DILS 2004 (Data Integration in the Life Sciences) is a new bioinformatics workshop focusing on topics related to data management and integration. It was motivated by the observation that new advances in life sciences, e.g., molecular biology, biodiversity, drug discovery and medical research, increasingly depend on bioinformatics methods to manage and analyze vast amounts of highly diverse data. Relevant data is typically distributed across many data sources on the Web and is often structured only to a limited extent. Despite new interoperability technologies such as XML and web services, integration of data is a highly difficult and still largely manual task, especially due to the high degree of semantic heterogeneity and varying data quality as well as specific application requirements.

The call for papers attracted many submissions on the workshop topics. After a careful reviewing process the international program committee accepted 13 long and 2 short papers which are included in this volume. They cover a wide spectrum of theoretical and practical issues including scientific/clinical workflows, ontologies, tools/systems, and integration techniques. DILS 2004 also featured two keynote presentations, by Dr. Thure Etzold (architect of the leading integration platform SRS, and president of Lion Bioscience, Cambridge, UK) and Prof. Dr. Svante Pääbo (Director, Max Planck Institute for Evolutionary Anthropology, Leipzig).

The workshop took place during March 25–26, 2004, in Leipzig, Germany, and was organized by the Interdisciplinary Bioinformatics Center (IZBI) of the University of Leipzig. IZBI was founded in 2002, and became one of five German bioinformatics centers funded by the German Research Association (DFG) after a highly competitive selection process. The University of Leipzig, founded in 1409, has chosen biotechnology as one of its high priority fields. Its new Center for Biotechnology and Biomedicine was established in 2003 and closely cooperates with IZBI and other research institutes as well as with industrial partners.

As the workshop chair and editor of this volume, I would like to thank all authors who submitted papers, as well as the program committee members and additional referees for their excellent work in evaluating the submissions. Special thanks go the Max Planck Institute for Evolutionary Anthropology for providing us with their new facilities to run the workshop, and the IZBI organization team, in particular Hai Hong Do, Toralf Kirsten and Hans Binder. Finally, I would like to thank Alfred Hofmann and his team at Springer-Verlag for their cooperation and help in putting this volume together.

Leipzig, February 2004

Erhard Rahm
Workshop Chair
International Workshop on Data Integration in the Life Sciences (DILS 2004)

Workshop Chair

Erhard Rahm  
University of Leipzig, Germany

Program Committee

Howard Bilofsky  
GlaxoSmithKline, USA
Terence Critchlow  
Lawrence Livermore National Laboratory, USA
Peter Gray  
University of Aberdeen, UK
Barbara Heller  
University of Leipzig, Germany
Ralf Hofestaedt  
University of Bielefeld, Germany
Jessie Kennedy  
Napier University, Edinburgh, UK
Ulf Leser  
Humboldt University, Berlin, Germany
Bertram Ludäischer  
San Diego Supercomputer Center, USA
Serger Mekinik  
Microsoft Research, USA
Peter Mork  
University of Washington, Seattle, USA
Felix Naumann  
Humboldt University, Berlin, Germany
Frank Olken  
Lawrence Berkeley National Laboratory, USA
Norman Paton  
University of Manchester, UK
Erhard Rahm  
University of Leipzig, Germany
Louisa Raschid  
University of Maryland, USA
Kai-Uwe Sattler  
Technical University Ilmenau, Germany
Steffen Schulze-Kremer  
Freie Universität Berlin, Germany
Robert Stevens  
University of Manchester, UK
Sharon Wang  
IBM Life Sciences, USA
Limsoon Wong  
Institute for Infocomm Research, Singapore

Additional Reviewers

Jens Bleiholder  
Humboldt University, Berlin, Germany
Shawn Bowers  
San Diego Supercomputer Center, USA
Hong-Hai Do  
University of Leipzig, Germany
Ulrike Greiner  
University of Leipzig, Germany
Efrat Jaeger  
San Diego Supercomputer Center, USA
Kai Lin  
San Diego Supercomputer Center, USA
Toralf Kirsten  
University of Leipzig, Germany
Angela Stevens  
Max Planck Institute for Mathematics in the Sciences, Leipzig, Germany
Melanie Weis  
Humboldt University, Berlin, Germany
