Table of Contents

CD1: Cooperative Design 1

Development of a Cooperative Integration System for AEC Design .......................... 1
Y. Luo, J.M. Dias

Observing Architectural Design: Improving the Development of Collaborative Design Environments .............................................. 12
M. Simpson, S. Viller

Visualisation of Semantic Networks and Ontologies Using AutoCAD .................. 21
M. Mešina, D. Roller, C. Lampasona

Mediating Collaborative Design for Constructing Educational Virtual Reality Environments: A Case Study ................................ 30
Y. Cho, K.S. Park, T. Moher, A.E. Johnson

CV1: Cooperative Visualization 1

openVisaar: Enriching Cooperative Visualization by Combining Open Technologies ......................................................... 38
F. Goetz, G. Domik

Multimodal Interaction in a Collaborative Virtual Brainstorming Environment ........................................................... 47
F. Di Fiore, P. Vandoren, F. Van Reeth

Cooperative Visualization Framework Based on Video Streaming and Real-Time Vectorial Information ................................ 61
J. Bobadilla, L. Mengual

CE1: Cooperative Engineering 1

Experiences in Product, Process, and Facility Development: A Case of Study .............................................................. 69
J. Aca, A. Molina, I. Ferrer, M. Albertí

Implementing Collaborative Engineering Environments Through Reference Model-Based Assessment .................................. 79
C. Vila, F. Romero, M. Contero

A Modularity Framework for Concurrent Design of Reconfigurable Machine Tools ...................................................... 87
## Table of Contents

### CD2: Cooperative Design 2

- A Cooperative Design Environment Using Multi-Agents and Virtual Reality .......................................................... 96  
  N. Yabuki, J. Kotani, T. Shitani

- Using Specifications to Build Domain-Independent Collaborative Design Environments ........................................... 104  
  C. Bravo, J. Gallardo, B. García-Minguillán, M.Á. Redondo

- Fostering Creativity in Cooperative Design ............................................. 115  
  A.S. Vivacqua, J.M. de Souza

### CE2: Cooperative Engineering 2

- Design and Manufacturing Assistance Tool for Drawing Sheet Metal Parts ................................................................. 123  
  M.L. G.-Romeu, Q. de Ciurana

- The Method of Unified Internet-Based Communication for Manufacturing Companies ...................................... 133  
  M. Ota, I. Jelíněk

- Constructing a Global and Integral Model of Business Management Using a CBR System ...................................... 141  
  E. Corchado, J.M. Corchado, L. Sáiz, A. Lara

### CV2: Cooperative Visualization 2

- ‘Under Construction’: The Potential of a Web Based Application in Managing and Maintaining Large Area Urban Modelling ........... 148  
  J. Counsell

- Interest Management for Collaborative Environments Through Dividing Their Shared State ..................................... 156  
  M. Masa, J. Zara

### CD3: Cooperative Design 3

- Using Simulation, Collaboration, and 3D Visualization for Design Learning: A Case Study in Domotics ......................... 164  
  A.I. Molina, M.A. Redondo, C. Bravo, M. Ortega

- A Virtual Reality Framework for RC Building Design and Construction Cooperation ......................................................... 172  
  J. Wang, S.A. Chou, C.C. Chen, C.S. Wang

- Cooperative Design for Artistic Performances .............................. 180  
  M. Masa, J. Zara, B. Ziskal, P. Simetana
CA: Cooperative Applications

GEMMA: A Cooperative Control System to Collect Environmental Marine Waste .......................... 186
B. Estrany, M. Mascaró, A. Bibiloni, G. Serra, E. Sideaner, J. Laredo, B. Capo, B. Alcover

Comparison of Real-Time Text Chat and Collaborative Editing Systems . 196
D. Chen, C. Sun

Design of Cooperative Agents for Mobile Devices .................. 205
J.M. Corchado, E.S. Corchado, M.A. Pellicer

A Building Maintenance Decision Tool for PFI Projects ............ 213
F. Khosrowshahi, R. Howes, G. Aouad

CV3: Cooperative Visualization 3

Collaborative Role Management for Sharing Protected Web Resources . . . 221
S. Encheva, S. Tumin

Envisioning Environmental Futures: Multi-agent Knowledge
Generation, Frame Problem, Cognitive Mapping .................. 230
D. Borri, D. Camarda, A. De Liddo

A Hierarchical Visualization Tool to Analyse the Thermal Evolution of
Construction Materials ........................................ 238
E. Corchado, P. Burgos, M. del Mar Rodríguez, V. Tricio

Author Index .................................................. 247
Cooperative Design, Visualization, and Engineering
Luo, Y. (Ed.)
2004, X, 254 p., Softcover
ISBN: 978-3-540-23149-3
