## Contents

1 **Introduction**  
1.1 Notation ........................................... 1  
1.2 Relations .......................................... 2  
1.3 Functions .......................................... 5  
1.4 Fuzzy Subsets ...................................... 6  
1.5 Semigroups .......................................... 7  
1.6 Codes ................................................ 12  
1.7 Finite-State Machines .............................. 20  
1.8 Finite-State Automata .............................. 21  
1.9 Languages and Grammars ......................... 25  
1.10 Nondeterministic Finite-State Automata .......... 30  
1.11 Relationships Between Languages and Automata .... 34  

2 **Fuzzy Ideals** .................................. 39  
2.1 Introduction ....................................... 39  
2.2 Ideals in Semigroups .............................. 40  
2.3 Fuzzy Ideals in Semigroups ....................... 40  
2.4 Fuzzy Bi-ideals in Semigroups .................... 43  
2.5 Fuzzy Interior Ideals in Semigroups ............... 45  
2.6 Fuzzy Quasi-ideals in Semigroups ................. 48  
2.7 Fuzzy Generalized Bi-ideals in Semigroups ....... 52  
2.8 Fuzzy Ideals Generated by Fuzzy Subsets of Semigroups .... 53
viii Contents

3 Regular Semigroups 59
  3.1 Regular Semigroups .................................. 59
  3.2 Completely Regular Semigroups ..................... 76
  3.3 Intra-regular Semigroups ............................ 79
  3.4 Semisimple Semigroups ............................... 87
  3.5 On Fuzzy Regular Subsemigroups of a Semigroup .... 92
  3.6 Fuzzy Weakly Regular Subsemigroups ................ 95
  3.7 Fuzzy Completely Regular and Weakly Completely Regular Subsemigroups ................... 97
  3.8 Weakly Regular Semigroups ........................... 99

4 Semilattices of Groups 101
  4.1 A Semilattice of Left (Right) Simple Semigroups .... 101
  4.2 A Semilattice of Left (Right) Groups ................. 105
  4.3 A Semilattices of Groups ............................ 113
  4.4 Fuzzy Normal Semigroups ............................. 119
  4.5 Convexity and Green's Relations ..................... 124
  4.6 The Compact Convex Set of Fuzzy Ideals .............. 125
  4.7 Fuzzy Ideals and Green's Relations .................. 126

5 Fuzzy Congruences on Semigroups 131
  5.1 Fuzzy Congruences on a Semigroup ................... 131
  5.2 Fuzzy Congruences on a Group ........................ 133
  5.3 Fuzzy Factor Semigroups ............................. 139
  5.4 Homomorphism Theorems .............................. 142
  5.5 Idempotent-separating Fuzzy Congruences .......... 144
  5.6 Group Fuzzy Congruences ............................ 146
  5.7 The Lattice of Fuzzy Congruence Relations on a Semigroup 147
  5.8 Fuzzy Congruence Pairs of Inverse Semigroups ........ 153
  5.9 Fuzzy Rees Congruences on Semigroups ................ 159
  5.10 Additional Fuzzy Congruences on Semigroups ......... 167

6 Fuzzy Congruences on $T^*$-pure Semigroups 169
  6.1 $T^*$-pure Semigroups ................................ 169
  6.2 Semilattice Fuzzy Congruences ....................... 175
  6.3 Group Fuzzy Congruences ............................. 178

7 Prime Fuzzy Ideals 183
  7.1 Preliminaries ....................................... 183
  7.2 Prime Fuzzy Ideals .................................. 185
  7.3 Weakly Prime Fuzzy Ideals ......................... 188
  7.4 Completely Prime and Weakly Completely Prime Fuzzy Ideals 189
  7.5 Relationships ....................................... 190
  7.6 Types of Prime Fuzzy Left Ideals ................... 191
  7.7 Prime Fuzzy Left Ideals ............................. 193

8 Fuzzy Codes on Free Monoids  219
8.1 Fuzzy Codes                                    219
8.2 Prefix Codes                                   222
8.3 Maximal Fuzzy Prefix Codes                     236
8.4 Algebraic Properties of Fuzzy Prefix Codes on a Free Monoid 229
8.5 Fuzzy Prefix Codes Related to Fuzzy Factor Theorems  236
8.6 Equivalent Depictions of Fuzzy Codes           241
8.7 Fuzzy Codes and Fuzzy Submonoids               247
8.8 An Algorithm of test for Fuzzy Codes            250
8.9 Measure of a Fuzzy Code                         254
8.10 Code Theory and Fuzzy Subsemigroups            257
8.11 Construction of Examples by Closure Systems    259
8.12 Examples by ∗-morphisms                       261

9 Generalized State Machines                       265
9.1 $T$-generalized State Machines                  265
9.2 $T$-generalized Transformation Semigroups        267
9.3 Coverings                                      270
9.4 Direct Products                                271
9.5 Decompositions of $T$-generalized Transformation Semigroups 276
9.6 On Proper Fuzzification of Finite State Machines 282
9.7 Generalized Fuzzy Finite State Machines          283
9.8 Fuzzy Relations and Fuzzy Finite State Machines  284
9.9 Completion of Fuzzy Finite State Machines        286
9.10 Generalized State Machines and Homomorphisms    288

10 Regular Fuzzy Expressions                       291
10.1 Regular Fuzzy Expressions                      291
10.2 Codes Over Languages                           296
10.3 Regulated Codes and Fuzzy Grammars             297

References                                      303
