## Part I Boris Tsirelson: Scaling Limit, Noise, Stability

---

Introduction . . . . .	5
1 A First Look . . . . .	6
2 Abstract Nonsense of the Scaling Limit . . . . .	17
3 Scaling Limit and Independence . . . . .	28
4 Example: The Noise Made by a Poisson Snake . . . . .	44
5 Stability . . . . .	56
6 Generalizing Wiener Chaos . . . . .	67
7 Example: The Brownian Web as a Black Noise . . . . .	83
8 Miscellany . . . . .	93
References . . . . .	103
Index . . . . .	105

---

## Part II Wendelin Werner: Random Planar Curves and Schramm-Loewner Evolutions

---

1 Introduction . . . . .	113
2 Loewner Chains . . . . .	124
3 Chordal SLE . . . . .	130
4 Chordal SLE and Restriction . . . . .	137
5 SLE and the Brownian Frontier . . . . .	143
6 Radial SLE . . . . .	151
7 Some Critical Exponents for SLE . . . . .	156
8 Brownian Exponents . . . . .	161
9 SLE, UST and LERW . . . . .	169
10 SLE and Critical Percolation . . . . .	176
11 What Is Missing . . . . .	185
References . . . . .	190

List of Participants . . . . .	197
--------------------------------	-----

List of Short Lectures . . . . .	199
