

# Contents

|           |   |     |
|-----------|---|-----|
| <b>1</b>  | <b>The Behavior of the Difference Between Two Means</b> .....   | 1   |
|           | Shoshana Abramovich   |     |
| <b>2</b>  | <b>Isometric Approximation in Bounded Sets and Its Applications</b> .....   | 17  |
|           | Pekka Alestalo  |     |
| <b>3</b>  | <b>On the Indicator Plurality Function</b> .....  | 25  |
|           | Anna Bahyrycz   |     |
| <b>4</b>  | <b>The Translation Equation in the Ring of Formal Power Series<br/>Over <math>\mathbb{C}</math> and Formal Functional Equations</b> ..... | 41  |
|           | Harald Fripertinger and Ludwig Reich  |     |
| <b>5</b>  | <b>Fischer–Muszély Additivity: A Half Century Story</b> .....   | 71  |
|           | Roman Ger   |     |
| <b>6</b>  | <b>Alien Functional Equations: A Selective Survey of Results</b> .....  | 107 |
|           | Roman Ger and Maciej Sablik   |     |
| <b>7</b>  | <b>Remarks on Analogies Between Haar Meager Sets and Haar<br/>Null Sets</b> .....   | 149 |
|           | Eliza Jabłońska   |     |
| <b>8</b>  | <b>On Some Inequalities Inspired by the Stability<br/>of Dynamical System</b> .....   | 161 |
|           | Zenon Moszner   |     |
| <b>9</b>  | <b>Homomorphisms from Functional Equations in Probability</b> .....   | 171 |
|           | Adam J. Ostaszewski   |     |
| <b>10</b> | <b>Recent Developments in the Translation Equation<br/>and Its Stability</b> .....  | 215 |
|           | Barbara Przebieracz   |     |

|   |     |
|---|-----|
| <b>11 On Some Recent Applications of Stochastic Convex Ordering Theorems to Some Functional Inequalities for Convex Functions: A Survey</b> ..... | 231 |
| Teresa Rajba  |     |
| <b>12 On the Construction of the Field of Reals by Means of Functional Equations and Their Stability and Related Topics</b> .....                 | 275 |
| Jens Schwaiger  |     |
| <b>13 Generalized Dhombres Functional Equation</b> .....  | 297 |
| Jaroslav Smítal and Marta Štefánková  |     |
| <b>14 Functional Equations and Stability Problems on Hypergroups</b> .....  | 305 |
| László Székelyhidi  |     |
| <b>15 Stability of Systems of General Functional Equations in the Compact-Open Topology</b> .....   | 333 |
| Pavol Zlatoš  |     |
