

# Table of Contents

|   |           |
|---|-----------|
| <b>Introduction</b>   | <b>1</b>  |
| <b>1 Stochastic Differential Equations</b>                            | <b>5</b>  |
| 1.1 General Definitions . . . . .                                     | 5         |
| 1.2 Sufficient Conditions for Existence and Uniqueness . . . . .      | 9         |
| 1.3 Ten Important Examples . . . . .                                  | 12        |
| 1.4 Martingale Problems . . . . .                                     | 19        |
| 1.5 Solutions up to a Random Time . . . . .                           | 23        |
| <b>2 One-Sided Classification of Isolated Singular Points</b>         | <b>27</b> |
| 2.1 Isolated Singular Points: The Definition . . . . .                | 27        |
| 2.2 Isolated Singular Points: Examples . . . . .                      | 32        |
| 2.3 One-Sided Classification: The Results . . . . .                   | 34        |
| 2.4 One-Sided Classification: Informal Description . . . . .          | 38        |
| 2.5 One-Sided Classification: The Proofs . . . . .                    | 42        |
| <b>3 Two-Sided Classification of Isolated Singular Points</b>         | <b>65</b> |
| 3.1 Two-Sided Classification: The Results . . . . .                   | 65        |
| 3.2 Two-Sided Classification: Informal Description . . . . .          | 66        |
| 3.3 Two-Sided Classification: The Proofs . . . . .                    | 69        |
| 3.4 The Branch Points: Non-Markov Solutions . . . . .                 | 73        |
| 3.5 The Branch Points: Strong Markov Solutions . . . . .              | 75        |
| <b>4 Classification at Infinity and Global Solutions</b>              | <b>81</b> |
| 4.1 Classification at Infinity: The Results . . . . .                 | 81        |
| 4.2 Classification at Infinity: Informal Description . . . . .        | 82        |
| 4.3 Classification at Infinity: The Proofs . . . . .                  | 85        |
| 4.4 Global Solutions: The Results . . . . .                           | 86        |
| 4.5 Global Solutions: The Proofs . . . . .                            | 88        |
| <b>5 Several Special Cases</b>  | <b>93</b> |
| 5.1 Power Equations: Types of Zero . . . . .                          | 93        |
| 5.2 Power Equations: Types of Infinity . . . . .                      | 97        |
| 5.3 Equations with a Constant-Sign Drift: Types of Zero . . . . .     | 99        |
| 5.4 Equations with a Constant-Sign Drift: Types of Infinity . . . . . | 102       |

|  |            |
|--|------------|
| <b>Appendix A: Some Known Facts</b>      | <b>105</b> |
| A.1 Local Times . . . . .                | 105        |
| A.2 Random Time-Changes . . . . .        | 107        |
| A.3 Bessel Processes . . . . .           | 108        |
| A.4 Strong Markov Families . . . . .     | 110        |
| A.5 Other Facts . . . . .                | 111        |
| <b>Appendix B: Some Auxiliary Lemmas</b> | <b>113</b> |
| B.1 Stopping Times . . . . .             | 113        |
| B.2 Measures and Solutions . . . . .     | 114        |
| B.3 Other Lemmas . . . . .               | 116        |
| <b>References</b>                        | <b>119</b> |
| <b>Index of Notation</b>                 | <b>123</b> |
| <b>Index of Terms</b>                    | <b>127</b> |

Singular Stochastic Differential Equations

Cherny, A.S.; Engelbert, H.-J.

2005, VIII, 128 p., Softcover

ISBN: 978-3-540-24007-5
