# Table of Contents

## First International Workshop on Conceptual Modeling for GIS (CoMoGIS 2004)

Preface to CoMoGIS 2004 .................................................. 3
   *Jihong Guan*

### Geographical Conceptual Modeling

A Conceptual Model for Supporting Multiple Representations and Topology Management ........................................... 5
   *Qiang Han, Michela Bertolotto, and Joe Weakliam*

Modeling Geospatial Databases with Plug-Ins for Visual Languages: A Pragmatic Approach and the Impacts of 16 Years of Research and Experimentations on Perceptory .................................... 17
   *Yvan Bédard, Suzie Larrivée, Marie-Josée Proulx, and Martin Nadeau*

Representing Ecological Niches in a Conceptual Model .............. 31
   *Daniel T. Semwayo and Sonia Berman*

A CASE Tool for Geographic Database Design Supporting Analysis Patterns ..................................................... 43
   *Jugurta Lisboa Filho, Victor de Freitas Sodré, Jaudete Daltio, Maurício Fidelis Rodrigues Júnior, and Valério Vilela*

### Spatial Storage, Indexing and Data Consistency

GML Storage: A Spatial Database Approach .......................... 55
   *Yuzhen Li, Jun Li, and Shuigeng Zhou*

TPKDB-Tree: An Index Structure for Efficient Retrieval of Future Positions of Moving Objects ................................. 67
   *Kyoung Soo Bok, Dong Min Seo, Seung Soo Shin, and Jae Soo Yoo*

Moving Point Indexing for Future Location Query .................. 79
   *Hoang Do Thanh Tung, Young Jin Jung, Eung Jae Lee, and Keun Ho Ryu*

Topological Consistency for Collapse Operation in Multi-scale Databases . 91
   *Hae-Kyong Kang, Tae-Wan Kim, and Ki-Joune Li*
Spatial Representation and Spatial Services

Symbolization of Mobile Object Trajectories with the Support to Motion Data Mining ........................................ 103
Xiaoming Jin, Jianmin Wang, and Jiaguang Sun

Representing and Reasoning About Spatial Knowledge Based on Spatial Relevant Logic ................................... 114
Jingde Cheng and Yuichi Goto

Towards System Architecture of Spatial Information Grid and Service-Based Collaboration ................................ 127
Yu Tang, Luo Chen, and Ning Jing

Geo Web Services Based on Semantic ........................................ 139
Yang An, Bo Zhao, and Fulin Bian

Spatial Querying and Retrieval

A Scaleless Data Model for Direct and Progressive Spatial Query Processing .................................................. 148
Sai Sun, Sham Prasher, and Xiaofang Zhou

Querying Heterogeneous Spatial Databases: Combining an Ontology with Similarity Functions .......................... 160
Mariella Gutiérrez and Andrea Rodríguez

Retrieval of Heterogeneous Geographical Information Using Concept Brokering and Upper Level Ontology .......... 172
Shanzhen Yi, Bo Huang, and Weng Tat Chan

A New Quick Point Location Algorithm ........................................ 184
José Poveda, Michael Gould, and Arlindo Oliveira

First International Workshop on Conceptual Model-Directed Web Information Integration and Mining (CoMWIM 2004)

Preface to CoMWIM 2004 ..................................................... 197
Dongqing Yang, Shiwei Tang, Jian Pei, Tengjiao Wang, and Jun Gao

Web Information Integration

Checking Semantic Integrity Constraints on Integrated Web Documents .................................................. 198
Franz Weitl and Burkhard Freitag

X2S: Translating XPath into Efficient SQL Queries ........................................ 210
Jun Gao, Dongqing Yang, and Yunfeng Liu

Table of Contents

Third International Workshop on Evolution and Change in Data Management (ECDM 2004)

Preface to ECDM 2004 ................................................. 349
   Fabio Grandi

Systems Evolution Support in Conceptual Modeling

Automatic Integrity Constraint Evolution due to Model Subtract Operations .................................. 350
   Jordi Cabot and Jordi Conesa

An Ontological Framework for Evolutionary Model Management .......... 363
   Atsushi Matsuo, Kazuhisa Seta, Yusuke Hayashi, and Mitsuru Ikeda

Elementary Translations: The Seesaws for Achieving Traceability Between Database Schemata ........................................ 377
   Eladio Domínguez, Jorge Lloret, Ángel L. Rubio, and María A. Zapata

Temporal and Evolution Aspects in Internet-Based Information Systems

Towards the Management of Time in Data-Intensive Web Sites ............... 390
   Paolo Atzeni and Pierluigi Del Nostro

