Preface

This volume contains the papers presented at FAW 2017: the 11th International Frontiers of Algorithmics Workshop, held during June 23–25, 2017, in Chengdu, China. The workshop brings together researchers working on all aspects of theoretical computer science and algorithms.

In all, 61 submissions were received from 18 countries and regions: Canada, China, Colombia, France, Germany, Greece, Hong Kong, India, Israel, Japan, Korea, Lebanon, Macao, Malaysia, Norway, Poland, Taiwan, and USA. The FAW 2017 Program Committee selected 24 papers for presentation at the conference. In addition, we had three plenary speakers: John Hopcroft (Cornell University, USA), Michael R. Fellows (University of Bergen, Norway), and Matthew Katz (Ben-Gurion University of The Negev, Israel). We express our sincere thanks to them for their contributions to the conference and proceedings.

We would like to thank the Program Committee members and external reviewers for their hard work in reviewing and selecting papers. We are also very grateful to all the authors who submitted their work to FAW 2017.

Finally, we wish to thank the editors at Springer and the local organizer, University of Electronic Science and Technology of China, for their support and hard work in the preparation of this conference.

June 2017
