Contents

Sustainability in Remanufacturing Process—The Challenges for Its Assessment .................................................. 1
Paulina Golinska-Dawson

The Remanufacturing of the Automotive Components in Poland—Development Prospect .................................. 13
Karolina Werner Lewandowska

Automotive Parts Remanufacturing—Processes, Problems and Challenges. Case Study on a Polish Remanufacturing Company ................................................................. 25
Monika Kosacka

Methodology for Determining Sustainable Improvements’ Potential in Remanufacturing Companies Using RMC .......... 47
Monika Kosacka and Paulina Golinska-Dawson

A Comparison of Neural Network and DOE Regression Analysis for Predicting Resource Consumption of Manufacturing Processes ...... 67
Frank Kübler and Rolf Steinhilper

Sustainability Assessment in Remanufacturing Companies—Qualitative Approach .............................................. 79
Paulina Golinska-Dawson and Frank Kübler

Sustainability Indicators System for Remanufacturing ......................... 93
Paulina Golinska-Dawson, Monika Kosacka and Karolina Werner-Lewandowska

Determining the Importance of the Criteria for Assessment of Sustainability in Remanufacturing Companies ......................... 111
Monika Kosacka and Rafał Mierziwiai
Paulina Golinska-Dawson, Monika Kosacka, Rafał Mierziwiak and Karolina Werner-Lewandowska

Simulation Modelling of Remanufacturing Process and Sustainability Assessment. .................................................. 141
Paulina Golinska-Dawson and Paweł Pawlewski

The Roadmap for Improving Sustainability in Remanufacturing Operations .................................................. 157
Paulina Golinska-Dawson, Monika Kosacka and Karolina Werner-Lewandowska
Sustainability in Remanufacturing Operations
Golinska, P.; Kuebler, F. (Eds.)
2018, VIII, 179 p. 56 illus., 21 illus. in color., Hardcover
ISBN: 978-3-319-60353-7
