## 2 Subject, object, mind and matter—coordinates of praxeology

2.1 Objectivism, subjectivism, praxeology—Bourdieu’s third way

2.1.1 Objectivism and subjectivism—Bourdieu’s critique

Social physics ........................................... 144
Semiology ................................................. 145
No dichotomies, but habitus ........................ 148

2.1.2 Subject, object, and perception—Bourdieu’s sources

Marx ........................................................... 149
Cassirer ......................................................... 151

2.1.3 Logic of praxis, objectification, and embodiment—
Bourdieu’s transformations ............................. 153
Social knowledge ........................................... 154
Relation in between—logic of praxis .................... 155
Objectified structures ..................................... 157
Embodied structures ...................................... 158

2.2 Matter and mind—things and signs ..................... 162

2.2.1 Schemes of perception and experience—narrowing
the focus ..................................................... 162
Against a dualism of mind and matter ................. 162
Cognition—non-intellectualist ............................ 164

2.2.2 Bourdieu’s vocabulary in relation to meaning ........ 165
Concepts and patterns ..................................... 165
Possible misunderstandings ............................... 167

2.2.3 Social construction of meaning ....................... 168
Dispositional activities ................................... 168
Social meaning ............................................. 169

2.2.4 Meaning as social operator ........................... 170
Symbol ......................................................... 170
Polysemy, metaphor, homology .......................... 172
Core meaning? ............................................. 173
Sign ............................................................. 175

2.2.5 A twofold reality ....................................... 175
Telling things ............................................... 176
Practical signs .............................................. 177

2.3 Objects and Subjects—structures and actors ............. 180

2.3.1 Perspectives and relations—narrowing the focus ....... 180
First-order relations ...................................... 180
Two-way relation ......................................... 181
2.3.2 Bourdieu’s vocabulary on object and subject 183

Concepts and patterns 183
Ambivalence—Cassirer and Marx 184

2.3.3 Historical action 186

The source of historical action 186
Social subjectivity—perception and construction 188
Common sense—collective objectification 189
Symbolic struggle—dispute and misrecognition 190
Social objectivity—positions and dispositions 191
Social perspectivity—positions and views 192

2.4 Subject, object, praxis—desiderata for praxeology 194

2.4.1 A concluding remembrance 194
2.4.2 Productive tensions 195
2.4.3 Deep structure of praxis: a diagram 197
Desiderata 201

3 Meaning as praxis—language and signs 203

Pragmatique sociologique 204
Bourdieu’s work on meaning 206

3.1 The scientific field: language, system and meaning 208

3.1.1 Language—the longue durée and the praxeological
Kondratiev wave 210
Bourdieu’s framing of the issue 210
Plato dies hard—knowledge as reflection 212
Sophists too—rhetoric, culture, and ordinary language 215
And likewise Materialists—Marx and sociolinguistics 220
A synthesis on symbolic power 223

3.1.2 Bourdieu and linguistics—an intricate relationship 226

3.1.2.1 Philosohpocracy—Plato on the academic field 227

3.1.2.2 Language as langue—linguistic communism 229
Saussure 229
Chomsky 230
Fodor and Katz 231
Foucault 231
And Austin? 232

3.1.2.3 Language as society—communist linguists 234
Sartre and the biographical method 235
Marxism and class interest 235
3.1.3 Language as praxis—praxeological relations 236
  3.1.3.1 Bourdieu’s model of interpretation 237
    Meaning 237
    Fields 237
    Production 238
  3.1.3.2 Praxeological translation of linguistics 240
    Translation 240
    Legitimacy 241
    Meaning 242
  3.1.3.3 Praxeological parameters for the approach to meaning
    Habitus and power 244
    Relations, praxis, struggles 245

3.2 Fieldwork on meaning 249
  3.2.1 Bourdieu’s studies on meaning 249
    3.2.1.1 Kabylia 249
      Structuralist socio-semiotics 249
      Practical logic 250
    3.2.1.2 Heidegger 256
      Polyphonic discourse 256
      Comments on content 259
      Comments on form 260
      Comments on production 261
    3.2.1.3 Religion 262
      Religious demand and message 262
      The new liturgy 267
      A note on form and content 271
    3.2.1.4 Body-language 272
      Mouth, trap and class 273
      The lazy South 273
  3.2.2 Critics 275
    John R. Searle 276
    John B. Thompson 277
    James Collins 281
    William Hanks 283
    Hans-Herbert Kögler 285
  3.2.3 On Bourdieu’s study of meaning—concluding remarks 289
3.3 The meaning of meaning ........................................... 293
  3.3.1 Boundaries in theory ........................................... 294
    Listening and speaking—decoding ............................... 294
    Interpretative shortcuts—symbolism ............................. 295
  3.3.2 Epistemological premises focused on meaning .............. 296
    Two kinds of series ............................................. 296
    Difference, position, and meaning ............................. 298
    Similarity, fields, and meaning ................................ 300
    Word or proposition? ............................................ 302
  3.3.3 Social structures, habitus, and meaning production .......... 303
    Structured production—no repertoires ......................... 304
    Value—not abstraction ......................................... 304
    3.3.3.1 Structures—objective value / imposing value .......... 305
      Social space: positional value ................................ 306
      Linguistic market: exchange value ............................ 307
      Fields of praxis: use value .................................. 309
    3.3.3.2 Habitus—embodied value/knowing how to value .......... 311
      Linguistic habitus ............................................. 312
      Interest, expression, and capacity ............................ 312
      Dispositions and fields—knowing how ......................... 314
    3.3.3.3 Relation—contesting values ............................ 315
      Linguistic exchange, power, and struggle .................... 316
      Content, naming, and pretended neutrality .................. 317
      Labor of language, crises, and style ......................... 319
      Demand and supply ............................................ 321
    3.3.3.4 The theoretical program ................................ 322

Conclusions and perspectives ........................................... 327
  Language .......................................................... 328
  Critics: interpretation and power ................................ 328
    Thompson: interpretation ........................................ 329
    Hanks: language, power, and a structural toolkit .............. 329
  Issues: meaning, power, and reality ............................ 330
    Meaning as practical interpretation .......................... 330
    The power of language .......................................... 332
    Labor of language ................................................ 333
    Classification and judgment .................................... 335
    Dispositions and social reality ................................. 335
