Table of Contents

COOPIS 2002 FULL PAPERS

Interoperability
Developing Evolutionary Cost Models for Query Optimization in a Dynamic Multidatabase Environment .............................................. 1
Amira Rahal, Qiang Zhu, Per-Åke Larson

A Conceptual Markup Language That Supports Interoperability between Business Rule Modeling Systems .......................... 19
Jan Demey, Mustafa Jarrar, Robert Meersman

Distributed Description Logics: Directed Domain Correspondences in Federated Information Sources ............................ 36
Alex Borgida, Luciano Serafini

Workflow
Synchronization of Concurrent Workflows Using Interaction Expressions and Coordination Protocols ............................... 54
Christian Heinlein

CPM Revisited – An Architecture Comparison ............................ 72
Qiming Chen, Meichun Hsu

Modeling Coordination and Control in Cross-Organizational Workflows .......................................................... 91
Enzo Colombo, Chiara Francalanci, Barbara Pernici

Mobility
View Propagation and Inconsistency Detection for Cooperative Mobile Agents ............................................................. 107
Susan Weissman Lauzac, Panos K. Chrysanthis

On Real-Time Top k Querying for Mobile Services ....................... 125
Wolf-Tilo Balke, Ulrich Günther, Werner Kießling

Mobile Agents in Mobile Data Access Systems .......................... 144
Yu Jiao, Ali R. Hurson
Agents

Using Agent Control and Communication in a Distributed Workflow Information System .................................................... 163
    M. Brian Blake

An Extended Alternating-Offers Bargaining Protocol for Automated Negotiation in Multi-agent Systems .................... 179
    Pinata Winoto, Gordon McCalla, Julita Vassileva

A Human Based Perception Model for Cooperative Intelligent Virtual Agents ............................................................ 195
    Pilar Herrero, Angélica de Antonio

P2P & Ubiquitous

A Decentralized Algorithm for Coordinating Independent Peers: An Initial Examination ............................................. 213
    Girish Suryanarayana, Richard Taylor

Supporting Peer-to-Peer User Communities ........................................... 230
    Julita Vassileva

Context Spaces – Self-Structuring Distributed Networks for Contextual Messaging and Resource Discovery .................... 248
    Dominic Heutelbeck

Work Process

Supporting Cooperative Learning in Distributed Project Teams .......... 266
    Weigang Wang, Jörg M. Haake, Martin Wessner

Discovering Emergent Virtual Work Processes in Collaborative Systems ... 286
    Simeon J. Simoff, Robert P. Biuk-Aghai

Flexible Merging for Asynchronous Collaborative Systems .......... 304
    Haifeng Shen, Chengzheng Sun

Business & Transactions

A Multi-version Transaction Model to Improve Data Availability in Mobile Computing ................................................... 322
    Sanjay Kumar Madria, Mohammed Baseer, Sourav S. Bhownick

Finding Trading Partners to Establish Ad-hoc Business Processes .......................................................... 339
    Andreas Wombacher, Bendick Mahleko
Regulating Work in Digital Enterprises: A Flexible Managerial Framework ........................................................ 356
Takahiro Murata, Naftaly H. Minsky

Infrastructure
Collecting and Querying Distributed Traces of Composite Service Executions .................................................. 373
Marie-Christine Fauvet, Marlon Dumas, Boualem Benatallah

An Architecture of a Web-Based Collaborative Image Search Engine ......................................................... 391
Wei-Cheng Lai, Gerard Sychay, Edward Chang

Parallel Processing with Autonomous Databases in a Cluster System ......................................................... 410
Stéphane Gançarski, Hubert Naacke, Esther Pacitti, Patrick Valduriez

Query Processing
Querying XML Sources Using an Ontology-Based Mediator ................................................................. 429
Bernd Amann, Catriel Beeri, Irini Fundulaki, Michel Scholl

Handling Partial Matches in Semistructured Data with Cooperative Query Answering Techniques .................... 449
Antonio Badia, Sanjay Kumar Madria

