Creations of Meaning and Negotiations of Identity ......................................... 25
  Barbara Ratzenböck

Privacy, Data Security, and the Acceptance of AAL-Systems –
A User-Specific Perspective ............................................................................. 38
  Julia van Heek, Simon Himmel, and Martina Zieflé

Domestic Robots for Homecare: A Technology Acceptance Perspective........ 57
  Martina Zieflé and André Calero Valdez

User-Centred Design for the Elderly

Co-creation Methods: Informing Technology Solutions for Older Adults .......... 77
  Lupin Battersby, Mei Lan Fang, Sarah L. Canham, Judith Sixsmith,
  Sylvain Moreno, and Andrew Sixsmith

Addressing Issues of Need, Adaptability, User Acceptability and Ethics
in the Participatory Design of New Technology Enabling Wellness,
Independence and Dignity for Seniors Living in Residential Homes .......... 90
  Joan Cahill, Sean McLoughlin, Michael O’Connor, Melissa Stolberg,
  and Sean Wetherall

Towards Accessible Automatically Generated Interfaces Part 2:
Study with Model-Based Self-voicing Interfaces ........................................... 110
  J. Bern Jordan and Gregg C. Vanderheiden

Towards Accessible Automatically Generated Interfaces Part 1: An Input
Model that Bridges the Needs of Users and Product Functionality ............... 129
  J. Bern Jordan and Gregg C. Vanderheiden
Representing Meaning in User Experience by Visualizing Empirical Data... 147
Eui Chul Jung and Eun Jeong Kim

A Study on Interactive Explanation Boards Design and Evaluation for Active Aging Ecotourism ............................. 160
Li-Shu Lu

A Pyramid Model of Inclusive Design to Get Outdoors for China’s Ageing People ..................................................... 173
Guoying Lu and Ting Zhang

Using Care Professionals as Proxies in the Design Process of Welfare Technology – Perspectives from Municipality Care ........................................... 184
Marie Sjölinder, Isabella Scandurra, Anneli Avataré Nou, and Ella Kolkowska

Technology Experience Café—Enabling Technology–Driven Social Innovation for an Ageing Society .......................................................... 199
Johannes Tröger, João Mariano, Sibila Marques, Joana Mendonça, Andrey Girenko, Jan Alexandersson, Bernard Stree, Michele Lamanna, Maurizio Lorenzatto, Louise Pierrle Mikkelsen, and Uffe Bundgård-Jørgensen

Research on Age-Adaptive Design of Information Interaction Based on Physiological Characteristics of the Aged ...................... 211
Ming Zhou and Yajun Li

**Product Design for the Elderly**

Study on PSD Model with FAHP Method in the Product Design for Older Adults ......................................................... 223
Yongyan Guo and Minggang Yang

User Experience Design Research of New Types of Home Appliances Based on the Analysis of the Learning Curve of the Elderly ......................... 233
Bin Jiang, Lili Tian, and Di Zhou

Analysis and Study on the Furniture Used by the Aging Population Based on the Quality of Sleep ............................................. 244
Bin Jiang, Hui Niu, and Di Zhou

A Sensory Emotion Data System for Designing Information Appliances ........ 255
Yan Jin, Long Xu, and Sangwon Lee

Users’ Affective Response to Furniture Design Based on Public Openness... 264
Yein Jo, Jeebin Yim, Hyeonsu Park, and Younah Kang
Contents – Part I

Emotions in Material Surfaces for Product Design .................................. 275
  Donghwan Kim, Yun Jae Lee, Jiwon Kim, Hyerin Park, Min Hee Shin,
  Ji Hyun Lim, Choeun Kim, Taezoon Park, and Wonil Hwang

Study on the Product Packaging Color Identification of Elder Men
and Elder Women .............................................................. 284
  Jiajie Lyu and Delai Men

Research on the Design of Smart Pension Product Modeling Based
on Brand Image ............................................................. 304
  Xinxin Zhang, Minggang Yang, and Yan Zhou

Aging and User Experience

Acoustical Evaluation of Soundscape in Urban Spaces Along
Traffic Corridor ............................................................... 319
  Wei Lin, Wei-Hwa Chiang, Hsuan Lin, and Yi-Run Chen

Elderly Using Innovative Gesture Design of Satisfaction Performance ...... 330
  Shuo Fang Liu and Ming Hong Wang

A Study of Usability on Internet Map Website .................................... 339
  Kuang-Chih Lo and Wang-Chin Tsai

How to Enhance Intergenerational Communication? The Influence
of Family Orientation and Generation When Using Social Robots
as an Intermediary ............................................................ 348
  Fan Mo, Jia Zhou, and Shuping Yi

Factors in Fraudulent Emails that Deceive Elderly People ....................... 360
  Jean-Robert Nino, Gustav Enström, and Alan R. Davidson

Silent Speech Interaction for Ambient Assisted Living Scenarios ............... 369
  António Teixeira, Nuno Vitor, João Freitas, and Samuel Silva

A Pilot Interface Evaluation Combined with Three-Dimensional
Holography Concept for the Older Adults .................................... 388
  Wang-Chin Tsai, Cheng-Min Tsai, Hui-Jiun Hu, and Kuang-Chih Lo

Personalized Computer Access for People with Severe Motor Disabilities:
AsTeRICS, FlipMouse and the Two-Level Personalization Software
Engineering Method .......................................................... 397
  Chris Veigl, Martin Deinhoffer, Benjamin Aigner,
  and Klaus Miesenberger
Digital Literacy and Training

The Positive and Negative Impact of an Intergenerational Digital Technology Education Programme on Younger People’s Perceptions of Older Adults. ................................................................. 419
   Lisbeth Drury, Ania Bobrowicz, Lindsey Cameron, and Dominic Abrams

Playful Method for Seniors to Embrace Information Technology .......... 429
   Jeanette Eriksson

   Kelly S. Steelman, Kay L. Tislar, Leo C. Ureel II, and Charles Wallace

Gamification on Senior Citizen’s Information Technology Learning: The Mediator Role of Intrinsic Motivation ........................................... 461
   Kai Sun, Lingyun Qiu, and Meiyan Zuo

The Study of Teaching the Smartphone Using in Taiwan’s Elderly Population—A Case Study in Learners of the Senior Citizens Academy in a City of Taiwan ............................................................... 477
   Ming-Wei Wang

How to Guide the Use of Technology for Ageing-in-Place?
An Evidence-Based Educational Module ........................................... 486
   Eveline J.M. Wouters, Marianne E. Nieboer, Kirsten A. Nieboer,
   Marijke J.G.A. Moonen, Sebastiaan T.M. Peek,
   Anne-Mie A.G. Sponselee, Joost van Hoof, Claire S. van der Voort,
   and Katrien G. Luijkx

Exploring the Elders’ Information Needs on Home-Based Care:
A Community Service Perspective ..................................................... 498
   Zhizheng Zhang and Yajun Li

Author Index .................................................................................. 511
Human Aspects of IT for the Aged Population.
