

Contents

Invited Talks

The Design of the Seventh Answer Set Programming Competition	3
<i>Martin Gebser, Marco Maratea, and Francesco Ricca</i>	
A Bird’s-Eye View of Forgetting in Answer-Set Programming	10
<i>João Leite</i>	
Answer Set Programming and Its Applications in Planning and Multi-agent Systems	23
<i>Tran Cao Son</i>	
From Logic Programming and Non-monotonic Reasoning to Computational Argumentation and Beyond	36
<i>Francesca Toni</i>	

Nonmonotonic Reasoning

Modular Construction of Minimal Models	43
<i>Rachel Ben-Eliyahu-Zohary, Fabrizio Angiulli, Fabio Fassetti, and Luigi Palopoli</i>	
A Hasse Diagram for Weighted Sceptical Semantics with a Unique-Status Grounded Semantics	49
<i>Stefano Bistarelli and Francesco Santini</i>	
Foundations for a Probabilistic Event Calculus	57
<i>Fabio Aurelio D’Asaro, Antonis Bikakis, Luke Dickens, and Rob Miller</i>	
Contextual Reasoning: Usually Birds Can Abductively Fly.	64
<i>Emmanuelle-Anna Dietz Saldanha, Steffen Hölldobler, and Luís Moniz Pereira</i>	
Including Quantification in Defeasible Reasoning for the Description Logic \mathcal{EL}_\perp	78
<i>Maximilian Pensel and Anni-Yasmin Turhan</i>	
A Monotonic View on Reflexive Autoepistemic Reasoning	85
<i>Ezgi Iraz Su</i>	
Minimal Inference Problem Over Finite Domains: The Landscape of Complexity	101
<i>Michał Wrona</i>	

Answer Set Programming

Gelfond-Zhang Aggregates as Propositional Formulas 117
*Pedro Cabalar, Jorge Fandinno, Torsten Schaub,
and Sebastian Schellhorn*

Answer Set Solving with Bounded Treewidth Revisited. 132
*Johannes K. Fichte, Markus Hecher, Michael Morak,
and Stefan Woltran*

Vicious Circle Principle and Formation of Sets in ASP Based Languages . . . 146
Michael Gelfond and Yuanlin Zhang

Answer Set Programs with Queries over Subprograms. 160
Christoph Redl

Explaining Inconsistency in Answer Set Programs and Extensions 176
Christoph Redl

Blending Lazy-Grounding and CDNL Search for Answer-Set Solving 191
Antonius Weinzierl

Answer Set Programming with Graded Modality. 205
Zhizheng Zhang

LPNMR Systems

The ASP System DLV2. 215
*Mario Alviano, Francesco Calimeri, Carmine Dodaro, Davide Fuscà,
Nicola Leone, Simona Perri, Francesco Ricca, Pierfrancesco Veltri,
and Jessica Zangari*

LP2NORMAL — A Normalization Tool for Extended Logic Programs. 222
Jori Bomanson

Harvey: A System for Random Testing in ASP 229
Alexander Greßler, Johannes Oetsch, and Hans Tompits

NoHR: Integrating XSB Prolog with the OWL 2 Profiles and Beyond. 236
Carlos Lopes, Matthias Knorr, and João Leite

ArgueApply: A Mobile App for Argumentation 250
Jörg Pührer

LPNMR Applications

<i>catnap</i> : Generating Test Suites of Constrained Combinatorial Testing with Answer Set Programming	265
<i>Mutsunori Banbara, Katsumi Inoue, Hiromasa Kaneyuki, Tenda Okimoto, Torsten Schaub, Takehide Soh, and Naoyuki Tamura</i>	
Automatic Synthesis of Optimal-Size Concentrators by Answer Set Programming	279
<i>Marc Dahlem, Tripti Jain, Klaus Schneider, and Michael Gillmann</i>	
<i>plasp 3</i> : Towards Effective ASP Planning	286
<i>Yannis Dimopoulos, Martin Gebser, Patrick Lühne, Javier Romero, and Torsten Schaub</i>	
Nurse Scheduling via Answer Set Programming	301
<i>Carmine Dodaro and Marco Maratea</i>	
Hybrid Metabolic Network Completion	308
<i>Clémence Frioux, Torsten Schaub, Sebastian Schellhorn, Anne Siegel, and Philipp Wanko</i>	
Action Language Hybrid AL	322
<i>Alex Brik and Jeffrey Rimmel</i>	
<i>moviola</i> : Interpreting Dynamic Logic Programs via Multi-shot Answer Set Programming	336
<i>Orkunt Sabuncu and João Leite</i>	
Adjudication of Coreference Annotations via Answer Set Optimization	343
<i>Peter Schüller</i>	
Author Index	359

Logic Programming and Nonmonotonic Reasoning
14th International Conference, LPNMR 2017, Espoo,
Finland, July 3-6, 2017, Proceedings
Balduccini, M.; Janhunen, T. (Eds.)
2017, XIII, 359 p. 41 illus., Softcover
ISBN: 978-3-319-61659-9