Efficient Querying of Distributed Resources in Mediator Systems ............................................................. 468
Ioana Manolescu, Luc Bouganim, Françoise Fabret, Eric Simon

Quality Issues
Managing Data Quality in Cooperative Information Systems ................................................................. 486
Massimo Mecella, Monica Scannapieco, Antonino Virgillito, Roberto Baldoni, Tiziana Catarci, Carlo Batini

Adaptive Fault Tolerant Hospital Resource Scheduling ................................................................. 503
Umesh Deshpande, Arvind Gupta, Anupam Basu

COOPIS 2002 POSTERS
Agents & Middlewares
Mining ‘Living’ Data – Providing Context Information to a Negotiation Process .................................................. 521
Simeon J. Simoff

The Neem Platform: An Evolvable Framework for Perceptual Collaborative Applications ........................................ 522
P. Barthelmess, C.A. Ellis
XVIII Table of Contents

A Model for Process Service Interaction ........................................ 524
    Karim Baïna, Samir Tata, Khalid Benali

Cooperative Systems

Leveraging Dynamic Inheritance in Complex Ontology Representation . . . 525
    Hasan M. Jamil, Giovanni A. Modica

A Database Approach to Global Document Spaces: Replacing Files
with Shared, Connected Objects ..................................................... 526
    G. Rivera, M.C. Norrie

PROLOG/RDBMS Integration in the NED Intelligent
Information System ................................................................. 528
    F. Maier, D. Nute, W.D. Potter, J. Wang, M. Twery, H.M. Rauscher,
    P. Knopp, S. Thomasma, M. Dass, H. Uchiyama

New Location Management for Reducing HLR Overhead Traffic in
Mobile Networks ................................................................. 529
    Dong Chun Lee, Hyun Cheul Shin, Jeom Goo Kim

DOA 2002 FULL PAPERS

ORB Enhancements

A Filter Object Framework for MICO ........................................... 531
    Pranav S. Nabar, Amit L. Padalkar, Rushikesh K. Joshi

Design and Performance of a Modular Portable Object Adapter
for Distributed, Real-Time, and Embedded CORBA Applications ....... 549
    Raymond Klefstad, Arvind S. Krishna, Douglas C. Schmidt

Design and Performance of Asynchronous Method
Handling for CORBA .............................................................. 568
    Mayur Deshpande, Douglas C. Schmidt, Carlos O’Ryan,
    Darrell Brunsch

Web Services

Web Services Interoperability: A Practitioner’s Experience ............ 587
    Pradyumna Siddhartha, Shubhashis Sengupta

Cooking the Web-ERP ............................................................ 602
    Michael Gillmann, Joachim Hertel, Christoph G. Jung,
    Günther Kaufmann, Michael Wolber

Web Services and CORBA ....................................................... 618
    Seán Baker
## Composing and Deploying Grid Middleware Web Services Using Model-Driven Architecture

*Aniruddha Gokhale, Balachandran Natarajan*  
633

## Distributed Object Scalability and Heterogeneity

A Design Pattern for Efficient Retrieval of Large Data Sets from Remote Data Sources  
*Brad Long*  
650

Replacement Policies for a Distributed Object Caching Service  
*Hilla Atzmon, Roy Friedman, Roman Vitenberg*  
661

Design and Performance of a Media Gateway Trader  
*Hans Ole Rafaelsen, Frank Eliassen*  
675

## Dependability, Security, Assurance

Object Security Attributes: Enabling Application-Specific Access Control in Middleware  
*Konstantin Beznosov*  
693

Integrating Optimistic Virtual Synchrony to a CORBA Object Group Service  
*Gláucia de Oliveira Dias, Alba Cristina Magalhaes Alves de Melo*  
711

Implementing a CORBA-Based Architecture for Leveraging the Security Level of Existing Applications  
*D. Cotroneo, A. Mazzeo, L. Romano, S. Russo*  
723

Reconciling Replication and Transactions for the End-to-End Reliability of CORBA Applications  
*Pascal Felber, Priya Narasimhan*  
737

