Presence and Dishonesty: Perceptions from Security Guards. ................................................................. 264
   Susan Siebenaler, Andrea Szymkowiak, Paul Robertson, Graham Johnson, and Jan Law

The Duality of Envy in Online Social Information Consumption: An Exploratory Study. ................................................................. 282
   Yi Wu, Ben C.F. Choi, and Annie Tran
Context Sensitive Digital Marketing - A Conceptual Framework
Based on the Service Dominant Logic Approach. ................................. 298
Konrad Zerr, Rudolf Albert, and Anja Forster

Encouraging the Participation in Mobile Collaborative Consumption Using
Gamification Design ............................................................ 313
Yicheng Zhang, Chee Wei Phang, Shun Cai, and Chenghong Zhang

Analytics, Visualization and Decision Support

Development of an Online Checklist for the Assessment of Alarm Systems
and Alarm Management in Process Control ............................... 325
Martina Bockelmann, Peter Nickel, and Friedhelm Nachreiner

How Correct and Defect Decision Support Systems Influence Trust,
Compliance, and Performance in Supply Chain and Quality Management:
A Behavioral Study Using Business Simulation Games ................. 333
Philipp Brauner, André Calero Valdez, Ralf Philipsen,
and Martina Zieflé

Impact of Mobile IT Consumerization on Organizations – An Empirical
Study on the Adoption of BYOD Practices ............................. 349
Christian Meske, Stefan Stieglitz, Tobias Brockmann, and Björn Ross

A Review on Neuropsychophysiological Correlates of Flow ............ 364
Fiona Fui-Hoon Nah, Tejaswini Yelamanchili, and Keng Siau

Information Visualizations Used to Avoid the Problem of Overfitting
in Supervised Machine Learning ............................................. 373
Robbie T. Nakatsu

Evaluation of Total Quality Management Using CSR Company Reports . . . 386
Shu Ochikubo, Fumiaki Saitoh, and Syohei Ishizu

Contract Visualisation: Sketches for Generic Interfaces .................. 400
Lei Shi and Daniela Alina Plewe

Understanding Color Risk Appropriateness: Influence of Color on a User’s
Decision to Comply with the IT Security Policy—Evidence from the U.S.
and India ................................................................. 412
Mario Silic, Mato Njavor, and Goran Oblakovic

Not All Books in the User Profile Are Created Equal: Measuring the
Preference “Representativeness” of Books in aNobii Online Bookshelves . . . 424
Muh-Chyun Tang, Tzu-Kun Hsiao, and I-An Ou
A Transaction Cost Equilibrium Analysis on Overlap Between Emergency Response Task Groups ........................................ Yun-feng Wang 434

Analyzing Load Profiles of Electricity Consumption by a Time Series Data Mining Framework ........................................ I-Chin Wu, Tzu-Li Chen, Yen-Ming Chen, Tzu-Chi Liu, and Yi-An Chen 443

Author Index ................................................................. 455
HCI in Business, Government and Organizations.
Interacting with Information Systems
4th International Conference, HCIBGO 2017, Held as
Part of HCI International 2017, Vancouver, BC, Canada,
July 9-14, 2017, Proceedings, Part I
Nah, F.; Tan, C.H. (Eds.)
2017, XXII, 413 p. 86 illus., Softcover
ISBN: 978-3-319-58480-5
