Contents

Economic, Social, and Behavioral Concerns on Smart Health

Leveraging Social Norms and Implementation Intentions for Better Health .......................... 3
Che-Wei Liu, Weiguang Wang, Guodong (Gordon) Gao, and Ritu Agarwal

Patient Satisfaction and Hospital Structure: How Are They Related? ................................. 15
Mingfei Li, Alina Chircu, Gang Li, Lan Xia, and Jennifer Xu

Using Observational Engagement Assessment Method VC-IOE for Evaluating an Interactive Table Designed for Seniors with Dementia ........................................... 26
Yuan Feng, Ruud van Reijmersdal, Suihuai Yu, Jun Hu, Matthias Rauterberg, and Emilia Barakova

A Design to Reduce Patients’ Cognitive Load for Cancer Risk Calculator .......................... 38
Binay Siddharth, Lyndal Trevena, and Na Liu

The Impacts of Patients’ Gift Giving Behavior on Physicians’ Service Quality .......................... 42
Wei Zhao, Xitong Guo, Tianshi Wu, and Jingxuan Geng

Utilizing Social Media to Share Knowledge of Healthcare and Improve Subjective Wellbeing of Aging People ................................................................. 54
Yumeng Miao, Rong Du, and Shizhong Ai

How Out-of-Pocket Ratio Influences Readmission: An Analysis Based on Front Sheet of Inpatient Medical Record ................................................................. 67
Luo He, Xiaolei Xie, Hongyan Liu, and Bo Li

Wearable and Mobile Health

Fall Detection Using Smartwatch Sensor Data with Accessor Architecture .................. 81
Anne Ngu, Yeahuay Wu, Habil Zare, Andrew Polican, Brock Yarbrough, and Lina Yao

Implementation of Electronic Health Monitoring Systems at the Community Level in Hong Kong ................................................................. 94
Wai Man Chan, Yang Zhao, and Kwok Leung Tsui

Influence of Technology Affordance on the Adoption of Mobile Technologies for Diabetes Self-management ................................................................. 104
Ramakrishna Dantu, Radha Mahapatra, and Jingguo Wang
Analyzing mHealth Usage Using the mPower Data ........................................ 116
   Jiexun Li and Xiaohui Chang

Zen_Space: A Smartphone App for Individually Tailored Stress
Management Support for College Students ............................................. 123
   Marguerite McDaniel and Mohd Anwar

Segmentation of Human Motion Capture Data Based
on Laplasse Eigenmaps ............................................................. 134
   Xiaodong Xie, Rui Liu, Dongsheng Zhou, Xiaopeng Wei,
   and Qiang Zhang

Online Community

The Effects of the Externality of Public Goods on Doctor’s Private
Benefit: Evidence from Online Health Community ................................ 149
   Min Zhang, Tianshi Wu, Xitong Guo, Xiaoxiao Liu, and Weiwei Sun

Do Online Reviews of Physicians Reflect Healthcare Outcomes? ............ 161
   Danish H. Saifee, Indranil Bardhan, and Zhiqiang (Eric) Zheng

Social Support and User Roles in a Chinese Online Health Community:
A LDA Based Text Mining Study .................................................. 169
   Jiang Wu, Shaoxin Hou, and Mengmeng Jin

Mining User Intents in Online Interactions: Applying to Discussions
About Medical Event on SinaWeibo Platform ..................................... 177
   Chenxi Cui, Wenji Mao, Xiaolong Zheng, and Daniel Zeng

Online Health Communities the Impact of Social Support on the Health
State of People with Chronic Illness .............................................. 184
   Zachary Davis, Qianzhou Du, G. Alan Wang, Christopher Zobel,
   and Lara Khansa

Predictive Diagnosis

Deep Learning Through Two-Branch Convolutional Neuron Network
for Glaucoma Diagnosis ............................................................ 191
   Yidong Chai, Luo He, Qiuyan Mei, Hongyan Liu, and Liang Xu

Regression Analysis and Prediction of Mini-Mental State Examination
Score in Alzheimer’s Disease Using Multi-granularity Whole-Brain
Segmentations ................................................................. 202
   Jinzhi Zhang, Yuan Luo, Zihan Jiang, and Xiaoying Tang
Apply Convolutional Neural Network to Lung Nodule Detection: Recent Progress and Challenges .......................... 214
  Jiaxing Tan, Yumei Huo, Zhengrong Liang, and Lihong Li

Using Machine Learning to Diagnose Bacterial Sepsis in the Critically Ill Patients ........................................ 223
  Yang Liu and Kup-Sze Choi

Data/Text Mining in Healthcare

A Deep Learning Based Named Entity Recognition Approach for Adverse Drug Events Identification and Extraction in Health Social Media .......................... 237
  Long Xia, G. Alan Wang, and Weiguo Fan

A Hybrid Markov Random Field Model for Drug Interaction Prediction .......................................................... 249
  Haobo Gu and Xin Li

EpiStrat: A Tool for Comparing Strategies for Tackling Urban Epidemic Outbreaks .............................................. 256
  Radhiya Arsekar, Durga Keerthi Mandarapu, and M.V. Panduranga Rao

Mining Disease Transmission Networks from Health Insurance Claims ......................................................... 268
  Hsin-Min Lu and Yu-Ching Chang

Semantic Expansion Network Based Relevance Analysis for Medical Information Retrieval .................................. 274
  Haolin Wang and Qingpeng Zhang

Using Deep Learning to Mine the Key Factors of the Cost of AIDS Treatment .................................................. 280
  Dong Liu, Zhidong Cao, and Su Li

A Knowledge-Based Health Question Answering System .......................... 286
  Hongxia Liu, Qingcheng Hu, Yong Zhang, Chunxiao Xing, and Ming Sheng

Poster Papers

Predictors for Switch from Unipolar Major Depressive Disorder to Bipolar Disorder: Applying Classification and Regression Trees Method to the Taiwan National Health Insurance Database .................................................. 295
  Cheng-Che Shen, Ya-Han Hu, and I-Chiu Chang

A Cost-Sensitive Learning Framework for Reducing 30-Day Readmission ......................................................... 299
  Shaokun Fan and Bin Zhu

Author Index .......................................................... 301