## Reflection and Reconfiguration

Runtime Performance Modeling and Measurement of Adaptive Distributed Object Applications  
*John Zinky, Joseph Loyall, Richard Shapiro*  
755

An Infrastructure for Adaptable Middleware  
*Pierre-Charles David, Thomas Ledoux*  
773

A Reflective Middleware Framework for Communication in Dynamic Environments  
*Sebastian Gutierrez-Nolasco, Nalini Venkatasubramanian*  
791
Mobility

A Dynamic Proxy Based Architecture to Support Distributed Java Objects in a Mobile Environment ................................................. 809
Gregory Biegel, Vinny Cahill, Mads Haahr

A CORBA-Based Workflow Management System for Wireless Communication Environments ...................................................... 827
Leonardo Hartleben Reinehr, Maria Beatriz Felgar de Toledo

Customizable Deployment, Composition, and Hosting of Distributed Java Applications .......................................................... 845
Stefan Paul, Reiner Kammüller, Bernd Freisleben

Resource Discovery for Pervasive Environments ............................................. 866
Andry Rakotonirainy, Greg Groves

Real-Time Scheduling and Performance

An Adaptive Scheduling Service for Real-Time CORBA ......................... 884
Alexandre Cervieri, Rômulo Silva de Oliveira, Cláudio F. Resin Geyer

The Design and Performance of the jRate Real-Time Java Implementation ................................................................. 900
Angelo Corsaro, Douglas C. Schmidt

Empirical Differences between COTS Middleware Scheduling Strategies ............................................................ 922
Christopher D. Gill, Fred Kuhns, Douglas C. Schmidt, Ron K. Cytron

Component Based Applications

Adding Business Rules and Constraints in Component Based Applications .......................................................... 948
Antonio Coronato, Marco Cinquegrani, Giuseppe De Pietro

Configuring the Communication Middleware to Support Multi-user Object-Oriented Environments ........................................... 965
Sandra Teixeira, Pedro Vicente, Alexandre Pinto, Hugo Miranda, Luis Rodrigues, Jorge Martins, António Rito-Silva

Distributed Component System Based on Architecture Description: The SOFA Experience ...................................................... 981
Tomáš Kalibera, Petr Tůma

On Components with Explicit Protocols Satisfying a Notion of Correctness by Construction .................................................. 995
Andrés Farías, Mario Südholt
ODBASE 2002 FULL PAPERS

Ontology Languages

Well-Founded Optimism: Inheritance in Frame-Based Knowledge Bases .................................................. 1013
  Guizhen Yang, Michael Kifer

A Defeasible Ontology Language .............................................. 1033
  S. Heymans, D. Vermeir

On the Semantics of Anonymous Identity and Reification ............. 1047
  Guizhen Yang, Michael Kifer

Extending Datatype Support in Web Ontology Reasoning .............. 1067
  Jeff Z. Pan, Ian Horrocks

Conceptual Modelling and Ontologies

A Conceptual Modeling Approach for Semantics-Driven Enterprise Applications .................................................. 1082
  Boris Motik, Alexander Maedche, Raphael Volz

Towards Ontological Foundations for UML Conceptual Models ......... 1100
  Giancarlo Guizzardi, Heinrich Herre, Gerd Wagner

Towards Secure Object Oriented Database Systems ................... 1118
  Yun Bai

Ontology Management

Information-Flow-Based Ontology Mapping ............................... 1132
  Yannis Kalfoglou, Marco Schorlemmer

The Semantics of Semantic Annotation .................................... 1152
  Sean Bechhofer, Leslie Carr, Carole Goble, Simon Kampa, Timothy Miles-Board

A User Behavior-Based Agent for Improving Web Usage ............... 1168
  Francesco Buccafurri, Gianluca Lax, Domenico Rosaci, Domenico Ursino

Usage-Oriented Evolution of Ontology-Based Knowledge Management Systems .................................................. 1186
  Nenad Stojanovic, Ljiljana Stojanovic