Evolution of XML-Based Mediation Queries in a Data Integration System ........................................ 402
   Bernadette Farias Lóscio and Ana Carolina Salgado

Schema Evolution and Versioning in Data Management

Schema Versioning in Data Warehouses .................................. 415
   Matteo Golfarelli, Jens Lechtenbörger, Stefano Rizzi, and Gottfried Vossen

Facilitating Database Attribute Domain Evolution Using Mesodata.......... 429
   Denise de Vries and John F. Roddick

Multitemporal Conditional Schema Evolution ................................ 441
   Ole G. Jensen and Michael H. Böhlen

First International Workshop on Conceptual Modeling for Agents (CoMoA 2004)

Preface to CoMoA 2004 ................................................. 457
   Eleni Mangina
Conceptual Modelling of Agents

A Sociological Framework for Multi-agent Systems Validation and Verification .................................................... 458
Rubén Fuentes, Jorge J. Gómez-Sanz, and Juan Pavón

Spatio-temporal Relevant Logic as the Logical Basis for Specifying, Verifying, and Reasoning About Mobile Multi-agent Systems ............... 470
Jingde Cheng

Towards an Ontology for Agent Mobility ............................................. 484
Rosanne Price, Shonali Krishnaswamy, Seng W. Loke, and Mohan B. Chhetri

Agents’ Applications and Conceptual Models

Subjective Trust Inferred by Kalman Filtering vs. a Fuzzy Reputation .... 496
Javier Carbo, Jesus Garcia, and Jose M. Molina

Conceptual Model of BDI Agents within an ITS ................................. 506
Frances Mowlds and Bernard Joseph Roche

Model-Driven Agent-Based Web Services IDE ................................. 518
Yinsheng Li, Weiming Shen, Hamada Ghenniwa, and Xiaohua Lu

AFDM: A UML-Based Methodology for Engineering Intelligent Agents .. 529
Yanjun Tong, Gregory M.P. O’Hare, and Rem Collier

Preface to DGOV 2004 .......................................................... 541
Il-Yeol Song and Jin-Taek Jung

Digital Government: Systems

IECS: An Integrated E-Community System for Management, Decision and Service ............................................................... 542
Yu Bo, Yunhai Tong, Hongding Wang, Zhang Peng, Shiwei Tang, and Dongqing Yang

WebDG – A Platform for E-Government Web Services ....................... 553
Athman Bouguettaya, Brahim Medjahed, Abdelmounaam Rezgui, Mourad Ouzzani, Xumin Liu, and Qi Yu

A Study on Camera-Detector System for Traffic Control in Korea ........ 566
Chang-Hee Kwon and Hong-Jin Park
Digital Government: Technologies

Ontology-Based Models of Legal Knowledge ........................................ 577
Maria-Teresa Sagri and Daniela Tiscornia

Aspects of Regulatory and Legal Implications on e-Voting .................... 589
Athanassios Kosmopoulos

Architecture for Implementing the Mobile Government Services in Korea .. 601
Yoojung Kim, Jongsoo Yoon, Seungbong Park, and Jaemin Han

Fifth International Workshop on Conceptual Modeling Approaches for E-Business (eCOMO 2004)

Preface to eCOMO 2004 ........................................................................... 615
Heinrich C. Mayr and Willem-Jan van den Heuvel

E-Business Systems Requirements Engineering

Modeling Business Strategy in E-Business Systems
Requirements Engineering ........................................................................ 617
Steven J. Bleistein, Karl Cox, and June Verner

A Method and Tool for Wide Audience Requirements Elicitation
and Rapid Prototyping for Mobile Systems ............................................. 629
Matti Rossi and Tuure Tuunanen

Methodology for the Development of a Sectoral Standard for EDI .......... 641
Reyes Grangel and Ricardo Chalmeta

E-Business Processes and Infrastructure

Classification of Business Process Correspondences
and Associated Integration Operators .................................................... 653
Georg Grossmann, Michael Schrefl, and Markus Stumptner

On Behavioural Model Transformation in Web Services ...................... 667
Behzad Bordbar and Athanasios Staikopoulos

Model-Driven Planning and Development of Infrastructures
for E-Commerce ..................................................................................... 679
Ulrich Frank

Author Index ............................................................................................ 691
Conceptual Modeling for Advanced Application Domains
ER 2004 Workshops CoMoGIS, CoMWIM, ECDM, CoMoA, DGOV, and eCOMO, Shanghai, China, November 8-12, 2004. Proceedings
2004, XXII, 696 p., Softcover
ISBN: 978-3-540-23722-8
