Contents

ASDENCA 2017 – Advances in Services Design Based on the Notion of Capability

Design of Vehicle Routing Capability ........................................... 3
  Jānis Grabis, Jānis Kampars, Žanis Bondars, and Ēriks Dobelis

Aligning Software Architecture and Business Strategy with Continuous Business Engineering .................................................. 14
  Kurt Sandkuhl

  Janis Stirna

A Capability-Oriented Approach to IT Governance: The Case of Public Service Organizations ......................................................... 39
  Jelena Zdravkovic and Irina Rychkova

COGNISE 2017 – Cognitive Aspects of Information Systems Engineering

Using Visual Notations with Modeling Experts or Novices: What do the Experts Think? ......................................................... 53
  Dirk van der Linden

An Observation Method for Behavioral Analysis of Collaborative Modeling Skills ................................................................. 59
  Ilona Wilmont, Stijn Hoppenbrouwers, and Erik Barendsen

Cognitive Style and Business Process Model Understanding .................. 72
  Oktay Turetken, Irene Vanderfeesten, and Jan Claes

Towards a Multi-parametric Visualisation Approach for Business Process Analytics ................................................................. 85
  Stefan Bachhofner, Isabella Kis, Claudio Di Ciccio, and Jan Mendling

Investigating the Under-Usage of Code Decomposition and Reuse Among High School Students: The Case of Functions .................. 92
  Ahmad Omar, Irit Hadar, and Uri Leron
T4SIS4T – Teaching for Smart Information Systems – Smart Information

Design Thinking in Multidisciplinary Learning Teams: Insights from Multidisciplinary Teaching Events ........................................ 101

Meira Levy

Introducing Fundamental Concepts of Process Modeling Through Participatory Simulation .................................................. 110

Stefan Oppl and Stijn Hoppenbrouwers

Author Index ....................................................................................... 123
Advanced Information Systems Engineering Workshops
CAiSE 2017 International Workshops, Essen, Germany,
June 12-16, 2017, Proceedings
Metzger, A.; Persson, A. (Eds.)
2017, XXVI, 123 p. 31 illus., Softcover
ISBN: 978-3-319-60047-5
