Contents

Part I System Aspects of Intra Data Center Networking

1 Photonics in Data Centers ................................................................. 3
S.J. Ben Yoo, Roberto Proietti, and Paolo Grani

2 Optical Switching in Datacenters: Architectures Based on Optical
Circuit Switching ............................................................................. 23
Liam P. Barry, Jingyan Wang, Conor McArdle, and Dan Kilper

3 Optical Switching in Data Centers: Architectures Based on Optical
Packet/Burst Switching ................................................................... 45
Nicola Calabretta and Wang Miao

Part II Demonstrations of Optical Switching in Data Center

4 OSA: An Optical Switching Architecture for Data Center
Networks with Unprecedented Flexibility ...................................... 73
Kai Chen, Ankit Singla, Atul Singh, Kishore Ramachandran,
Lei Xu, Yueping Zhang, Xitao Wen, and Yan Chen

5 The Hi-Ring Architecture for Data Center Networks ............ 93
Valerija Kamchevska, Yunhong Ding, Michael S. Berger,
Lars Dittmann, Leif K. Oxenløwe, and Michael Galili

6 Low-Latency Interconnect Optical Network Switch (LIONS) .... 107
Roberto Proietti, Yawei Yin, Zheng Cao, C.J. Nitta, V. Akella,
and S.J. Ben Yoo

7 Torus-Topology Data Center Networks with Hybrid
Optoelectronic Routers .................................................................. 129
Ryo Takahashi and Ken-ichi Kitayama
