

Contents

1 Introduction	1
1.1 Basics of Physical Layer Security	1
1.1.1 Concept and Evolution of Physical Layer Security	1
1.1.2 The Relationship Between Cryptography and Physical Layer Security	6
1.1.3 Classification of Attacks in Physical Layer Security	8
1.1.4 Performance Metrics in Physical Layer Security	8
1.2 Overview of Wireless Cooperative Networks	13
1.2.1 Classification of Wireless Cooperative Networks	13
1.2.2 Applications of Wireless Cooperative Networks	17
1.3 Wireless Cooperation for Physical Layer Security Enhancement	22
1.3.1 Multi-Antenna Cooperation	22
1.3.2 Multi-User Cooperation	26
1.4 Outline of the Book	32
References	33
2 Existing Techniques in Physical Layer Security	39
2.1 Time Reversal Technique	40
2.1.1 Basic Principles of Time Reversal Technique	40
2.1.2 Applications of Time Reversal Technique	43
2.1.3 Time Reversal Technique for Physical Layer Security	44
2.2 Spatial Modulation Technique	45
2.2.1 Basic Principles of Spatial Modulation	45
2.2.2 Extended Versions: Space Shift Keying and General Space Shift Keying	49
2.2.3 Pre-Coding Aided Spatial Modulation Schemes	51
2.2.4 Spatial Modulation in Physical Layer Security	54

2.3	D2D Communications in Cellular Networks	55
2.3.1	Basic Principles of D2D Communications	55
2.3.2	Applications of D2D Communications in Future 5G Networks	58
2.3.3	Social Networks-Assisted D2D Communications	61
2.3.4	Physical Layer Security in D2D Communications	64
2.4	Chapter Summary	65
	References	65
3	Secrecy Analysis with Time-Reversal Technique in Distributed Transmission System	71
3.1	System Model	71
3.1.1	Distributed Time Reversal Transmission	73
3.1.2	Direct Transmission and Distributed Beamforming Transmission	77
3.2	Basic SNR Analysis for Security Enhancement	80
3.3	SNR Analysis with Fixed Multi-Path Delay	81
3.3.1	SNR Analysis of Distributed Time Reversal Transmission ...	81
3.3.2	SNR Analysis of Direct Transmission	84
3.3.3	SNR Analysis of Distributed Beamforming Transmission ...	85
3.4	SNR Analysis with Random Multi-Path Delay	87
3.4.1	SNR Analysis of Distributed Time Reversal Transmission ...	87
3.4.2	SNR Analysis of Direct Transmission	89
3.4.3	SNR Analysis of Distributed Beamforming Transmission ...	89
3.5	Simulation and Numerical Results	91
3.5.1	Fixed Number L_k of Multi-Path Components	91
3.5.2	Random Number L_k of Multi-Path Components	95
3.6	Chapter Summary	103
	References	104
4	Spatial Modulation in Physical Layer Security	107
4.1	Secrecy Enhancement with Artificial Noise in Spatial Modulation ..	107
4.1.1	System Model and Problem Description	107
4.1.2	Secrecy Rate Analysis	110
4.1.3	Simulation and Numerical Results	112
4.2	Secrecy Analysis in Space Shift Keying (SSK) and Generalized Space Shift Keying (GSSK) Modulation	114
4.2.1	System Model and Problem Description	116
4.2.2	Secrecy Rate Analysis	117
4.2.3	Simulation and Numerical Results	119
4.3	Secrecy Analysis with Transmitter Precoding Aided Spatial Modulation	121
4.3.1	System Model and Problem Description	123
4.3.2	Precoding Matrix Design	124

- 4.3.3 Secrecy Performance with Detection Algorithm 127
- 4.3.4 Simulation and Numerical Results 129
- 4.4 Chapter Summary 133
- References 134
- 5 Cooperative Security in D2D Communications 137**
 - 5.1 Background and Motivations 138
 - 5.1.1 System Model and Assumptions 139
 - 5.1.2 Channel State Information 140
 - 5.2 Social Characteristics for Cooperative Communications 141
 - 5.2.1 Social Interaction for Content Sharing..... 141
 - 5.2.2 Social Trust for Cooperative Jamming..... 142
 - 5.2.3 Objective Problem Formulation 143
 - 5.3 Optimization for Secrecy Rate Maximization 144
 - 5.3.1 Secrecy Rate Maximization with Full CSI 144
 - 5.3.2 Secrecy Rate Maximization with Statistical CSI 148
 - 5.3.3 One-Dimensional Search with Low Complexity 151
 - 5.3.4 Simulation and Numerical Results 153
 - 5.4 The Social Interaction Case for Jammer Selection 162
 - 5.4.1 Optimal Jammer Selection with Full CSI 162
 - 5.4.2 Optimal Jammer Selection with Partial CSI 166
 - 5.4.3 One Dimensional Search with Low Complexity 169
 - 5.4.4 Simulation and Numerical Results 171
 - 5.5 Chapter Summary 175
 - References 176
- 6 Summary 179**
