## Contents

### Non-functional Considerations in Business Processes

Towards a Data-Driven Framework for Measuring Process Performance  
*Isabella Kis, Stefan Bachhofner, Claudio Di Ciccio, and Jan Mendling*  
3

Supporting Secure Business Process Design via Security Process Patterns  
*Nikolaos Argyropoulos, Haralambos Mouratidis, and Andrew Fish*  
19

NFC-Based Task Enactment for Automatic Documentation of Treatment Processes  
*Florian Stertz, Juergen Mangler, and Stefanie Rinderle-Ma*  
34

### New Challenges in Business Process Modeling and Support

Discovering Social Networks Instantly: Moving Process Mining Computations to the Database and Data Entry Time  
*Alifah Syamsiyah, Boudewijn F. van Dongen, and Wil M.P. van der Aalst*  
51

Re-evaluation of Decisions Based on Events  
*Luise Pufahl, Sankalita Mandal, Kimon Batoulis, and Mathias Weske*  
68

Requirements Framework for Batch Processing in Business Processes  
*Luise Pufahl and Mathias Weske*  
85

### Testing Business Processes

Performance Comparison Between BPMN 2.0 Workflow Management Systems Versions  
*Vincenzo Ferme, Marigianna Skouradaki, Ana Ivanchikj, Cesare Pautasso, and Frank Leymann*  
103

BPMN-Based Model-Driven Testing of Service-Based Processes  
*Daniel Lübke and Tammo van Lessen*  
119

### Business Process Model Comprehension

Cognitive Insights into Business Process Model Comprehension: Preliminary Results for Experienced and Inexperienced Individuals  
*Michael Zimoch, Rüdiger Pryss, Thomas Probst, Winfried Schlee, and Manfred Reichert*  
137
Eye Tracking Experiments on Process Model Comprehension: Lessons Learned ........................................................... 153  
  Michael Zimoch, Rüdiger Pryss, Johannes Schobel, and Manfred Reichert

An Experience Report on Teaching Business Process Modeling

  Georgios Koutsopoulos and Ilia Bider

Evaluation and Comparison of Modeling Languages and Methods

On the Requirement from Practice for Meaningful Variability in Visual Notation ............................................................ 189  
  Dirk van der Linden, Irit Hadar, and Anna Zamansky

Balanced Scorecard for Method Improvement: Approach and Experiences ................................................................. 204  
  Kurt Sandkuhl and Ulf Seigerroth

Modeling Exchange Agreements with DEMO/PSI and Core Component of Communication ........................................... 220  
  Duarte Gouveia and David Aveiro

Modeling Approaches to Support Decision Making

Towards a Decision-Support System for Selecting the Appropriate Business Process Modeling Formalism: A Context-Aware Roadmap ................................................................. 239  
  Afef Awadid, Selmin Nurcan, and Sonia Ayachi Ghannouchi

Designing a Decision-Making Process for Partially Observable Environments Using Markov Theory ................................... 257  
  Sérgio Guerreiro

Know-How Mapping – A Goal-Oriented Approach and Evaluation ................................................................. 272  
  Arnon Sturm, Eric Yu, and Sadra Abrishamkar

Behavioral Specification and Business Process Modeling

Controlled Experiment in Business Model-Driven Conceptual Database Design ................................................................. 289  
  Drazen Brdjanin, Goran Banjac, Danijela Banjac, and Slavko Mamic

Incorporating Data Inaccuracy Considerations in Process Models ................................................................. 305  
  Yotam Evron, Pnina Soffer, and Anna Zamansky
Structured Behavioral Programming Idioms .......................... 319
   Adiel Ashrov, Michal Gordon, Assaf Marron, Arnon Sturm,
   and Gera Weiss

Modelling Languages and Methods in Evolving Context

A Security Requirements Modelling Language to Secure Cloud Computing
Environments ............................................................ 337
   Shaun Shei, Haralambos Mouratidis, and Aidan Delaney

On Valuation of Smart Grid Architectures: An Enterprise Engineering
Perspective ............................................................. 346
   Iván S. Razo-Zapata, Anup Shrestha, and Erik Proper

Author Index ............................................................ 355
Enterprise, Business-Process and Information Systems Modeling
Reinhartz-Berger, I.; Gulden, J.; Nurcan, S.; Guédria, W.; Bera, P. (Eds.)
2017, XV, 355 p. 105 illus., Softcover
ISBN: 978-3-319-59465-1
